COURSES OF STUDY

There are three courses of study: the High School, the Normal, and the College. See p. 8 for entrance requirements.

NOTE.—The figures denote the number of recitations, or their equivalent, a week. All studies continue throughout the year, unless otherwise indicated. Subjects italicized are *elective* in the group in which they occur.

The High School

The Classical Course prepares for the College courses.

The English Course prepares for the College Course in Education and the Normal Course.

It is not intended that the above groups shall be absolutely rigid, but that the Faculty may make changes in the method of grouping to meet special conditions.

No subject is ordinarily offered unless elected by at least four students.

* Sen. Prep. Mech. Arts prerequisite for Mech. Arts Group.

The College Course in Education includes in its first two years the college work required of all (15), Psychology A (2), and the Junior Normal subjects (17). In its last two years it includes the college work required of all (9, as Pedagogy B is in the next group), the Senior Normal subjects (17), and such other Junior or Senior College work (8) as will compete the number of courses needed.

The Kindergarten Course is parallel with the Normal Course, including in the Junior year Children's Hand-work and Games (2), Froebel's Gifts and Occupations (4); and in the Senior year Practice Teaching (5 or 6), Kindergarten Principles (2), Froebel's Mother-play (3); and such other assigned Junior and Senior Normal work as will complete the number of courses needed in each class respectively.

ENTRANCE REQUIREMENTS

The requirement for admission to the lowest class in the High School is the completion of the ordinary grammar school course. Examinations are given in arithmetic, grammar, U. S. history and geography. For admisson to higher classes and courses students are required to give evidence that they have completed all lower work, or its equivalent.

Candidates for advanced standing, from certain schools on a list approved by the faculty, are admitted almost wholly by certificate; though even such candidates are usually examined in some subjects. Certificates must be explicit, on blanks provided by us. Principals filling out such certificates are referred to the descriptions of Preparatory Courses, under "Courses of Instruction," p. 10 ff., as a guide indicating the character and amount of work expected by us in the various subjects.

The requirement of four full years for admission to the Normal course does not go into full effect until the fall of 1914. Three years of high school work, judged by our standards, will suffice for admission to this course in the fall of 1912.

Post-Graduate Course

The following information is given concerning the conditions which must be met by candidates wishing to receive the degree of A. M. from Atlanta University:

1. Post-graduate work is under the supervision of a standing committee, composed of the President and two other members of the Faculty.

2. It is the duty of this committee to admit candidates to registration, oversee their work, and recommend such as they approve to the Faculty as suitable candidates for the degree of Master of Arts.

3. Candidates shall select their courses of study under the supervision of this committee. In the case of non-resident as well as resident candidates, instructors for each course shall be designated by the committee.

4. Forty credits shall be necessary to the granting of a degree, this being equivalent to four courses during one year of resident work, or to an approved number of courses during at least two years of non-resident work.

5. In the case of non-resident students it is expected:

(a) That a minimum of two hours a day for 104 weeks will be given to the study.
(b) That written quarterly reports be submitted regularly to the committee on graduate work, stating in detail the work done.
(c) That a written thesis be submitted at the end of the first year's work.
(d) That a written examination be passed at Atlanta University before the conferring of the degree.

In imposing the above conditions the committee may take such account as they think proper of work already done by the student before registration. The Trustees have authorized the granting of credit for advanced work, either as student or teacher, in other schools of high rank. Application for credit, for work done before registration, must be made to the President, and must be explicit and in detail.

6. The course of study open to graduate students, subject to the approval of the committee, shall be:

(a) Any of the advanced courses given in the catalogue which the student has not had.
(b) Any other practicable courses suggested by the standing committee or the candidate.

7. The fee is $20.00, i. e., the same as the college tuition for one year. The diploma is $5.00 additional.

Two Fellowships have been established by the Trustees, open to college graduates. Holders of these fellowships will have part of their time for study, and will also, for a moderate compensation, be assigned to certain work as teachers or assistants of teachers.

Three Tutorships have been similarly established for graduates of the normal course. Holders of these tutorships will be assigned to work in the Oglethorpe School; one in the kindergarten, two in the grades.

Further particulars can be learned from the President.

COURSES OF INSTRUCTION

The figures denote the number of recitations, or their equivalent, a week. All studies continue throughout the year unless otherwise indicated.

I. CLASSICS AND MODERN LANGUAGES

PREPARATORY COURSES

LATIN A^5. First Year. Fundamental principles. Text book, Bennett's First Year Latin. Required of all.

LATIN B^5. Second Year. The equivalent of four books of Cæsar; drill in grammar and prose composition. Greenough, D'Ooge and Daniell's Second Year Latin.

LATIN C^5. Junior Prep. Six orations of Cicero. Prose composition.

LATIN D^4. Senior Prep. Six books of Virgil. Prosody and Mythology.

GREEK A^5. Senior Prep. Elementary, and two books of Xenophon's Anabasis.

COLLEGE COURSES

LATIN I^4. Freshman. Selections from Cicero, Livy and Horace, or equivalents; attention also given to Roman history and literature.

LATIN II^4. Sophomore. Selections from Tacitus and other Latin authors.

GREEK I^5. Selections from Lucian, Herodotus and Homer.

GREEK II^4. Sophomore. Three Olynthiacs of Demosthenes, Plato's Apology, Æschylus's Prometheus Bound, selections from Greek Testament. Or, equivalents in either year.

GERMAN I^5. Sophomore. Elementary, followed by easy reading, then a selected classic, as Schiller's William Tell. Required of all.

FRENCH I^4. Senior. Chardenal's Complete Course, supplemented by exercises in conversation, and the stories L'Abbé Constantin and Gil Blas, or their equivalents. Required of all.

II. PHYSICAL AND NATURAL SCIENCES

PREPARATORY COURSES

PHYSICAL GEOGRAPHY $(\frac{1}{2})^5$. Second Year. Elementary.

BIOLOGY A^3. Junior Prep. Physiology one-half year; and botany, and also elements of agriculture, one-half year. At least three periods weekly required of all.

CHEMISTRY A^4. Junior Prep. Elementary, one-third of the time being given to laboratory work.

PHYSICS A^4. Senior Prep. Elementary, one-third of the time being given to laboratory work; experiments in physical measurements, mechanics of solids and fluids, heat, light, sound and electricity. Required of all.

COLLEGE COURSES

CHEMISTRY I[4]. Open to Freshmen. One-half of time given to laboratory work. General chemistry.

CHEMISTRY II[4]. Open to Sophomores. Qualitative analysis.

PHYSICS I[4]. Open to Juniors. Mathematics I, II and III are prerequisites. One-half of time given to laboratory work, and one-half to lectures, demonstrations and recitations.

BIOLOGY ($\frac{1}{2}$)[4]. Open to Juniors. (To be announced next year.)

GEOGRAPHY ($\frac{1}{2}$)[4]. Open to Juniors. Including mathematical and astronomical geography.

GEOLOGY ($\frac{1}{2}$)[4]. Open to Juniors. Dynamical and structural, followed by an outline of historic.

ASTRONOMY ($\frac{1}{2}$)[4]. Open to Juniors. Special attention paid to mathematical astronomy.

NORMAL COURSES

See GEOGRAPHY and GEOLOGY, under PEDAGOGY.

LABORATORIES AND CABINETS. The physical laboratory, 50x20 feet, and the chemical laboratory, 50x25, are fitted and furnished for the elementary and advanced courses. A well-equipped science lecture room is furnished with apparatus for class demonstration and lecture purposes. The geological and mineralogical cabinets are well adapted to teaching purposes.

III. MATHEMATICS

PREPARATORY COURSES

A[5]. ALGEBRA. First or Second Year. Elementary, including ratio and proportion, radicals, radical equations, theory of exponents, the binomial theorem, simple quadratics, use of the graph. Required of all.

B ($\frac{1}{2}$)[5]. GEOMETRY. Junior Prep. The more essential principles of plane geometry, including the simpler originals, theorems and constructions. Required of all.

C ($\frac{1}{2}$)[5]. GEOMETRY. Junior Prep. More complete work in the foregoing: loci, incommensurables and variables.

D[4]. ALGEBRA. Senior Prep. Review of elementary work, and especial drill in quadratics, complex numbers, logarithms, the use of the graph.

E ($\frac{1}{2}$)[5]. BUSINESS METHODS. Junior Prep. Designed to give a general knowledge of business forms and the keeping of accounts.

COLLEGE COURSES

I[4]. Freshman. ALGEBRA one-half year, with especial drill in series, determinants, solutions of higher equations; and GEOMETRY one-half year, solid and spherical, with problems. Required of all.

II ($\frac{1}{2}$)[4]. TRIGONOMETRY. Sophomore. Plane and spherical, with practical applications, including spherical astronomy; and surveying, with field practice. Required of all.

III ($\frac{1}{2}$)[4]. ANALYTICS. Sophomore.
IV[4]. CALCULUS. Junior.
} The classes will take up the topics usually treated under these heads, with special application to engineering problems.

For ENGINEERING and MECHANICS, see MECHANIC ARTS.

IV. ENGLISH

PREPARATORY COURSES

ENGLISH A[5]. First Year. First Semester: Review of grammar; a brief study of description, narration, exposition and argument; practice in writing. Text books, Hitchcock's Practice Book and Woolley's Hand-book of Composition. Second Semester: Further drill in composition; outlines of the history of the apostolic church, using the Bible Study Union lesson system. Required of all.

ENGLISH B[5]. Second Year. General survey of both English and American literature. Reading and memorizing, with oral and written reports. Required of all.

ENGLISH C[3]. Junior Prep. Detailed study of selected classics: Julius Cæsar, Merchant of Venice, Silas Marner, Lorna Doone, Tale of Two Cities, Vicar of Wakefield, Spectator Papers; and Shakford-Judson's Composition. Required of all.

ENGLISH D[4]. Senior Prep. (To be announced next year.)

BIBLE A. See under ENGLISH A.

BIBLE B ($\frac{1}{2}$)[5]. Sen. Prep. Outlines of Old Testament History, using the Bible Study Union lesson system.

ELOCUTION A and B. Twice a week during one semester, for students in Second and Fourth Years; each time taking the place of one exercise in ENGLISH B and D. Drill in vocal expression, voice training and pantomime.

NORMAL COURSES

ENGLISH ($\frac{1}{2}$)[4]. Senior. Advanced work in narration, description, exposition and argumentation, using Lamont's English Composition, with Woolley's Hand-book of Composition for criticism of the mechanical details of the practice work. Each student prepares a book of myth stories taken from Gayley's Classic Myths in English Literature.

ELOCUTION. Senior. Similar to College Course.

COLLEGE COURSES

ENGLISH I[4]. Freshman. Detailed study of several extended classics; lectures upon the art of composition; elementary argumentation. Required of all.

ENGLISH II $(\frac{1}{2})^4$. Junior. Argumentation. Study of text book for theory, and practice in writing briefs and forensics. Required of all.

BIBLE I $(\frac{1}{2})^4$. Junior. After a study of the formation of the canon, of the various versions, and of the literary qualities of the Bible, the historical method is used in a study of the history of the Hebrew people through the Greek period. Text: The Old Testament and Sanders and Fowler's Outlines of Biblical History and Literature. Collateral reading. Required of all.

ELOCUTION I ($\frac{1}{2}$ year), Freshman, and II, Senior. Voice culture, physical exercises, gesture drills, and training in reading from standard literature. The aim in this department is to lead the pupil to think clearly and deeply, and to express simply, forcefully, and beautifully, his own thoughts and the thoughts of others. As an outcome of this study, the Merchant of Venice was presented as the class night exercise in 1905, the Taming of the Shrew in 1906, As You Like It in 1907, Twelfth Night in 1908, Sheridan's Rivals in 1909, The Tempest in 1910, and Midsummer Night's Dream in 1911.

PUBLIC RHETORICALS. Rhetorical exercises, to which the public is especially invited, are held six times a year, being made up of orations, essays, recitations and music. For the dates, see *Calendar*.

V. PHILOSOPHY

COLLEGE COURSES

PSYCHOLOGY I $(\frac{1}{2})^4$. Sophomore. The text book, Angell's, is supplemented by collateral readings, lectures and experiments. This is an introductory course, giving a general survey of the essential facts and fundamental laws of mind and of consciousness. References: James, Baldwin, Calkins, Murray, Sully, Spencer, Munsterberg, Ladd.

HISTORY OF PHILOSOPHY I $(\frac{1}{2})^4$. Junior. A study of the development of philosophic thought, beginning with the Greeks, continuing through the Renaissance, the modern systems from Bacon and Descartes through Kant, and the important developments since Kant. The text book will be supplemented by lectures and required readings in the sources. Text: Rogers. References: Bakewell, Rand, Eberweg, Erdmann, Royce, Windelband, Lotze.

ETHICS I $(\frac{1}{2})^4$. Senior. A systematic course, investigating the psychological basis of conduct, tracing the growth of moral ideas in the race and discussing the various theories of the moral standard, with especial reference to the social consciousness. A thesis is required of each student. Text: Dewey and Tufts. References: Mackenzie, Paulsen, Muirhead, Spencer, Baldwin, Sidgwick.

NORMAL COURSES

See under PEDAGOGY.

VI. SOCIOLOGY AND HISTORY

It is intended to develop this department not only for the sake of the mental discipline, but also in order to familiarize our students with the history of nations and with the great economic and social problems of the world. It is hoped that thus they may be able to apply broad and careful knowledge to the solving of the many intricate social questions affecting their own people. The department aims, therefore, at training in good, intelligent citizenship; at a thorough comprehension of the chief problems of wealth, work, and wages; at a fair knowledge of the objects and methods of social reform; and at a general comprehension of the world's thoughts and deeds. The following courses are established:

PREPARATORY COURSES

CIVICS A $(\frac{1}{2})^5$. Second Year. Dole's American Citizen.

HISTORY A^5. First or Second Year. A course in English history with a special desire to show the development of England and its relation to Western Europe, the New World, the far East, and Africa. Or, general history; the first semester, to 800 A.D., and the second semester, to 1900 A.D. Required of all.

HISTORY B $(\frac{1}{2})^5$. Senior Prep. United States history, and history of the Negro in America.

NORMAL COURSES

HISTORY $(\frac{1}{2})^4$. Junior. A course in the history of the United States, intended especially for teachers. Special attention is given to the Negro's connection with the history of the United States. A thesis on slavery, embodying results of personal research, is required of each student.

CIVICS $(\frac{1}{2})^4$. Junior. A course in the government of the United States, with special reference to its historical development.

COLLEGE COURSES

HISTORY ^{4}. Junior. World history; and history of the Negro, with special reference to the United States and Africa.

ECONOMICS ^{3}. Junior. General economics, and economic history of the Negro American. The principles of political science are included in this course.

SOCIOLOGY ^{4}. Senior. General sociology, and social condition of the Negro American.

SOCIOLOGICAL LABORATORY. This consists of a special library of books on statistics, economics, sociology and history, with duplicate copies of standard works and of maps, charts and collections illustrating social and historic conditions. Here the courses of this department are taught, with special reference to the American Negro. Field work and thesis work are required.

In addition to this, graduate study of the social problems in the South by the most approved scientific methods is carried on by the Atlanta Conference, composed of graduates of Atlanta, Fisk, and other institutions. The aim is to make Atlanta University the center of an intelligent and thorough-going study of the Negro problems. Sixteen reports of the Conference have been published, and the seventeenth is in preparation.

The library contains a good working collection of treatises in history and sociology, and special reports on outside reading are required in all these courses.

VII. PEDAGOGY

PREPARATORY COURSE

METHODS IN ART [2]. Senior Prep. (To be announced next year.)

NORMAL COURSES

A ($\frac{1}{2}$)[4]. EDUCATIONAL PSYCHOLOGY. Junior. The study of this subject in its relation to the work of the teacher.

B ($\frac{1}{2}$)[4]. PEDAGOGY. Senior. This course deals with school management and organization, which includes the planning of courses of study for elementary and secondary schools, the consideration of educational values, the history of education, aad the discussion of the problems peculiar to the common schools of the South.

C[2]. GENERAL METHODS. Senior.
D[2]. KINDERGARTEN METHODS. Senior. } Discussion of all subjects of study taught in the Oglethorpe School, and of their relations to each other and to the whole. Special discussion of the methods of teaching. General critic work. Kindergarten principles and practice.

E[1]. OBSERVATION. Junior.
F[3]. TEACHING. Senior. } The Oglethorpe School is used for this purpose.

G. SPECIAL METHODS. (a) *Arithmetic* [4]. Junior. A careful review of principles and applications, laying special stress upon analytical methods, and discussion of methods of teaching.

(b) *Grammar* ($\frac{1}{2}$)[4]. Junior. The structure of the English language is carefully studied. The course recognizes that our English construction is based upon use and not upon inflection.

(c) *Art and Methods* [2]. Junior. Drawing and painting in connection with nature study and other school subjects. Principles of design, and their applications. Basketry and other hand work for the various grades. Teaching the use of native materials.

(d) *Study of Kindergarten Materials* [2]. Junior. Study of the educational toys, songs, and games of the kindergarten.

(e) *Geography and Physiography* [4]. Senior. "Principles of Geography" is made the basis of the course. This includes mathematical

and astronomical geography; the principles of relief, the principles of climate, the principles of plant and animal distribution.

(f) *Music.* Senior. Twice a week for the year. Taken with especial reference to teaching.

(*g*) *Home and School Sanitation.* Senior. One semester. (To be announced next year.

THE OGLETHORPE SCHOOL. In this school—described under *Buildings*—is given an opportunity to engage in the actual work of teaching, and to observe such work, under thoroughly competent supervisors. The organization includes eight grades and a kindergarten.

See also under MANUAL TRAINING and ENGINEERING.

COLLEGE COURSES

Normal course B is required of all in the senior year, and the other normal courses are included in the special college Course in Education.

VIII. MUSIC

VOCAL MUSIC. This is required of all High School students in the first and second years. These receive such elementary instruction as is needed, and have practice in chorus singing. An advanced chorus meets twice a week throughout the year, being composed of most of the High School students beyond the second year, and selected College and Normal students. This chorus gives a public concert at least once each year, and furnishes the music during the Commencement season. For terms of instruction to private pupils, see EXPENSES.

INSTRUMENTAL MUSIC. Instruction in the piano is given at a reasonable charge, for which see EXPENSES. Eight pianos are in use by the Institution. An effort is made to suit the instruction to the needs of the individual pupil. In general the *Elementary Course* includes a thorough foundation in technique, studies and sonatinas selected from Loeschhorn, Duvernoy, Kohler, Czerny, Heller, Kuhner, as well as easy pieces by classical and modern composers; the *Advanced Course* continues the study of technique, including major and minor scales in various forms; arpeggios and chords, etudes and studies by Czerny, Heller, Cramer, Moscheles, Henselt and Clementi; Bach's inventions. Greater attention is given to such composers as Mendelssohn, Schumann, Schubert, Chopin, Grieg, Rubinstein, Mozart, Haydn, Beethoven. Private recitals are given at intervals and a public recital is given at the close of the year.

HARMONY. The Grammar of Music.

APPRECIATION. An analytical study of musical forms from the standpoint of the listener. These courses are offered on alternate years, and are open only to students of college rank or its equivalent who are advanced as far as fourth grade in music or its equivalent.

IX A. MANUAL TRAINING FOR BOYS

MANUAL TRAINING A[3]. First Year. (a) Mechanical Drawing (48 hours). Working drawings and lettering. (b) Free Hand Drawing (48 hours). Model drawing. (c) Bench Work (96 hours). Use of the common wood working tools.

MANUAL TRAINING B[3]. Second Year. (a) Wood Turning (64 hours). Exercises in spindle turning. (b) Mechanical Drawing (32 hours). Group 1-3 in Bennett's "Problems in Mechanical Drawing." (c) Furniture Making (96 hours). Design, construction and finishing of a simple piece of furniture.

MANUAL TRAINING C[2]. Junior Prep. (a) Forge Work (64 hours). Simple operations in blacksmithing including welding. (b) Mechanical Drawing (64 hours). Group 4-7 in Bennett's "Problems in Mechanical Drawing."

IX B. MECHANIC ARTS AND ENGINEERING

The Mechanic Arts and Engineering Group is designed primarily to fit our graduates for teaching along industrial lines.

PREPARATORY SUBJECT

MECHANIC ARTS A[5]. Senior Prep. (a) Metal Working (192 hours). Tool steel forging. Machine shop work. (b) Mechanical Drawing (128 hours). Machine and architectural drawing. Kinematics.

COLLEGE SUBJECTS

ENGINEERING I[5]. Freshman. Description of engineering machines and operations.

ENGINEERING II[4]. Sophomore. (a) (½ year). Descriptive Geometry. (b) (½ year). Principles of Design.

ENGINEERING III[4]. Senior. Applied Mechanics.

IX C. MANUAL TRAINING FOR GIRLS

Instruction is given to all girls in the High School course in sewing, dressmaking, cooking and household management; the more advanced work being assisted by residence and practice in the Furber Cottage.

SEWING

First Year. 72 hours. Instruction is given in basting, backstitching, running, overcasting, hemming, oversewing, French seam, outlining, patching, felling, napery stitch, tucking, gathering and binding, button-holes, and sewing on buttons.

Second Year. 72 hours. Different kinds of darning, drafting, cutting and making undergarments, plain machine work. Girls can buy garments at cost.

Junior Prep. 60 hours. Hemstitching, featherstitching, shirt-waist drafting, cutting and making shirt-waist suits.

Senior Prep. 60 hours. Dressmaking, skirt and waist drafting. Students are expected to be prepared to buy a chart for drafting, also to buy an inexpensive woolen dress, linings and trimmings, for practical work.

COOKING

Junior Prep. 60 hours. This includes a study of the following subjects related to cooking and household management: the care and cleanliness of dishes, kitchen utensils, sink and ice-chest; the value of sunshine and fresh air throughout the house; yeast and bread making, buying and cooking of meats. The chemistry of cooking is illustrated by practical experiments, and charts are used to show the comparative nutritive values of foods. Emphasis is placed upon the wholesome and economical use of "left-overs."

Junior and Senior Years. The members of the Normal course spend a portion of their time in the Furber Cottage, where practical instruction in cooking and housekeeping is given.

LAUNDERING

This is a part of the assigned work (p. 20) and affords opportunity for instruction in washing and ironing under the supervision of the laundry superintendent.

HOUSEHOLD ARTS[2], Senior Prep., to be announced next year.

PRINTING OFFICE

There is a well-appointed printing office in South Hall, in which typesetting, newspaper, book, and job work are taught by an experienced superintendent. Three papers are published: one quarterly by the Institution, THE ATLANTA UNIVERSITY BULLETIN; one monthly by the students, THE SCROLL; and one monthly by the Alumni, THE CRIMSON AND GRAY. One issue of the BULLETIN is the annual catalogue. We also print the annual Conference report. Job printing is done by student labor.

The office is equipped with a Mietz & Weiss gas engine, one Colt's Armory press 14x22, one Gordon press 8x12, one 32-inch paper cutter, 80 fonts of job type, 1,500 pounds of body type, Kaufman stone 40x80, one Polhemus and three Tracy steel-run cabinets.

GENERAL INFORMATION

LOCATION

The University grounds are at the head of West Mitchell street, about one mile from the center of the city of Atlanta, Ga., and a little more than one-half mile from the new terminal station. Electric cars marked "WEST HUNTER, ASHBY ST.," leave the corner of Marietta and Broad streets, run near the terminal station, and directly past our gate.

MEMBERSHIP

Good health being necessary for success in study, it is expected that none who are permanently weak or diseased will apply for admission. The Institution has a good reputation for healthfulness, and the interests of the people for whom it was founded demand that this reputation should be maintained.

Application for admission should be made at least a month before the beginning of the school year, and should state, fully, previous education and present plans.

Students should enter the first day of the school year, that they may be immediately classified, and thus lose no time in beginning work.

Students lose their membership in class when absent one month.

During vacation, as well as during term time, students are held amenable to the authority of the school.

The Institution is not sectarian in its religious instruction or influence, while aiming to be thoroughly Christian. It is open to all students of either sex.

GOVERNMENT

Discipline is administered with firmness and impartiality, and aims to induce a high moral sentiment, which shall be in itself a powerful governing force in the school.

When it becomes plain that a pupil has not a fixed purpose to improve his time, and an earnest desire to fit himself for usefulness, he is removed without specific charges.

Suspension and expulsion from the Institution are resorted to in cases whose seriousness calls for such punishment.

When students are exposing themselves and others to permanent harm, it is expected that high-minded persons will be governed by the dictates of conscience and common sense, rather than by any false sense of honor in regard to disclosing the facts to the proper authorities.

EXPENSES

	Per Month
Boarding, including furnished rooms, fuel, lights and washing	$12 50
Tuition in College and Normal courses	2 50
Tuition in High School course	2 00
Instruction in Instrumental Music	2 00
Use of instrument one hour per day	50
Instruction in Vocal Music	2 00

All payments are due in advance on the first of each calendar month. Fractions of a month are charged at a somewhat higher rate.

Students taking instruction in music, vocal or instrumental, are required to make a deposit of $1.50 at the beginning of each term to pay for needed music. Any unused balance will be returned. Notice of intention to discontinue special lessons should be given in writing at least two weeks in advance.

Students given the favor of a special examination, apart from the time regularly assigned to entrance or class examinations, pay a moderate fee for the privilege.

All boarding pupils are required to work for the Institution at least one hour a day. This requirement helps make the above low charges possible.

Remittances in payment of bills should be made by money orders, drafts, in registered letters, or by express.

Make money orders or drafts payable to Atlanta University. Receipts will be promptly returned.

STUDENT AID

Some students have been aided in past years by contributions from the friends of popular education. It is expected that this help will be continued, and the income of the scholarship funds named on p. 23 is also now available.

Persons should not come expecting to receive aid until they have applied for it and received a favorable answer. Those applying should state their pecuniary circumstances, their advancement in their studies, and, as far as possible, what pursuit they intend to follow. In no case is aid granted for a longer time than the current year, without renewed application. Those who are aided are assigned to some extra work. Upon the faithfulness with which this work is done depends the continuance of aid. It is expected that those who receive help will, when able, return the amount to aid others.

THE LIBRARY

By the liberality of the late R. R. Graves, Esq., of New York, and a few other friends, the library now contains about 13,000 volumes. Mr. Graves also gave a permanent endowment of five thousand dollars, since increased to six thousand, which insures its steady growth. It has been completely catalogued according to the Dewey system.

In January, 1906, the books of the library were moved from Stone Hall into the new building, erected by the munificence of Mr. Andrew Carnegie. For a description, see *Buildings*.

Aside from the reading-room in the library building, there are also reading-rooms in each of the two principal dormitories, thus giving to those in the boarding department convenient access to many of the leading papers and periodicals of the country.

THE MARBLEHEAD LIBRARIES

In 1910 a traveling library system was inaugurated at Atlanta University. This was made possible by the generosity of the late James J. H. Gregory of Marblehead, Mass., who carefully selected and gave for this purpose over 2,000 books. They have been arranged in collections of from forty to fifty volumes, and are sent for terms of six months to schools or responsible individuals, so that they may be used to the greatest advantage in the localities receiving them. Fifty libraries are now in circulation.

THE ATLANTA CONFERENCE

Atlanta University recognizes that it is its duty as a seat of learning to throw as much light as possible upon the intricate social problems affecting the American Negro, both for the enlightenment of its own graduates and for the information of the general public. It has, therefore, during the last sixteen years sought to unite its graduates, the graduates of similar institutions, and educated persons in general throughout the country in an effort to study carefully and thoroughly certain definite aspects of the Negro problems.

Sixteen conferences have been held, and the proceedings of each have been published by the Atlanta University Press, upon: "Mortality among Negroes in Cities," "Some Efforts of American Negroes for Their Own Social Betterment," "Social and Physical Condition of Negroes in Cities," "The Negro in Business," "The College-Bred Negro," "The Negro Common School," "The Negro Artisan," "The Negro Church," "Negro Crime," "Select Bibliography," "Negro Physique," "Co-operative Business," "The Negro Family," "Efforts for Social Betterment," "The College-Bred Negro," and "The Negro Common School." The seventeenth conference will be held May 27, 1912.

BUILDINGS

The buildings are situated on high ground, in the western part of the city, and surrounded by sixty acres of land belonging to the Institution.

DORMITORIES

There are two principal dormitories, the one used by the girls having been erected in 1869, with a wing added in 1880. This building contains

the school kitchen and dining-room. The dormitory used by the boys was built in 1870, with a wing added in 1871. Each of these buildings contains a parlor, reading-room and gymnasium. They also have a complete system of sanitary plumbing, with bath-tubs supplied with hot and cold water.

STONE HALL

This building, erected in 1882, stands between the two dormitories, and is a gift of the late Mrs. Valeria G. Stone, of Malden, Mass. It contains the chapel, the large school-room, recitation and lecture rooms, the physical and chemical laboratories, offices, etc. This building, the two dormitories, the practice school, the library and the domestic-science building, are heated by steam from one plant.

KNOWLES INDUSTRIAL BUILDING

This building, erected in 1884, is for the use of the mechanic arts department. It is a memorial of the late Mr. L. J. Knowles, of Worcester, Mass., whose widow appropriated from his estate $6,000 for its erection, this amount being increased by the gifts of a few other friends.

Power for the machinery in the building is furnished by a steam-boiler and a fifteen horse-power engine, and the rooms are equipped with pipes so as to use either steam from the boiler or the exhaust steam from the engine for heating purposes.

On the first floor of the building are various wood-working machines, a lumber room, and benches and tools for repairing and construction work. On the second floor are a bench-room, containing twenty benches, each furnished with a set of tools, and ten wood-turning lathes and tools; and two drawing-rooms, containing the necessary drawing-stands, instruments, models, etc., for free hand and mechanical drawing. In the basement are a forge-room, having twelve forges and anvils and the tools required for ordinary blacksmith work and small machine forging, and a machine-room, containing an engine lathe, drilling machine, wet and dry emery grinders, and a cabinet of machinists' tools.

THE FURBER COTTAGE

This building, also known under the more formal name of "The King's Daughters' Model Home and Maria B. Furber Cottage," was erected in 1899 from contributions which had been slowly gathered during a number of years, chiefly from circles of King's Daughters in many parts of the country and from personal friends of the late Mrs. Maria B. Furber, wife of the late Rev. Dr. Daniel L. Furber, of Newton Centre, Mass., who, himself, made generous additions to the building fund previous to his death. It contains dormitory rooms for at least eighteen occupants, who carry on all the work of the home without servants, and is equipped with facilities for teaching the domestic arts in the most thoroughly scientific as well as practical manner.

THE OGLETHORPE SCHOOL

This building, erected in 1904, is the gift of the General Education Board of New York and its Treasurer, Mr. George Foster Peabody, each contributing the sum of $5,000, and of a large number of other friends who contributed a third sum of $5,000. The building contains ten rooms besides a large basement, and is used for practice teaching in connection with the Normal Department, special attention being given to the training of Kindergarten teachers as well as teachers for the public schools.

CARNEGIE LIBRARY BUILDING

This building, erected in 1905, is the gift of Mr. Andrew Carnegie, who contributed $25,000 for its erection and furnishing. It contains a fire-proof stack room, large reading and reference rooms, a lecture room, picture room, rooms for unpacking, traveling libraries, etc., and is equipped with the most modern furnishings and apparatus for effective library administration.

FUNDS

The University has thus far received but a very small part of the endowment needed to carry on even its present work, to say nothing of future growth. The invested funds on hand July 1, 1910, were as follows:

For scholarships	$32,870 00
For general endowment	40,687 43
For maintenance of library	6,000 00
Total	$79,557 43

NEEDS

It will be seen from the above statement that, proportionally, the funds for general endowment are in greatest need of increase. For endowment Atlanta University needs $800,000. This would relieve the Institution of the harassing task of raising money for current expenses by incessant personal solicitation. Appealing to the record of the forty years completed, Atlanta University asks for sufficient endowment to maintain the work at a high grade of usefulness and to meet the opening opportunities of the future.

Until such endowment is secured the Institution is almost wholly dependent upon annual donations from the benevolent public. For many years the Trustees of the John F. Slater Fund have helped the work, their last three appropriations having amounted to $2,000 each. In addition to the payments of the students, $35,000 is needed annually.

CORPORATE NAME

The corporate name of this Institution is THE TRUSTEES OF THE ATLANTA UNIVERSITY. Wills containing bequests should be attested by three witnesses in most of the States.

MISCELLANEOUS SUGGESTIONS

Each pupil should bring a Bible. It is needed for private reading, for Sunday-school, and for use in classes.

Students are required to be furnished with all prescribed text-books at the time when the use of them begins.

All should be provided with warm clothing.

Young women should provide themselves with rubbers, umbrella and coat for stormy weather.

The use of silks, velvets, or other expensive or showy materials or trimmings is considered inappropriate. Dresses of cotton and woolen materials are most suitable. Only simple dresses for the close of school are permissible. Parents are asked not to send clothing, unless the request for it is endorsed by the preceptress.

Experience has taught us that much evil comes from pupils receiving food or large quantities of fruit or candy, from home or friends. They are, therefore, not allowed to receive it. *Friends will please not send it.*

Letters should be directed in care of Atlanta University, Atlanta, Ga.

Students who do not board at their homes are not allowed to board out of the Institution, unless by special permission.

The Institution encourages the customary student organizations: athletic, literary, debating, musical and religious. Membership in unauthorized student organizations is prohibited.

Boarders are expected to furnish their own towels and napkins, and it is suggested that each one bring a blanket or comfortable and a knife, fork and spoon.

Keeping or using firearms on the premises is forbidden.

Especial attention is called to the rule prohibiting the use of all intoxicating drinks, and tobacco in every form.

The proper observance of Sunday is most important for the moral and religious welfare of the students. This Institution is the result of benevolent efforts, and that it be decidedly religious in its influence, without being sectarian, is the reasonable expectation of its friends. Boarding pupils are therefore required to attend stated religious services. Students should arrange so as not to travel on Sunday, and friends are earnestly requested not to call upon them on that day.

It is desired to make the school, as far as possible, a *home* for those who attend. Not only their intellectual, but also their physical, social, moral and religious culture receives careful attention.

The majority of our graduates, and many others who have left before finishing their course, are engaged in teaching during a part or all of the year. Besides these, during the four months of the summer vacation, some of the students engage in teaching, so that a large number of children in Georgia and other states are taught annually by those who have been connected with the Institution.

THE WORK OF OUR GRADUATES

As an encouragement to prospective students to attend Atlanta University, and to friends of Southern education to support the work, the following statement is presented showing the marked success our graduates have had in securing not only remunerative positions for their self-support, but also opportunities for the widest usefulness in the work of uplifting their race.

THE COLLEGE GRADUATES

While the one hundred and eighty graduates from the College (including three graduates from a theological course) represent only a small portion of the work done by the University, they represent a very important part of that work, as will be evident from a statement of the positions they occupy and the work they are doing.

Of these one hundred and eighty graduates, twenty-five have died. Of the one hundred and fifty-five now living, fourteen are ministers, several of whom, however, are classed in our summary as teachers; seven are physicians, four are lawyers, one is a dentist, seventy-six are teachers, nineteen are in the service of the United States, fourteen are in other kinds of business, and six are students. These statistics, together with those of the normal graduates, are given in tabular form on page 51 of this catalogue.

MINISTERS

Two of the ministers are pastors of Congregational churches in Chattanooga, Tenn., and Mason City, Ia.; four of Baptist churches in Charleston, S. C., Atlanta, Ga., Augusta, Ga., and Joliet, Ill.; four of Methodist churches in Bellaire, Ohio, Baltimore, Md., Guthrie, Okla., and one is chaplain of the Tuskegee Normal and Industrial Institute. Another is secretary of a Y. M. C. A. branch in New York City. All the churches named are centers of great power and wide influence. Some of these ministers have made addresses in national and international assemblages, one is fellow of the Royal Geographical Society, and one has had the unique honor of being a member of the board of education in a large Southern city for fourteen successive years.

TEACHERS

Many of the teachers are holding high positions. No less than four are college presidents: of the Georgia State Industrial College, Savannah, Ga.; of Miles Memorial College, Birmingham, Ala.; of Lincoln Institute, Jefferson City, Mo., and of the Florida Baptist College, Jacksonville, Fla. Eleven are principals of public city schools. Some of the others are designated as follows: principal of the Charleston Industrial Institute, Charleston, S. C.; principal of the Howard Normal School, Cuthbert, Ga.; professor of Greek in Morris Brown College, Atlanta, Ga.; principal

Knox Institute, Athens, Ga.: principal of Industrial School, Fort Valley, Ga.; principal of Payne Institute, Cuthbert, Ga.; professor of pedagogy in Atlanta University; associate professor of sociology in the same institution; professor of mathematics and science in Howard University, Washington, D. C.; in the same institution the superintendent of manual training; professor of sloyd and mechanical drawing in the State Normal School, Petersburg, Va.; professor of pedagogy in the Georgia State Industrial College, Savannah, Ga.; principal of Burrell Normal School, Florence, Ala.; professor of mathematics in Lane College, Jackson, Tenn.; teacher of Latin in Atlanta University; supervisor of industrial work in the public schools of Memphis, Tenn.

OTHER PROFESSIONS

Of the seven physicians three are located in Atlanta, Ga., and three respectively in Denver, Colo., Evanston, Ills., and Philadelphia, Pa. Most of them were among the first in their classes in the medical schools that they attended.

The four lawyers practice severally in Boston, Mass., Chicago, Ill., Macon, Ga., and in Savannah, Ga., and are successful in their profession. One is Master in Chancery by appointment of the Governor of his State. The one dentist lives in Atlanta and has an extensive practice.

One of these graduates was a lieutenant in the army during the Spanish War, and captain of U. S. Volunteers in the Philippine Islands. Another was paymaster with the rank of major.

NORMAL-TRAINED TEACHERS

Most of these teachers are located in Georgia, but some are in New York, Virginia, West Virginia, North Carolina, South Carolina, Missouri, Tennessee, Arkansas, Oklahoma, Iowa, Texas, Alabama, Louisiana, Delaware, Florida and the District of Columbia. About two-thirds of the teachers in the colored schools of Atlanta were educated in Atlanta University. Several of these have been in continuous service many years. Two have been in the same school in Savannah since 1876. While most are teaching in public schools, some being principals in important positions, a large number are also in private institutions. One is the founder and principal of Haines Normal and Industrial Institute in Augusta, Ga., a large and important school, in which several others of our graduates are assistants; another is founder and manager of an orphans' home and school in Covington; another is principal of an American Missionary Association school in Marshallville; another is principal of the Model and Training School near Athens, Ga.

Almost every one or these graduates is a Christian and is doing work in the church, Sunday-school and home, and is exerting a strong influence for good in the community in which he lives. In a large measure they are moulders of public sentiment, and are helping in a quiet way to solve some of the perplexing problems of these troublous times. Although they are reformers in the best sense of the word, they are an eminently conservative social element.

HONORS

At the end of their Sophomore and Senior years, honors are awarded to those college and normal students who have attained a certain average rank. The designating phrases used are: With Highest Honor; With High Honor; With Honor. The award at the close of the year 1910-11 was as follows:

College Class of 1911. *With High Honor*—Lucius Lee Jordan. *With Honor*—Silas Sylvester Abrams.

Normal Class of 1911. *With Honor*—Janie R. Barnett, A. Urnestine Bell, Nellie E. Hawes, W. Kathleen Redding.

College Class of 1913.—*With Honor*—William Albert Robinson.

A Letter to Graduates and Friends of Atlanta University

This catalogue shows an enrollment of four hundred and three, the largest that we have ever had. The year has been one of vigorous and happy work, and I feel that we have every reason for encouragement.

Graduates

The demand for our graduates as teachers is constant. During the month of March I received from several city school superintendents of Georgia, as well as from the Governor of the State, letters heartily commending their work. The Hon. Otis Ashmore, of Savannah, wrote: "The best trained colored teachers we get come from the Atlanta University, and I am glad to testify to the good influence of this institution upon the colored race." This is an encouraging testimony to the worth of the work we are doing.

Reduction of the Debt

Through the co-operation of graduates, old students and other friends, we have been able to reduce our debt, which in June, 1910, amounted to over $50,000, to $18,000. The Alumni Association has undertaken to continue the campaign throughout this year, and I make an earnest appeal to all friends to co-operate with us, so that we may entirely rid Atlanta University of the burden of debt.

Our Endowment of Friends

This institution could never have accomplished what it has for the uplift of the Negro race without the generous support of our friends. You who give year by year constitute our only adequate endowment, and to you we are deeply grateful.

Edward Twichell Ware.

TEMPERAMENT is a gift of God. Moulds and categories of thought are gifts of God. Red skins and yellow skins and brown skins are gifts of God as well as white skins. The Orient belongs to Him, and the Occident, the North Pole and the South, and when the indefinitely varied forces of man's complex nature cry out for individual expression, it is fighting against God to fight against this demand of nature. Man is man wherever man is found, one and indivisible in his essential characteristics. But men are men wherever men are found, as rich in multiform variety of expression as they are in elemental unity.

[*Quoted from an address by the Reverend Howard S. Bliss, D. D., President of the Syrian Protestant College at Beirut, Syria.*]

COURSES OF STUDY

There are three courses of study: the High School, the Normal, and the College. See p. 8 for entrance requirements.

NOTE.—The figures denote the number of recitations, or their equivalent, a week. All studies continue throughout the year, unless otherwise indicated. Subjects italicized are *elective* in the group in which they occur.

The High School

The Classical Course prepares for the College courses.

The English Course prepares for the College Course in Education and the Normal Course.

	Required of All	Classical	English
First Year 18 credits	English A5 Latin A5 History A5 or Mathematics A5 Manual Training A3 Music		
Second Year 18 credits	English B5 (including Elocution A) Mathematics A5 or History A5 Manual Training B3 Music	Latin B5	*Latin* B5 *Civics-Geography* 5
Junior Prep 18 credits	English C3 Mathematics (½) B5 Manual Training C2 Chorus	Latin C5 Biology 3 Mathematics (½) C5	Chemistry 4 Biology 4 **Mathematics* (½) C5 *Business Methods* (½) 5

Chemistry 4	*Adv. Chemistry* (½) 4, or 4
Geography (½) 4	*Biology* (½) 4
Astronomy (½) 4	*Geology* (½) 4

* Sen. Prep. Mech. Arts prerequisite for Mech. Arts Group.

It is not intended that the above groups shall be absolutely rigid, but that the Faculty may make changes in the method of grouping to meet special conditions.

No subject is ordinarily offered unless elected by at least four students.

The College Course in Education includes in its first two years the college work required of all (15), Psychology A (2), and the Junior Normal subjects (17). In its last two years it includes the college work required of all (9, as Pedagogy B is in the next group), the Senior Normal subjects (17), and such other Junior or Senior College work (8) as will complete the number of courses needed.

ENTRANCE REQUIREMENTS

The requirement for admission to the lowest class in the High School is the completion of the ordinary grammar school course. Examinations are given in arithmetic, grammar, U. S. history and geography. For admission to higher classes and courses students are required to give evidence that they have completed all lower work, or its equivalent.

Candidates for advanced standing, from certain schools on a list approved by the faculty, are admitted almost wholly by certificate; though even such candidates are usually examined in some subjects. Certificates must be explicit, on blanks provided by us. Principals filling out such certificates are referred to the descriptions of Preparatory Courses, under "Courses of Instruction," p. 10 ff., as a guide indicating the character and amount of work expected by us in the various subjects.

The requirement of four full years for admission to the Normal course does not go into full effect until the fall of 1914. Three years of high school work, judged by our standards, will suffice for admission to this course in the fall of 1913.

Post-Graduate Course

The following information is given concerning the conditions which must be met by candidates wishing to receive the degree of A. M. from Atlanta University:

1. Post-graduate work is under the supervision of a standing committee, composed of the President and two other members of the Faculty.

2. It is the duty of this committee to admit candidates to registration, oversee their work, and recommend such as they approve to the Faculty as suitable candidates for the degree of Master of Arts.

3. Candidates shall select their courses of study under the supervision of this committee. In the case of non-resident as well as resident candidates, instructors for each course shall be designated by the committee.

4. Forty credits shall be necessary to the granting of a degree, this being equivalent to four courses during one year of resident work, or to an approved number of courses during at least two years of non-resident work.

5. In the case of non-resident students it is expected:

(a) That a minimum of two hours a day for 104 weeks will be given to the study.
(b) That written quarterly reports be submitted regularly to the committee on graduate work, stating in detail the work done.
(c) That a written thesis be submitted at the end of the first year's work.
(d) That a written examination be passed at Atlanta University before the conferring of the degree.

In imposing the above conditions the committee may take such account as they think proper of work already done by the student before registration. The Trustees have authorized the granting of credit for advanced work, either as student or teacher, in other schools of high rank. Application for credit, for work done before registration, must be made to the President, and must be explicit and in detail.

6. The course of study open to graduate students, subject to the approval of the committee, shall be:

(a) Any of the advanced courses given in the catalogue which the student has not had.
(b) Any other practicable courses suggested by the standing committee or the candidate.

7. The fee is $20.00, i. e., the same as the college tuition for one year. The diploma is $5.00 additional.

Two Fellowships have been established by the Trustees, open to college graduates. Holders of these fellowships will have part of their time for study, and will also, for a moderate compensation, be assigned to certain work as teachers or assistants of teachers.

Three Tutorships have been similarly established for graduates of the normal course. Holders of these tutorships will be assigned to work in the Oglethorpe School; one in the kindergarten, two in the grades.

Further particulars can be learned from the President.

COURSES OF INSTRUCTION

The figures denote the number of recitations, or their equivalent, a week. All studies continue throughout the year unless otherwise indicated.

I. CLASSICS AND MODERN LANGUAGES

PREPARATORY COURSES

LATIN A^5. First Year. Fundamental principles. Text book, Bennett's First Year Latin. Required of all.

LATIN B^5. Second Year. The equivalent of four books of Cæsar; drill in grammar and prose composition. Greenough, D'Ooge and Daniell's Second Year Latin.

LATIN C^5. Junior Prep. Six orations of Cicero. Prose composition.

LATIN D^4. Senior Prep. Six books of Virgil. Prosody and Mythology.

GREEK A^5. Senior Prep. Elementary, and two books of Xenophon's Anabasis.

COLLEGE COURSES

LATIN I^4. Freshman. Selections from Cicero, Livy and Horace, or equivalents; attention also given to Roman history and literature.

LATIN II^4. Sophomore. Selections from Tacitus and other Latin authors.

GREEK I^5. Selections from Lucian, Herodotus and Homer.

GREEK II^4. Sophomore. Three Olynthiacs of Demosthenes, Plato's Apology, Æschylus's Prometheus Bound, selections from Greek Testament. Or, equivalents in either year.

GERMAN I^5. Sophomore. Elementary, with practice in speaking and easy reading, then a selected classic, as Schiller's William Tell. Required of all.

FRENCH I^4. Senior. Chardenal's Complete Course, supplemented by exercises in conversation, and the stories L'Abbé Constantin and Gil Blas, or their equivalents. Required of all.

II. PHYSICAL AND NATURAL SCIENCES

PREPARATORY COURSES

PHYSICAL GEOGRAPHY $(\frac{1}{2})^5$. Second Year. Elementary.

BIOLOGY A^5. Junior Prep. Physiology one-half year; and botany, and also elements of agriculture, one-half year. At least three periods weekly. Required of all.

CHEMISTRY A^4. Junior Prep. Elementary, one credit being earned by laboratory work.

PHYSICS A^4. Senior Prep. Elementary, one credit being earned by laboratory work; experiments in physical measurements, mechanics of solids and fluids, heat, light, sound and electricity. Required of all.

COLLEGE COURSES

CHEMISTRY I[4]. Open to Freshmen. One-half of time given to laboratory work. General chemistry.

CHEMISTRY II[4]. Open to Sophomores. Qualitative and quantitative analysis.

PHYSICS I[4]. Open to Juniors. Mathematics I, II and III are prerequisites. One-half the credit is by laboratory work, and one-half by lectures, demonstrations and recitations.

BIOLOGY ($\frac{1}{2}$)[4]. Open to Juniors. A general course.

GEOGRAPHY ($\frac{1}{2}$)[4]. Open to Juniors. Including mathematical and astronomical geography.

GEOLOGY ($\frac{1}{2}$)[4]. Open to Juniors. Dynamical and structural, followed by an outline of historic.

PHYSIOGRAPHY ($\frac{1}{2}$)[4]. Open to Juniors. Advanced, as an equivalent for Geology.

ASTRONOMY ($\frac{1}{2}$)[4]. Open to Juniors. Special attention paid to mathematical astronomy.

NORMAL COURSES

See GEOGRAPHY and GEOLOGY, under PEDAGOGY.

LABORATORIES AND CABINETS. The physical laboratory, 50x20 feet, and the chemical laboratory, 50x25, are fitted and furnished for the elementary and advanced courses. A well-equipped science lecture room is furnished with apparatus for class demonstration and lecture purposes. The geological and mineralogical cabinets are well adapted to teaching purposes.

III. MATHEMATICS

PREPARATORY COURSES

A[5]. ALGEBRA. First or Second Year. Elementary, including ratio and proportion, radicals, radical equations, theory of exponents, the binomial theorem, simple quadratics, use of the graph. Required of all.

B ($\frac{1}{2}$)[5]. GEOMETRY. Junior Prep. The more essential principles of plane geometry, including the simpler originals, theorems and constructions. Required of all.

C ($\frac{1}{2}$)[5]. GEOMETRY. Junior Prep. More complete work in the foregoing: loci, incommensurables and variables.

D[4]. ALGEBRA. Senior Prep. Review of elementary work, and especial drill in quadratics, complex numbers, logarithms, the use of the graph.

E ($\frac{1}{2}$)[5]. BUSINESS METHODS. Junior Prep. Designed to give a general knowledge of business forms and the keeping of accounts.

COLLEGE COURSES

I[4]. Freshman. ALGEBRA one-half year, with especial drill in series, determinants, solutions of higher equations; and GEOMETRY one-half year, solid and spherical, with problems. Required of all.

II ($\frac{1}{2}$)[4]. TRIGONOMETRY. Sophomore. Plane and spherical, with practical applications; and surveying, with field practice. Required of all.

III ($\frac{1}{2}$)[4]. ANALYTICS. Sophomore. } The classes will take up the topics
IV[4]. CALCULUS. Junior. } usually treated under these heads, with special application to engineering problems.

For ENGINEERING and MECHANICS, see MECHANIC ARTS.

IV. ENGLISH

PREPARATORY COURSES

ENGLISH A[5]. First Year. First Semester: Review of grammar; a brief study of description, narration, exposition and argument; practice in writing. Text book, Scott and Denney's Elementary English Composition. Second Semester: Further drill in composition; outlines of the history of the apostolic church, using the Bible Study Union lesson system. Required of all.

ENGLISH B[5]. Second Year. General survey of both English and American literature. Reading and memorizing, with oral and written reports. Required of all.

ENGLISH C[3]. Junior Prep. Detailed study of selected classics: Julius Cæsar, Hamlet, Silas Marner, Ivanhoe, Tale of Two Cities, Paradise Lost, Kidnapped; and Shakford-Judson's Composition. Required of all.

ENGLISH D[4]. Senior Prep. First Semester: Vanity Fair; selections from Browning; Virginibus Puerisque. Second Semester: Essay on Burns; Lowell on Books and Libraries; King Lear; Emerson on Self Reliance and Friendship.

BIBLE A. See under ENGLISH A.

BIBLE B ($\frac{1}{2}$)[5]. Sen. Prep. Outlines of Old Testament History, using the Bible Study Union lesson system.

ELOCUTION A and B. Twice a week during one semester, for students in Second and Fourth Years; each time taking the place of one exercise in ENGLISH B and D. Drill in vocal expression, voice training and pantomime.

NORMAL COURSES

ENGLISH ($\frac{1}{2}$)[4]. Senior. Advanced work in narration, description, exposition and argumentation, using Scott and Denney's New Composition-Rhetoric and Smith's Handbook of Debate. Each student prepares a book of myth stories taken from Gayley's Classic Myths in English Literature.

ELOCUTION. Senior. Similar to College Course.

COLLEGE COURSES

ENGLISH I[4]. Freshman. Detailed study of several extended classics, with special reference to the development of types; lectures upon the art of composition; elementary argumentation. Themes. Required of all.

ENGLISH II (½)[4]. Junior. Argumentation. Study of text book for theory, and practice in writing briefs and forensics. Required of all.

BIBLE I (½)[4]. Junior. After a study of the formation of the canon, of the various versions, and of the literary qualities of the Bible, the historical method is used in a study of the history of the Hebrew people through the Greek period. Texts: The Old Testament, and Sanders and Fowler's Outlines. Collateral reading. Required of all.

ELOCUTION I (½ year), Freshman, and II, Senior. Voice culture, physical exercises, gesture drills, and training in reading from standard literature. The aim in this department is to lead the pupil to think clearly and deeply, and to express simply, forcefully, and beautifully, his own thoughts and the thoughts of others. As an outcome of this study, the Merchant of Venice was presented as the class night exercise in 1905, the Taming of the Shrew in 1906, As You Like It in 1907, Twelfth Night in 1908, Sheridan's Rivals in 1909, The Tempest in 1910, Midsummer Night's Dream in 1911, and Macbeth in 1912.

PUBLIC RHETORICALS. Rhetorical exercises, to which the public is especially invited, are held six times a year, being made up of orations, essays, recitations and music. For the dates, see *Calendar*.

V. PHILOSOPHY

COLLEGE COURSES

PSYCHOLOGY I (½)[4]. Sophomore. The text book, Angell's, is supplemented by collateral readings, lectures and experiments. This is an introductory course, giving a general survey of the essential facts and fundamental laws of mind and of consciousness.

HISTORY OF PHILOSOPHY I (½)[4]. Junior. A study of the development of philosophic thought, beginning with the Greeks, continuing through the Renaissance, the modern systems from Bacon and Descartes through Kant, and the important developments since Kant. The text book will be supplemented by lectures and required readings in the sources. Text: Cushman.

ETHICS I (½)[4]. Senior. A systematic course, investigating the psychological basis of conduct, tracing the growth of moral ideas in the race and discussing the various theories of the moral standard, with especial reference to the social consciousness. A thesis is required of each student. Text: Dewey and Tufts.

NORMAL COURSES

See under PEDAGOGY.

VI. SOCIOLOGY AND HISTORY

It is intended to develop this department not only for the sake of the mental discipline, but also in order to familiarize our students with the history of nations and with the great economic and social problems of the world. It is hoped that thus they may be able to apply broad and careful knowledge to the solving of the many intricate social questions affecting their own people. The department aims, therefore, at training in good, intelligent citizenship; at a thorough comprehension of the chief problems of wealth, work, and wages; at a fair knowledge of the objects and methods of social reform; and at a general comprehension of the world's thoughts and deeds. The following courses are established:

PREPARATORY COURSES

CIVICS A ($\frac{1}{2}$)[5]. Second Year. Dole's American Citizen.

HISTORY A[5]. First or Second Year. A course in English history with a special desire to show the development of England and its relation to Western Europe, the New World, the far East, and Africa. Or, general history; the first semester, to 800 A.D., and the second semester, to 1900 A.D. Required of all.

HISTORY B ($\frac{1}{2}$)[5]. Senior Prep. United States history, and history of the Negro in America.

NORMAL COURSES

HISTORY ($\frac{1}{2}$)[4]. Junior. A course in the history of the United States, intended especially for teachers. Special attention is given to the Negro's connection with the history of the United States. A thesis on slavery, embodying results of personal research, is required of each student.

CIVICS ($\frac{1}{2}$)[4]. Junior. A course in the government of the United States, with special reference to its historical development.

COLLEGE COURSES

HISTORY [4]. Junior. World history; and history of the Negro, with special reference to the United States and Africa.

ECONOMICS [3]. Junior. General economics, and economic history of the Negro American. The principles of political science are included in this course.

SOCIOLOGY [4]. Senior. General sociology, and social condition of the Negro American.

SOCIOLOGICAL LABORATORY. This consists of a special library of books on statistics, economics, sociology and history, with duplicate copies of standard works and of maps, charts and collections illustrating social and historic conditions. Here the courses of this department are taught, with special reference to the American Negro. Field work and thesis work are required.

In addition to this, graduate study of the social problems in the South by the most approved scientific methods is carried on by the Atlanta Conference, composed of graduates of this and other institutions. The aim is to make Atlanta University the center of an intelligent and thorough-going study of the Negro problems. Seventeen reports of the Conference have been published, and the eighteenth is in preparation.

The library contains a good working collection of treatises in history and sociology, and special reports on outside reading are required in all these courses.

VII. PEDAGOGY

PREPARATORY COURSE

METHODS IN ART [2]. Senior Prep. Study of representation, decoration, construction and design.

NORMAL COURSES

A ($\frac{1}{2}$)[4]. EDUCATIONAL PSYCHOLOGY. Junior. The study of this subject in its relation to the work of the teacher.

B ($\frac{1}{2}$)[4]. PEDAGOGY. Senior. This course deals with school management and organization, which includes the planning of courses of study for elementary and secondary schools, the consideration of educational values, the history of education, and the discussion of the problems peculiar to the common schools of the South.

C[2]. GENERAL METHODS. Senior. Discussion of all subjects of study taught in the Oglethorpe School, and of their relations to each other and to the whole. Special discussion of the methods of teaching. General critic work.

D[2]. KINDERGARTEN METHODS. Senior. Teaching under observation of critic teacher in Oglethorpe kindergarten and primary grade. Limited observation and teaching in free kindergartens of the city. Special study of the kindergarten materials and their use in the mental and moral development of children, and study of the educational theory of Froebel.

E[1]. OBSERVATION. Junior.
F[3]. TEACHING. Senior.
} The Oglethorpe School is used for this purpose.

G. SPECIAL METHODS. (a) *Arithmetic* [4]. Junior. A careful review of principles and applications, laying special stress upon analytical methods, and discussion of methods of teaching.

(b) *Grammar* ($\frac{1}{2}$)[4]. Junior. The structure of the English language is carefully studied.

(c) *Art and Methods* [2]. Junior. Drawing and painting in connection with nature study and other school subjects. Principles of design, and their applications. Study of color and color harmony, with a

view to personal applications in the home. Basketry and other handwork for the various grades. History of basketry. Teaching the use of native materials.

(d) *Children's Handwork and Games*[2]. Junior. The purpose of this course is to make the normal students more effective teachers in their work with little children through the introduction into the regular school program of simple handwork and educational games.

(e) *Geography and Physiography*[4]. Senior. "Principles of Geography" is made the basis of the course. This includes mathematical and astronomical geography; the principles of relief, the principles of climate, the principles of plant and animal distribution.

(f) *Music.* Senior. Twice a week for the year. Taken with especial reference to teaching.

(g) *Home and School Sanitation.* Senior. One semester. Healthful furnishings; ventilation; disposal of waste; general sanitation for home and school.

THE OGLETHORPE SCHOOL. In this school—described under *Buildings*—is given an opportunity to engage in the actual work of teaching, and to observe such work, under thoroughly competent supervisors. The organization includes eight grades and a kindergarten.

GAME FESTIVAL. As an outcome of the study of games a play festival, including typical games and folk dances, in which Junior Normal girls and kindergarten, first and second grades of the Oglethorpe School participate, is held during the Commencement week.

See also under MANUAL TRAINING and ENGINEERING.

COLLEGE COURSES

Normal course B is required of all in the senior year, and the other normal courses are included in the special college Course in Education.

VIII. MUSIC

VOCAL MUSIC. This is required of all High School students in the first and second years. These receive such elementary instruction as is needed, and have practice in chorus singing. An advanced chorus meets twice a week throughout the year, being composed of most of the High School students beyond the second year, and selected College and Normal students. This chorus gives a public concert at least once each year, and furnishes the music during the Commencement season. For terms of instruction to private pupils, see EXPENSES.

INSTRUMENTAL MUSIC. Instruction in the piano is given at a reasonable charge, for which see EXPENSES. Eight pianos are in use by the Institution. An effort is made to suit the instruction to the needs of the individual pupil. In general the *Elementary Course* includes a thorough foundation in technique, with selected studies and sonatinas,

and easy pieces by classical and modern composers; the *Advanced Course* continues the study of technique, including major and minor scales in various forms; arpeggios and chords, etudes and studies. Greater attention is given to such composers as Mendelssohn, Schumann, Schubert, Chopin, Grieg, Rubinstein, Mozart, Haydn, Beethoven. Students who show special fitness are given an opportunity to join a class in *Normal Methods* meeting once a week. Private recitals are given at intervals and a public recital is given at the close of the year.

IX A. MANUAL TRAINING FOR BOYS

MANUAL TRAINING A[3]. First Year. (a) Mechanical drawing (48 hours). Working drawings and lettering. (b) Free-hand drawing (48 hours). Model drawing. (c) Bench work (96 hours). Use of the common wood working tools.

MANUAL TRAINING B[3]. Second Year. (a) Wood turning (64 hours). Exercises in spindle turning. (b) Mechanical drawing (32 hours). Group 1-3 in Bennett's "Problems in Mechanical Drawing." (c) Furniture making (96 hours). Design, construction and finishing of a simple piece of furniture.

MANUAL TRAINING C[2]. Junior Prep. (a) Forge work (64 hours). Simple operations in blacksmithing including welding. (b) Mechanical drawing (64 hours). Group 4-7 in Bennett's "Problems in Mechanical Drawing."

IX B. MECHANIC ARTS AND ENGINEERING

The Mechanic Arts and Engineering Group is designed primarily to fit our graduates for teaching along industrial lines.

PREPARATORY SUBJECT

MECHANIC ARTS A[5]. Senior Prep. (a) Metal working (160 hours). Tool steel forging. Machine shop work. (b) Mechanical drawing (160 hours). Machine and architectural drawing. Kinematics.

COLLEGE SUBJECTS

ENGINEERING I[5]. Freshman. Description of engineering machines and operations.

ENGINEERING II[4]. Sophomore. (a) (½ year). Descriptive geometry. (b) (½ year). Principles of design.

ENGINEERING III[4]. Senior. Applied Mechanics.

MANUAL TRAINING I[4]. Sophomore. Observation of High School manual training. History and systems of manual training.

MANUAL TRAINING II[4]. Senior. Materials and methods of manual training. Practice teaching.

IX C. MANUAL TRAINING FOR GIRLS

Instruction is given to all girls in the High School course in sewing, dressmaking, cooking and household management; the more advanced work being assisted by residence and practice in the Furber Cottage.

SEWING

First Year. 72 hours. Instruction in basting, backstitching, running, overcasting, oversewing, hemming, French seam, felling, patching, tucking, gathering and binding, buttonholes, and sewing on buttons. Practical demonstration of these stitches by making small garments.

Second Year. 72 hours. Practical mending. Plain machine work. Drafting, cutting and making undergarments. Each girl is required to make for herself an apron suitable for use in cooking class. Girls can buy garments at cost.

Junior Prep. 120 hours. Shirt-waist drafting. Drafting, cutting, fitting, and making plain tailored shirt waists. Cutting and making simple gingham dresses from bought patterns.

Dressmaking processes, drafting, cutting, fitting. Students are expected to buy materials for an inexpensive woolen dress with linings and trimmings for practical work.

COOKING

Senior Prep. 60 hours. This includes a study of the following subjects related to cooking and household management: the care and cleanliness of dishes, kitchen utensils, sink and ice-chest; the value of sunshine and fresh air throughout the house; yeast and bread making, buying and cooking of meats. The chemistry of cooking is illustrated by practical experiments, and charts are used to show the comparative nutritive values of foods. Emphasis is placed upon the wholesome and economical use of "left-overs."

Junior and Senior Years. The members of the Normal course spend a portion of their time in the Furber Cottage, where practical instruction in cooking and housekeeping is given.

HOUSEHOLD ARTS[2]. Senior Prep. Marketing; preservation, preparation and attractive serving of wholesome food; buying household linen; systematizing of labor; household accounts; household bacteriology; simple household remedies. Also *Cooking*, as above.

LAUNDERING. This is a part of the assigned work (p. 20) and affords opportunity for instruction in washing and ironing under the supervision of the laundry superintendent.

PRINTING. Opportunity is given in a well-appointed printing office to learn typesetting, newspaper, book and job work. For a fuller description of this office see p. 48.

GENERAL INFORMATION

LOCATION

The University grounds are at the head of West Mitchell street, about one mile from the center of the city of Atlanta, Ga., and a little more than one-half mile from the new terminal station. Electric cars marked "WEST HUNTER, ASHBY ST.," leave the corner of Marietta and Broad streets, run near the terminal station, and directly past our gate.

MEMBERSHIP

Good health being necessary for success in study, it is expected that none who are permanently weak or diseased will apply for admission. The Institution has a good reputation for healthfulness, and the interests of the people for whom it was founded demand that this reputation should be maintained. Applicants are required to present a physician's certificate certifying to good health, and the time of the last effective vaccination; otherwise, they will be expected to bear the expense of a thorough physical examination upon entrance; and in any case, of vaccination if needed.

Application for admission should be made at least a month before the beginning of the school year, and should state, fully, previous education and present plans.

Students should enter the first day of the school year, that they may be immediately classified, and thus lose no time in beginning work.

During vacation, as well as during term time, students are held amenable to the authority of the school.

The Institution is not sectarian in its religious instruction or influence, while aiming to be thoroughly Christian. It is open to all students of either sex.

GOVERNMENT

Discipline is administered with firmness and impartiality, and aims to induce a high moral sentiment, which shall be in itself a powerful governing force in the school.

When it becomes plain that a pupil has not a fixed purpose to improve his time, and an earnest desire to fit himself for usefulness, he is removed without specific charges.

Suspension and expulsion from the Institution are resorted to in cases whose seriousness calls for such punishment.

When students are exposing themselves and others to permanent harm, it is expected that high-minded persons will be governed by the dictates of conscience and common sense, rather than by any false sense of honor in regard to disclosing the facts to the proper authorities.

EXPENSES

	Per Month
Boarding, including furnished rooms, fuel, lights and washing	$12 50
Tuition in College and Normal courses	2 50
Tuition in High School course	2 00
Instruction in Instrumental Music	2 00
Use of instrument one hour per day	50
Instruction in Vocal Music	2 00

All payments are due in advance on the first of each calendar month. Fractions of a month are charged at a somewhat higher rate.

Students taking instruction in music, vocal or instrumental, are required to make a deposit of $1.50 at the beginning of each term to pay for needed music. Any unused balance will be returned. Notice of intention to discontinue special lessons should be given in writing at least two weeks in advance.

Students given the favor of a special examination, apart from the time regularly assigned to entrance or class examinations, pay a moderate fee for the privilege.

All boarding pupils are required to work for the Institution at least one hour a day. This requirement helps make the above low charges possible.

Remittances in payment of bills should be made by money orders, drafts, in registered letters, or by express.

Make money orders or drafts payable to Atlanta University. Receipts will be promptly returned.

STUDENT AID

Some students have been aided in past years by contributions from the friends of popular education. It is expected that this help will be continued, and the income of the scholarship funds named on p. 23 is also now available.

Persons should not come expecting to receive aid until they have applied for it and received a favorable answer. Those applying should state their pecuniary circumstances, their advancement in their studies, and, as far as possible, what pursuit they intend to follow. In no case is aid granted for a longer time than the current year, without renewed application. Those who are aided are assigned to some extra work. Upon the faithfulness with which this work is done depends the continuance of aid. It is expected that those who receive help will, when able, return the amount to aid others.

THE LIBRARY

By the liberality of the late R. R. Graves, Esq., of New York, and a few other friends, the library now contains about 14,000 volumes. Mr. Graves also gave a permanent endowment of five thousand dollars, since increased to six thousand, which insures its steady growth. It has been completely catalogued according to the Dewey system.

In January, 1906, the books of the library were moved from Stone Hall into the new building, erected by the munificence of Mr. Andrew Carnegie. For a description, see *Buildings*.

Aside from the reading-room in the library building, there are also reading-rooms in each of the two principal dormitories, thus giving to those in the boarding department convenient access to many of the leading papers and periodicals of the country.

THE MARBLEHEAD LIBRARIES

In 1910 a traveling library system was inaugurated at Atlanta University. This was made possible by the generosity of the late James J. H. Gregory of Marblehead, Mass., who carefully selected and gave for this purpose over 2,000 books. They have been arranged in collections of from forty to fifty volumes, and are sent for terms of six months to schools or responsible individuals, so that they may be used to the greatest advantage in the localities receiving them. Fifty libraries are now in circulation.

THE ATLANTA CONFERENCE

Atlanta University recognizes that it is its duty as a seat of learning to throw as much light as possible upon the intricate social problems affecting the American Negro, both for the enlightenment of its own graduates and for the information of the general public. It has, therefore, during the last sixteen years sought to unite its graduates, the graduates of similar institutions, and educated persons in general throughout the country in an effort to study carefully and thoroughly certain definite aspects of the Negro problems.

Sixteen conferences have been held, and the proceedings of each have been published by the Atlanta University Press, upon: "Mortality among Negroes in Cities," "Some Efforts of American Negroes for Their Own Social Betterment," "Social and Physical Condition of Negroes in Cities," "The Negro in Business," "The College-Bred Negro," "The Negro Common School," "The Negro Artisan," "The Negro Church," "Negro Crime," "Select Bibliography," "Negro Physique," "Co-operative Business," "The Negro Family," "Efforts for Social Betterment," "The College-Bred Negro," "The Negro Common School," and "The Negro American Artisan." The eighteenth conference will be held May 26, 1913.

BUILDINGS

The buildings are situated on high ground, in the western part of the city, and surrounded by sixty acres of land belonging to the Institution.

DORMITORIES

There are two principal dormitories, the one used by the girls having been erected in 1869, with a wing added in 1880. This building contains

the school kitchen and dining-room. The dormitory used by the boys was built in 1870, with a wing added in 1871. Each of these buildings contains a parlor, reading-room and gymnasium. They also have a complete system of sanitary plumbing, with bath-tubs supplied with hot and cold water.

STONE HALL

This building, erected in 1882, stands between the two dormitories, and is a gift of the late Mrs. Valeria G. Stone, of Malden, Mass. It contains the chapel, the large school-room, recitation and lecture rooms, the physical and chemical laboratories, offices, etc. This building, the two dormitories, the practice school, the library and the domestic-science building, are heated by steam from one plant.

KNOWLES INDUSTRIAL BUILDING

This building, erected in 1884, is for the use of the mechanic arts department. It is a memorial of the late Mr. L. J. Knowles, of Worcester, Mass., whose widow appropriated from his estate $6,000 for its erection, this amount being increased by the gifts of a few other friends.

Power for the machinery in the building is furnished by a steam-boiler and a fifteen horse-power engine, and the rooms are equipped with pipes so as to use either steam from the boiler or the exhaust steam from the engine for heating purposes.

On the first floor of the building are various wood-working machines, a lumber room, and benches and tools for repairing and construction work. On the second floor are a bench-room, containing twenty benches, each furnished with a set of tools, and ten wood-turning lathes and tools; and two drawing-rooms, containing the necessary drawing-stands, instruments, models, etc., for free hand and mechanical drawing. In the basement are a forge-room, having twelve forges and anvils and the tools required for ordinary blacksmith work and small machine forging, and a machine-room, containing an engine lathe, drilling machine, wet and dry emery grinders, and a cabinet of machinists' tools.

THE FURBER COTTAGE

This building, also known under the more formal name of "The King's Daughters' Model Home and Maria B. Furber Cottage," was erected in 1899 from contributions which had been slowly gathered during a number of years, chiefly from circles of King's Daughters in many parts of the country and from personal friends of the late Mrs. Maria B. Furber, wife of the late Rev. Dr. Daniel L. Furber, of Newton Centre, Mass., who, himself, made generous additions to the building fund previous to his death. It contains dormitory rooms for at least eighteen occupants, who carry on all the work of the home without servants, and is equipped with facilities for teaching the domestic arts in the most thoroughly scientific as well as practical manner.

THE OGLETHORPE SCHOOL

This building, erected in 1904, is the gift of the General Education Board of New York and its Treasurer, Mr. George Foster Peabody, each contributing the sum of $5,000, and of a large number of other friends who contributed a third sum of $5,000. The building contains ten rooms besides a large basement, and is used for practice teaching in connection with the Normal Department, special attention being given to the training of Kindergarten teachers as well as teachers for the public schools.

CARNEGIE LIBRARY BUILDING

This building, erected in 1905, is the gift of Mr. Andrew Carnegie, who contributed $25,000 for its erection and furnishing. It contains a fire-proof stack room, large reading and reference rooms, a lecture room, picture room, rooms for unpacking, traveling libraries, etc., and is equipped with the most modern furnishings and apparatus for effective library administration.

FUNDS

The University has thus far received but a very small part of the endowment needed to carry on even its present work, to say nothing of future growth. The invested funds on hand July 1, 1912, were as follows:

For scholarships	$32,870 00
For general endowment	44,160 38
For maintenance of library	6,000 00
Total	$83,030 38

NEEDS

It will be seen from the above statement that, proportionally, the funds for general endowment are in greatest need of increase. For endowment Atlanta University needs $800,000. This would relieve the Institution of the harassing task of raising money for current expenses by incessant personal solicitation. Appealing to its record of forty-three years completed, Atlanta University asks for sufficient endowment to maintain the work at a high grade of usefulness and to meet the opening opportunities of the future.

Until such endowment is secured the Institution is almost wholly dependent upon annual donations from the benevolent public. For many years the Trustees of the John F. Slater Fund have helped the work, their last three appropriations having amounted to $3,000 each. In addition to the payments of the students, $37,000 is needed annually.

CORPORATE NAME

The corporate name of this Institution is THE TRUSTEES OF THE ATLANTA UNIVERSITY. Wills containing bequests should be attested by three witnesses in most of the States.

MISCELLANEOUS SUGGESTIONS

Each pupil should bring a Bible. It is needed for private reading, for Sunday-school, and for use in classes.

Students are required to be furnished with all prescribed text-books at the time when the use of them begins.

All should be provided with warm clothing.

Young women should provide themselves with rubbers, umbrella and coat for stormy weather.

The use of silks, velvets, or other expensive or showy materials or trimmings is considered inappropriate. Dresses of cotton and woolen materials are most suitable. Only simple dresses for the close of school are permissible. Parents are asked not to send clothing, unless the request for it is endorsed by the preceptress.

Experience has taught us that much evil comes from pupils receiving food or large quantities of fruit or candy, from home or friends. They are, therefore, not allowed to receive it. *Friends will please not send it.*

Letters should be directed in care of Atlanta University, Atlanta, Ga.

Students who do not board at their homes are not allowed to board out of the Institution, unless by special permission.

The Institution encourages the customary student organizations: athletic, literary, debating, musical and religious. Membership in unauthorized student organizations is prohibited.

Boarders are expected to furnish their own towels and napkins, and it is suggested that each one bring a blanket or comfortable and a knife, fork and spoon.

Keeping or using firearms on the premises is forbidden.

Especial attention is called to the rule prohibiting the use of all intoxicating drinks, and tobacco in every form.

The proper observance of Sunday is most important for the moral and religious welfare of the students. This Institution is the result of benevolent efforts, and that it be decidedly religious in its influence, without being sectarian, is the reasonable expectation of its friends. Boarding pupils are therefore required to attend stated religious services. Students should arrange so as not to travel on Sunday, and friends are earnestly requested not to call upon them on that day.

It is desired to make the school, as far as possible, a *home* for those who attend. Not only their intellectual, but also their physical, social, moral and religious culture receives careful attention.

The majority of our graduates, and many others who have left before finishing their course, are engaged in teaching during a part or all of the year. Besides these, during the four months of the summer vacation, some of the students engage in teaching, so that a large number of children in Georgia and other states are taught annually by those who have been connected with the Institution.

PRINTING OFFICE

This catalogue was printed in the Atlanta University Printing Office, where we also print the annual Conference report; the other issues of the BULLETIN; a monthly for the students, *The Scroll;* and a monthly for the Alumni, *The Crimson and Gray.* Job work is also done.

The office is equipped with a Mietz & Weiss gas engine, one Colt's Armory press 14x22, one Gordon press 8x12, one 32-inch paper cutter, 80 fonts of job type, 1,500 pounds of body type, Kaufman stone 40x80, one Polhemus and three Tracy steel-run cabinets.

THE WORK OF OUR GRADUATES

As an encouragement to prospective students to attend Atlanta University, and to friends of Southern education to support the work, the following statement is presented showing the marked success our graduates have had in securing not only remunerative positions for their self-support, but also opportunities for the widest usefulness in the work of uplifting their race.

THE COLLEGE GRADUATES

While the one hundred and ninety-one graduates from the College represent only a small part of the work done by the University, they represent a very important part of that work, as will be evident from a statement of the positions they occupy and the work they are doing.

Of these one hundred and ninety-one graduates, twenty-five have died. Of the one hundred and sixty-six now living, thirteen are ministers, several of whom however are classed in our summary as teachers; seven are physicians, four are lawyers, one is a dentist, seventy-eight are teachers, nineteen are in the service of the United States, nineteen are in other kinds of business, and seven are students. These statistics, together with those of the normal graduates, are given in tabular form on page 51 of this catalogue.

MINISTERS

Two of the ministers are pastors of Congregational churches in Chattanooga, Tenn., and Mason City, Ia.; four of Baptist churches in Charleston, S. C., Atlanta, Ga., Augusta, Ga., and Joliet, Ill.; four of Methodist churches in Bellaire, Ohio, Baltimore, Md., Guthrie, Okla., and one is chaplain of the Tuskegee Normal and Industrial Institute. Another is secretary of a Y. M. C. A. branch in New York City. All the churches named are centers of great power and wide influeuce. Some of these ministers have made addresses in national and international assemblages, one is a fellow of the Royal Geographical Society, and one has had the unique honor of being a member of the board of education in a large Southern city for fourteen successive years.

TEACHERS

Many of the teachers are holding high positions. No less than three are college presidents: of the Georgia State Industrial College, Savannah, Ga.; of Lincoln Institute, Jefferson City, Mo., and of the Florida Baptist College, Jacksonville, Fla. Thirteen are principals of city public schools. Some of the others are designated as follows: principal of the Charleston Industrial Institute, Charleston, S. C.; principal of the Howard Normal School, Cuthbert, Ga.; professor of Greek in Morris Brown College, Atlanta, Ga.; principal Knox Institute, Athens, Ga.; principal of Industrial

School, Fort Valley, Ga.; principal of Payne Institute, Cuthbert, Ga.; professor of pedagogy in Atlanta University; associate professor of sociology in the same institution; professor of mathematics and science in Howard University, Washington, D. C.; in the same institution the superintendent of manual training; professor of sloyd and mechanical drawing in the State Normal School, Petersburg, Va.; professor of pedagogy in the Georgia State Industrial College, Savannah, Ga.; principal of Burrell Normal School, Florence, Ala.; professor of mathematics in Lane College, Jackson, Tenn.; teacher of Latin in Atlanta University; supervisor of industrial work in the public schools of Memphis, Tenn.

OTHER PROFESSIONS

Of the eight physicians three are located in Atlanta, Ga., and three respectively in Denver, Colo., Evanston, Ills., and Philadelphia, Pa. Most of them were among the first in their classes in the medical schools that they attended.

The four lawyers practice severally in Boston, Mass., Chicago, Ill., Macon, Ga., and in Savannah, Ga., and are successful in their profession. One is Master in Chancery by appointment of the Governor of his State. The one dentist lives in Atlanta and has an extensive practice.

One of these graduates was a lieutenant in the army during the Spanish War, and captain of U. S. Volunteers in the Philippine Islands. Another was paymaster with the rank of major.

NORMAL TRAINED TEACHERS

Most of these teachers are located in Georgia, but some are in New York, Virginia, West Virginia, North Carolina, South Carolina, Missouri, Tennessee, Arkansas, Oklahoma, Iowa, Texas, Alabama, Louisiana, Delaware, Florida and the District of Columbia. About two-thirds of the teachers in the colored schools of Atlanta were educated in Atlanta University. Several of these have been in continuous service many years. Two have been in the same school in Savannah since 1876. While most are teaching in public schools, some being principals in important positions, a large number are also in private institutions. One is the founder and principal of Haines Normal and Industrial Institute in Augusta, Ga., a large and important school, in which several others of our graduates are assistants; another is founder and manager of an orphans' home and school in Covington; another is principal of an American Missionary Association school in Marshallville; another is principal of the Model and Training School near Athens, Ga.

Almost every one of these graduates is a Christian and is doing work in the church, Sunday-school and home, and is exerting a strong influence for good in the community in which he lives. In a large measure they are moulders of public sentiment, and are helping in a quiet way to solve some of the perplexing problems of these troublous times. Although they are reformers in the best sense of the word, they are an eminently conservative social element.

HONORS AND PRIZES

At the end of their Sophomore and Senior years, honors are awarded to those college and normal students who have attained a certain average rank. The designating phrases used are: With Highest Honor; With High Honor; With Honor. The award at the close of the year 1911-12 was as follows:

COLLEGE CLASS OF 1912. *With Honor*—Annie Lee Bothwell, Charles Henry Madison Furlow, John Wyman Rice.

NORMAL CLASS OF 1912. *With Honor*—Hortense D. Carson, Hallie B. Hall, J. Juanita Williams.

COLLEGE CLASS OF 1914. *With Honor*—Robert Benton Jackson.

The *Alumni Prizes for Excellence in Debate* were awarded in 1911-12, in the order named, to Asa H. Gordon, Eugene H. Dibble and Eugene M. Martin.

TESTIMONIAL

ATLANTA, GA., March 14, 1913.

We, the undersigned citizens of Atlanta, believe that the work of Atlanta University is a genuine benefit not only to the colored people of this city and state but to the whole community. The great majority of the graduates form a substantial and conservative element whose influence may always be found upon the side of right. The institution has existed here for almost forty-five years and so far as it has shaped and molded the Negro elements of city and state, its influence has been good. We think it would be nothing short of a calamity to remove Atlanta University from this city. Its work is needed not only for the benefit of the school system which it serves directly but also to strengthen the spirit of thrift, intelligence and self-respect among the Negro people.

We have recently visited this school and so far as our personal observations go are able to testify that the equipment is in an excellent state of repair, the classes conducted efficiently and the discipline good. We have faith in the wisdom and economy of the present administration, and bespeak for this institution the interest and help of all who believe in education.

S. M. INMAN,
Capitalist.

L. C. HOPKINS,
Attorney.

J. K. ORR,
President of the J. K. Orr Shoe Co.

W. R. HAMMOND,
Attorney.

CLARK HOWELL,
Editor of Atlanta Constitution.

W. L. PEEL,
President of American National Bank.

C. B. WILMER,
Rector of St. Luke's Church.

WE CAN do nothing more to advance our country's welfare than to bring the various communities within the counsels of the nation. The real difficulty of our nation has been that not enough of us realized that the matters we discussed were matters of common concern. We have talked as if we had to serve now this part of the country and again that part, now this interest and again that interest; as if all interests were not linked together, provided we understood them and knew how they were related to one another.

From a Campaign Address of Woodrow Wilson.

Sketch of Atlanta University

Atlanta University is one of the pioneer institutions for the Christian education of Negro youth. It possesses excellent equipment for the work of high school, normal school and college classes and has accommodations for one hundred and sixty boarding students. It is the first institution in the state of Georgia to undertake work of college grade for Negroes, and steadily emphasizes the importance of genuine scholarship. It enjoys the cumulative advantage which results from forty-five years of continuous effective work. It has been unusually fortunate in the continuity of its administration. It was founded in 1867 under the auspices of the American Missionary Association by Edmund Asa Ware. It was presided over by him until his death in 1885. President Ware was a graduate of Yale University of the class of 1863. In 1875 his Yale classmate, Horace Bumstead, came to Atlanta as a teacher and co-worker. Dr. Bumstead succeeded to the presidency and held the position until 1907 when he resigned, and became the recipient of a Carnegie pension. His successor is Edward Twichell Ware, son of the founder and first president, a graduate of Yale University of the class of 1897.

On the teaching force there always have been, as there are now, men and women who have received the best education that this country affords. Among the colleges represented by the teachers are Harvard, Dartmouth, Chicago and Wellesley. The memory of those who have devoted their lives to this work in the past is kept fresh by the grateful memorials of the graduates. On the walls of Ware Memorial Chapel hang the pictures of the first two presidents and of other teachers. The evening sun shines through two beautiful memorial windows, one placed there by the graduates living in Savannah and the other by those living in Atlanta.

The wisdom and foresight of the founders of this institution is seen in its exceptionally fine location. Atlanta University occupies a commanding site on the summit of a hill in the western part of the city of Atlanta and is surrounded by a campus of sixty acres. There are seven substantial brick buildings, three of them covered with Boston ivy. At this season of the year the campus is particularly beautiful with its fields of alfalfa south of the buildings and the green grass and trees in front.

There are enrolled four hundred students. About two-thirds of them come up the hill every day from the city of Atlanta. The rest are in the boarding department and represent ten states, and thirty-nine counties in the state of Georgia. These young people are many of them chil-

dren of the graduates of Atlanta University and most of them have received their training in schools over which the graduates preside.

Instruction in domestic science and manual training is required of all the high school students and there are opportunities for pursuing this work further in the college course of mechanic arts and in the Furber Cottage for the normal students. The normal course comprises two years following the high school course. During the senior year the girls live in the Furber Cottage in groups of fifteen and under the supervision of the matron do all the work of the home. The institution also possesses a well equipped printing office from which is issued the catalogue and the student and alumni papers. Here there is an opportunity to learn the art of printing. A fund has recently been raised to install the equipment necessary for book binding and it is our hope another year to add this to the courses of manual instruction.

It is the purpose of Atlanta University to make the home life in the school strong and wholesome, a genuine part of its education. All students are required to spend at least their senior year in the school family where they come into daily association with each other and with the teachers. There is an athletic field for the boys and there are tennis courts for the girls and boys. The school fare is simple but wholesome. Occasional social gatherings bring the students together in pleasant fellowship. This institution is an outgrowth of the Christian spirit which brought so many earnest and devoted teachers South in the educational crusade of the sixties and seventies. The work is essentially Christian. It is undenominational and strong in religious motive. Students attend church and Sunday school. They also have their voluntary religious organizations, the Y. M. C. A. and Y. W. C. A. Participation in the religious exercises and in the home life of the school has often been instrumental in molding the character of the students for the most efficient service among their people.

There is probably no school for the Negroes in the South better equipped with facilities for domestic science, for library work, or for the training of teachers. This institution has also long been prominent for the excellence of its work in sociology. Its annual publications on the Negro problem have received wide recognition from scholars and may be found in the best libraries in this country and abroad. Recently a special course in the training of kindergarten teachers has been organized. Students have opportunity for practice in the Oglethorpe Practice School and in the mission kindergartens in the city. There are six young women to graduate this year from this course which is parallel in scholarship requirements with that of the regular normal school course.

The chief source of encouragement for the work rests in the almost uniform success of the graduates of Atlanta University. A summary of

their present occupations will be found on page 48. Under the direct instruction of the graduates there are about fifty thousand children in country and city schools. The demand for graduates as teachers and in other responsible positions increases from year to year. Never was there greater need than today for just such work as this institution accomplishes.

This catalogue issue of the Bulletin will go to many friends of Atlanta University, some of them contributors for the support of the work, some of them prospective students. To the prospective students we say: We welcome at Atlanta University all young people prepared to take up work of high school or college grade who have an earnest desire to prepare themselves for lives of usefulness. For those who cannot afford to pay the very moderate rates there are scholarship funds available by which expenses may be substantially reduced. As an earnest of faithfulness and appreciation, we require additional work from all students receiving such beneficiary aid.

Those who contribute will be interested to know that the property of Atlanta University is worth, all told, about $300,000. The invested funds amount to about $100,000. For the proper maintenance of the work we require each year about $37,000 in addition to the amount reasonably to be expected from payments of students and income from funds. This institution has no large and wealthy body of alumni to call upon for maintenance. Many of the graduates are giving annually what they can afford. We earnestly appeal to all who believe in Christian education for help in the maintenance of the work. It is hoped that through the generosity of our friends this institution may some time possess an endowment adequate to the needs of the work. Until then we are dependent upon the endowment of friends who give from year to year. May we not hope that their number will increase so that we may meet the growing demands of the work and occupy a constantly broadening field of usefulness.

COURSES OF STUDY

There are three courses of study: the High School, the Normal, and the College. See Entrance Requirements.

NOTE.—The figures denote the number of recitations, or their equivalent, a week. All studies continue throughout the year, unless otherwise indicated. Subjects italicized are *elective* in the group in which they occur.

The High School

The Classical Course prepares for the College courses.

The English Course prepares for the College Course in Education and the Normal Course.

It is not intended that the above groups shall be absolutely rigid, but that the Faculty may make changes in the method of grouping to meet special conditions.

No subject is ordinarily offered unless elected by at least four students.

The College Course in Education includes in its first two years the college work required of all (15), Psychology A (2), and the Junior Normal subjects (17). In its last two years it includes the college work required of all (9, as Pedagogy B is in the next group), the Senior Normal subjects (17), and such other Junior or Senior College work (8) as will complete the number of courses needed.

ENTRANCE REQUIREMENTS

The requirement for admission to the lowest class in the High School is the completion of the ordinary grammar school course. Examinations are given in arithmetic, grammar, U. S. history and geography. For admission to higher classes and courses students are required to give evidence that they have completed all lower work, or its equivalent.

In case students from other institutions desire full admission to our college or normal courses, they must strictly conform to the following: (1) They must fully convince us that they have satisfactorily completed at least fifteen units of high school work. (2) At least eleven of these units must be in the departments of English, Latin, Mathematics, Social Science (including History) and Natural Science. Of these eleven at least three must be English, and at least five (one of them three and the other two) Latin and Mathematics in the case of college students, or Natural Science and Mathematics in the case of normal students.

Note: A unit represents approximately one quarter of a year of work in a well regulated high school course, in a study pursued four or five times a week, with recitation periods of forty to sixty minutes in length, and a school year of at least thirty-six weeks.

Candidates for advanced standing, from certain schools on a list approved by the faculty, are admitted almost wholly by certificate; though even such candidates are usually examined in some subjects. Certificates must be explicit, on blanks provided by us. Principals filling out such certificates are referred to the descriptions of Preparatory Courses, under "Courses of Instruction," as a guide indicating the character and amount of work expected by us in the various subjects.

The requirement of four full years of high school work for admission to the Normal course goes into full effect in the fall of 1914.

Post-Graduate Course

The following information is given concerning the conditions which must be met by candidates wishing to receive the degree of A. M. from Atlanta University:

1. Post-graduate work is under the supervision of a standing committee, composed of the President and two other members of the Faculty.

2. It is the duty of this committee to admit candidates to registration, oversee their work, and recommend such as they approve to the Faculty as suitable candidates for the degree of Master of Arts.

3. Candidates shall select their courses of study under the supervision of this committee. In the case of non-resident as well as resident candidates, instructors for each course shall be designated by the committee.

4. Forty credits shall be necessary to the granting of a degree, this being equivalent to four courses during one year of resident work, or to an approved number of courses during at least two years of non-resident work.

5. In the case of non-resident students it is expected:

(a) That a minimum of two hours a day for 104 weeks will be given to the study.
(b) That written quarterly reports be submitted regularly to the committee on graduate work, stating in detail the work done.
(c) That a written thesis be submitted at the end of the first year's work.
(d) That a written examination be passed at Atlanta University before the conferring of the degree.

In imposing the above conditions the committee may take such account as they think proper of work already done by the student before registration. The Trustees have authorized the granting of credit for advanced work, either as student or teacher, in other schools of high rank. Application for credit, for work done before registration, must be made to the President, and must be explicit and in detail.

6. The course of study open to graduate students, subject to the approval of the committee, shall be:

(a) Any of the advanced courses given in the catalogue which the student has not had.
(b) Any other practicable courses suggested by the standing committee or the candidate.

7. The fee is $20.00, i. e., the same as the college tuition for one year. The diploma is $5.00 additional.

Two Fellowships have been established by the Trustees, open to college graduates. Holders of these fellowships will have part of their time for study, and will also, for a moderate compensation, be assigned to certain work as teachers or assistants of teachers.

Three Tutorships have been similarly established for graduates of the normal course. Holders of these tutorships will be assigned to work in the Oglethorpe School; one in the kindergarten, two in the grades.

Further particulars can be learned from the President.

COURSES OF INSTRUCTION

The figures denote the number of recitations, or their equivalent, a week. All studies continue throughout the year unless otherwise indicated.

I. CLASSICS AND MODERN LANGUAGES

PREPARATORY COURSES

LATIN A^5. First Year. Fundamental principles. Text book, Bennett's First Year Latin. Required of all.

LATIN B^5. Second Year. The equivalent of four books of Cæsar; drill in grammar and prose composition. Greenough, D'Ooge and Daniell's Second Year Latin.

LATIN C^5. Junior Prep. Six orations of Cicero. Prose composition.

LATIN D^4. Senior Prep. Five books of Virgil. Prosody and Mythology.

GREEK A^5. Senior Prep. Elementary, and two books of Xenophon's Anabasis.

COLLEGE COURSES

LATIN I^4. Freshman. Selections from Cicero, Livy and Horace, or equivalents; attention also given to Roman history and literature.

LATIN II^4. Sophomore. Selections from Tacitus and other Latin authors.

GREEK I^5. Selections from Lucian, Herodotus and Homer.

GREEK II^4. Sophomore. Three Olynthiacs of Demosthenes, Plato's Apology, Æschylus's Prometheus Bound, selections from Greek Testament. Or, equivalents in either year.

GERMAN I^5. Sophomore. Work in grammar, with practice in speaking and easy reading, then a selected classic, this year Iphigemia auf Tauris. Required of all.

FRENCH I^4. Senior. Chardenal's Complete Course, supplemented by exercises in conversation, and the stories L'Abbé Constantin and Gil Blas, or their equivalents. Required of all.

II. PHYSICAL AND NATURAL SCIENCES

PREPARATORY COURSES

PHYSICAL GEOGRAPHY $(\frac{1}{2})^5$. Second Year. Elementary.

BIOLOGY A^3. Junior Prep. Physiology one-half year; and botany, and also elements of agriculture, one-half year. At least three periods weekly. Required of all.

CHEMISTRY A^4. Junior Prep. Elementary, one credit being earned by laboratory work.

PHYSICS A^4. Senior Prep. Elementary, one credit being earned by laboratory work; experiments in physical measurements, mechanics of solids and fluids, heat, light, sound and electricity. Required of all.

COLLEGE COURSES

CHEMISTRY I[4]. Open to Freshmen. One-half of time given to laboratory work. General chemistry.

CHEMISTRY II[4]. Open to Sophomores. Qualitative and quantitative analysis.

PHYSICS I[4]. Open to Juniors. Mathematics I, II and III are prerequisites. One-half the credit is by laboratory work, and one-half by lectures, demonstrations and recitations.

BIOLOGY ($\frac{1}{2}$)[4]. Open to Juniors. A general course.

GEOGRAPHY ($\frac{1}{2}$)[4]. Open to Juniors. Including mathematical and astronomical geography.

GEOLOGY ($\frac{1}{2}$)[4]. Open to Juniors. Dynamical and structural, followed by an outline of historic.

PHYSIOGRAPHY ($\frac{1}{2}$)[4]. Open to Juniors. Advanced, as an equivalent for Geology.

ASTRONOMY ($\frac{1}{2}$)[4]. Open to Juniors. Special attention paid to mathematical astronomy.

NORMAL COURSES

See GEOGRAPHY and GEOLOGY, under PEDAGOGY.

LABORATORIES AND CABINETS. The physical laboratory, 50x20 feet, and the chemical laboratory, 50x25, are fitted and furnished for the elementary and advanced courses. A well-equipped science lecture room is furnished with apparatus for class demonstration and lecture purposes. The geological and mineralogical cabinets are well adapted to teaching purposes.

III. MATHEMATICS

PREPARATORY COURSES

A[5]. ALGEBRA. First or Second Year. Elementary, including ratio and proportion, radicals, radical equations, theory of exponents, the binomial theorem, simple quadratics, use of the graph. Required of all.

B ($\frac{1}{2}$)[5]. GEOMETRY. Junior Prep. The more essential principles of plane geometry, including the simpler originals, theorems and constructions. Required of all.

C ($\frac{1}{2}$)[5]. GEOMETRY. Junior Prep. More complete work in the foregoing: loci, incommensurables and variables.

D[4]. ALGEBRA. Senior Prep. Review of elementary work, and especial drill in quadratics, complex numbers, logarithms, the use of the graph.

E ($\frac{1}{2}$)[5]. BUSINESS METHODS. Junior Prep. Designed to give a general knowledge of business forms and the keeping of accounts.

COLLEGE COURSES

I[4]. Freshman. ALGEBRA one-half year, with especial drill in series, determinants, solutions of higher equations; and GEOMETRY one-half year, solid and spherical, with problems. Required of all.

II $(\frac{1}{2})^4$. TRIGONOMETRY. Sophomore. Plane and spherical, with practical applications; and surveying, with field practice. Required of all.

III $(\frac{1}{2})^4$. ANALYTICS. Sophomore. } The classes will take up the topics

IV[4]. CALCULUS. Junior. } usually treated under these heads, with special application to engineering problems.

For ENGINEERING and MECHANICS, see MECHANIC ARTS.

IV. ENGLISH

PREPARATORY COURSES

ENGLISH A[5]. First Year. First Semester: Review of grammar; a brief study of description, narration, exposition and argument; practice in writing. Text book, Scott and Denney's Elementary English Composition. Second Semester: Further drill in composition; outlines of the history of the apostolic church, using the Bible Study Union lesson system. Required of all.

ENGLISH B[5]. Second Year. General survey of both English and American literature. Reading and memorizing, with oral and written reports. Required of all.

ENGLISH C[3]. Junior Prep. Detailed study of selected classics: Julius Cæsar, Hamlet, Silas Marner, Ivanhoe, Tale of Two Cities, Paradise Lost, Kidnapped; and Shakford-Judson's Composition. Required of all.

ENGLISH D[4]. Senior Prep. First Semester: Vanity Fair; selections from Browning; Virginibus Puerisque. Second Semester: Essay on Burns; Lowell on Books and Libraries; King Lear; Emerson on Self Reliance and Friendship.

BIBLE A. See under ENGLISH A.

BIBLE B $(\frac{1}{2})^5$. Sen. Prep. Outlines of Old Testament History, using the Bible Study Union lesson system.

EXPRESSION A and B. Twice a week during one semester, for students in Second and Fourth Years; each time taking the place of one exercise in ENGLISH B and D. Drill in vocal expression, voice training and pantomime.

NORMAL COURSES

ENGLISH $(\frac{1}{2})^4$. Senior. Advanced work in narration, description, exposition and argumentation, using Scott and Denney's New Composition-Rhetoric and Smith's Handbook of Debate. Each student prepares a book of myth stories taken from Gayley's Classic Myths in English Literature.

EXPRESSION. Senior. Similar to College Course.

COLLEGE COURSES

ENGLISH I[4]. Freshman. Detailed study of several extended classics, with special reference to the development of types; lectures upon the art of composition; elementary argumentation. Themes. Required of all.

ENGLISH II ($\frac{1}{2}$)[4]. Junior. Argumentation. Study of text book for theory, and practice in writing briefs and forensics. Required of all.

BIBLE I ($\frac{1}{2}$)[4]. Junior. After a study of the formation of the canon, of the various versions, and of the literary qualities of the Bible, the historical method is used in a study of the history of the Hebrew people through the Greek period. Texts: The Old Testament, and Sanders and Fowler's Outlines. Collateral reading. Required of all.

EXPRESSION I ($\frac{1}{2}$ year), Freshman, and II, Senior. Voice culture, physical exercises, gesture drills, and training in reading from standard literature. The aim in this department is to lead the pupil to think clearly and deeply, and to express simply, forcefully, and beautifully, his own thoughts and the thoughts of others. As an outcome of this study, the Merchant of Venice was presented as the class night exercise in 1905, the Taming of the Shrew in 1906, As You Like It in 1907, Twelfth Night in 1908, Sheridan's Rivals in 1909, The Tempest in 1910, Midsummer Night's Dream in 1911, Macbeth in 1912, and Comedy of Errors in 1913.

PUBLIC RHETORICALS. Rhetorical exercises, to which the public is especially invited, are held six times a year, being made up of orations, essays, recitations and music. For the dates, see *Calendar*.

V. PHILOSOPHY

COLLEGE COURSES

PSYCHOLOGY I ($\frac{1}{2}$)[4]. Sophomore. The text book, Angell's, is supplemented by collateral readings, lectures and experiments. This is an introductory course, giving a general survey of the essential facts and fundamental laws of mind and of consciousness.

HISTORY OF PHILOSOPHY I ($\frac{1}{2}$)[4]. Junior. A study of the development of philosophic thought, beginning with the Greeks, continuing through the Renaissance, the modern systems from Bacon and Descartes through Kant, and the important developments since Kant. The text book will be supplemented by lectures and required readings in the sources. Text: Cushman.

ETHICS I ($\frac{1}{2}$)[4]. Senior. A systematic course, investigating the psychological basis of conduct, tracing the growth of moral ideas in the race and discussing the various theories of the moral standard, with especial reference to the social consciousness. A thesis is required of each student. Text: Dewey and Tufts.

NORMAL COURSES

See under PEDAGOGY.

VI. SOCIOLOGY AND HISTORY

It is intended to develop this department not only for the sake of the mental discipline, but also in order to familiarize our students with the history of nations and with the great economic and social problems of the world. It is hoped that thus they may be able to apply broad and careful knowledge to the solving of the many intricate social questions affecting their own people. The department aims, therefore, at training in good, intelligent citizenship; at a thorough comprehension of the chief problems of wealth, work, and wages; at a fair knowledge of the objects and methods of social reform; and at a general comprehension of the world's thoughts and deeds. The following courses are established:

PREPARATORY COURSES

CIVICS A $(\frac{1}{2})^5$. Second Year. Dole's American Citizen.

HISTORY A^5. First or Second Year. A course in English history with a special desire to show the development of England and its relation to Western Europe, the New World, the far East, and Africa. Or, general history; the first semester, to 800 A.D., and the second semester, to 1900 A.D. Required of all.

HISTORY B $(\frac{1}{2})^5$. Senior Prep. United States history, and history of the Negro in America.

NORMAL COURSES

HISTORY $(\frac{1}{2})^4$. Junior. A course in the history of the United States, intended especially for teachers. Special attention is given to the Negro's connection with the history of the United States. A thesis on slavery, embodying results of personal research, is required of each student.

CIVICS $(\frac{1}{2})^4$. Junior. A course in the government of the United States, with special reference to its historical development.

COLLEGE COURSES

HISTORY ^{4}. Junior. World history; and history of the Negro, with special reference to the United States and Africa.

ECONOMICS ^{3}. Junior. General economics, and economic history of the Negro American. The principles of political science are included in this course.

SOCIOLOGY ^{4}. Senior. General sociology, and social condition of the Negro American.

SOCIOLOGICAL LABORATORY. This consists of a special library of books on statistics, economics, sociology and history, with duplicate copies of standard works and of maps, charts and collections illustrating social and historic conditions. Here the courses of this department are taught, with special reference to the American Negro. Field work and thesis work are required.

In addition to this, graduate study of the social problems in the South by the most approved scientific methods is carried on by the Atlanta Conference, composed of graduates of this and other institutions.

The aim is to make Atlanta University the center of an intelligent and thorough-going study of the Negro problems. Seventeen reports of the Conference have been published. The eighteenth is on the press, and the nineteenth in preparation.

The library contains a good working collection of treatises in history and sociology, and special reports on outside reading are required in all these courses.

VII. PEDAGOGY

PREPARATORY COURSE

METHODS IN ART [2]. Senior Prep. Study of representation, decoration, construction and design.

GENERAL NORMAL COURSES

A ($\frac{1}{2}$)[4]. EDUCATIONAL PSYCHOLOGY. Junior. The study of this subject in its relation to the work of the teacher.

B ($\frac{1}{2}$)[4]. PEDAGOGY. Senior. This course deals with school management and organization, which includes the planning of courses of study for elementary and secondary schools, the consideration of educational values, the history of education, and the discussion of the problems peculiar to the common schools of the South.

C[2]. GENERAL METHODS. Senior. Discussion of all subjects of study taught in the Oglethorpe School, and of their relations to each other and to the whole. Special discussion of the methods of teaching. General critic work.

D[1]. OBSERVATION. Junior.
E[3]. TEACHING. Senior.
} The Oglethorpe School is used for this purpose.

F. SPECIAL METHODS. (a) *Arithmetic* [4]. Junior. A careful review of principles and applications, laying special stress upon analytical methods, and discussion of methods of teaching.

(b) *Grammar* ($\frac{1}{2}$)[4]. Junior. The structure of the English language is carefully studied.

(c) *Art and Methods* [2]. Junior. Drawing and painting in connection with nature study and other school subjects. Principles of design, and their applications. Study of color and color harmony, with a view to personal applications in the home. Basketry and other handwork for the various grades. History of basketry. Teaching the use of native materials.

(d) *Geography and Physiography* [4]. Senior. "Principles of Geography" is made the basis of the course. This includes mathematical and astronomical geography; the principles of relief, the principles of climate, the principles of plant and animal distribution.

(e) *Music.* Senior. Twice a week for the year. Taken with especial reference to teaching.

(f) *Home and School Sanitation.* Senior. One semester. Healthful furnishings; ventilation; disposal of waste; general sanitation for home and school.

KINDERGARTEN NORMAL COURSES

JUNIOR YEAR. (a) *Children's Handwork and Games*[2]. The purpose of this course is to make the normal students more effective teachers in their work with little children through the introduction into the regular school program of simple handwork and educational games.

(b) *Constructive Materials*[2]. Special study of the kindergarten materials and their function in the mental and moral development of the child.

(c) *Nature Study* [1]. Taken up in its relation to the three-fold development of the child. Special emphasis on gardening and nurture of plant and animal life.

(d) *Observation*[1] of kindergarten and primary teaching under critic teachers in the Oglethorpe School.

SENIOR YEAR. (a) *Child Study* ($\frac{1}{2}$)[2]. Discussion of methods of training children in home and school to physical, mental and moral health.

(b) *Children's Literature* ($\frac{1}{2}$)[2]. Study of literature for small children, with practice in telling stories suitable for use in the home or class room.

(c) *Froebel's Mother Play*[2]. Study of the text for the purpose of deducing simple, practical suggestions for child training, which with pictures, stories, songs, and references to mature literature are kept in note book form.

(d) *Kindergarten Theory*[2]. Study of the educational theory of Froebel and comparison with other theories that affect kindergarten and primary practice today.

(e) *Program Making*[2]. Formation and discussion of outlines of daily, weekly, monthly and yearly kindergarten programs, with study of principles and methods that underlie kindergarten and primary practice.

THE OGLETHORPE SCHOOL. In this school—described under *Buildings*—is given an opportunity to engage in the actual work of teaching, and to observe such work, under thoroughly competent supervisors. The organization includes eight grades and a kindergarten.

GAME FESTIVAL. As an outcome of the study of games a play festival, including typical games and folk dances, in which Junior Normal girls and kindergarten, first and second grades of the Oglethorpe School participate, is held during the Commencement week.

See also under MANUAL TRAINING and ENGINEERING.

COLLEGE COURSES

Normal course B is required of all in the senior year, and the other normal courses are included in the special College Course in Education.

VIII. MUSIC

VOCAL MUSIC. This is required of all High School students in the first and second years. These receive such elementary instruction as is

needed, and have practice in chorus singing. An advanced chorus meets twice a week throughout the year, being composed of most of the High School students beyond the second year, and selected College and Normal students.

For terms of instruction to private pupils, see EXPENSES.

INSTRUMENTAL MUSIC. Instruction in the piano is given at a reasonable charge, for which see EXPENSES. Eight pianos are in use by the Institution. An effort is made to suit the instruction to the needs of the individual pupil. In general the *Elementary Course* includes a thorough foundation in technique, with selected studies and sonatinas, and easy pieces by classical and modern composers; the *Advanced Course* continues the study of technique, including major and minor scales in various forms; arpeggios and chords, etudes and studies. Greater attention is given to such composers as Mendelssohn, Schumann, Schubert, Chopin, Grieg, Rubinstein, Mozart, Haydn, Beethoven. Students who show special fitness are given an opportunity to join a class in *Normal Methods* meeting once a week. Private recitals are given at intervals and a public recital is given at the close of the year.

IX MANUAL TRAINING AND DRAWING

FIRST YEAR. *Drawing*[1] (64 hours). For all. Nature work, decorative design and construction work.

Manual Training[2] (128 hours). For boys. One half of the work is mechanical drawing; working drawings and lettering: the other half is bench work; use of the common wood working tools.

Sewing[2] (128 hours). For girls. Instruction in basting, backstitching, running, overcasting, oversewing, hemming, French seam, felling, patching, tucking, gathering and binding, buttonholes, and sewing on buttons. Practical demonstration of these stitches by making small garments.

SECOND YEAR. *Drawing*[1] (64 hours). For all. Fuller development of the work of the first year; also object drawing, color work, free expression, pose drawing and applied design.

Manual Training[2] (128 hours). For boys. One half is wood turning; exercises in spindle turning: one half is furniture making; construction and finishing of a simple piece of furniture.

Sewing[2] (128 hours). For girls. Practical mending. Plain machine work. Cutting and making undergarments. Each girl is required to make for herself an apron suitable for use in cooking class. Girls can buy garments at cost.

THIRD YEAR. *Manual Training*[2] (128 hours). For boys. One half is forge work; simple operations in blacksmithing, including welding: one half, more advanced mechanical drawing.

Sewing[2] (128 hours). For girls. Shirt-waist drafting. Drafting, cutting, fitting, and making plain tailored shirt waists. Cutting and making simple gingham dresses from bought patterns.

Dressmaking processes, drafting, cutting, fitting. Students are expected to buy materials for an inexpensive woolen dress with linings and trimmings for practical work.

FOURTH YEAR. *Cooking*[1] (64 hours). This includes a study of the following subjects related to cooking and household management: the care and cleanliness of dishes, kitchen utensils, sink and ice-chest; the value of sunshine and fresh air throughout the house; yeast and bread making; buying and cooking of meats. The chemistry of cooking is illustrated by practical experiments, and charts are used to show the comparative nutritive values of foods. Emphasis is placed upon the wholesome and economical use of "left-overs".

Household Arts[1]. Marketing; preservation, preparation and attractive serving of wholesome food; buying household linen; systematizing of labor; household accounts; household bacteriology; simple household remedies.

NOTE: — Ordinarily cooking and sewing are taken together during both the third and fourth years, the amount being as stated.

JUNIOR AND SENIOR NORMAL YEARS. The members of the Normal course spend a portion of their time in the Furber Cottage, where practical instruction in cooking and housekeeping is given.

X. MECHANIC ARTS AND ENGINEERING

The Mechanic Arts and Engineering Group is designed primarily to fit our graduates for teaching along industrial lines.

PREPARATORY SUBJECT

MECHANIC ARTS A[5]. Senior Prep. (a) Metal working (160 hours). Tool steel forging. Machine shop work. (b) Mechanical drawing (160 hours). Machine and architectural drawing. Kinematics.

COLLEGE SUBJECTS

ENGINEERING I[5]. Freshman. Description of engineering machines and operations.

ENGINEERING II[4]. Sophomore. (a) (½ year). Descriptive geometry. (b) (½ year). Principles of design.

ENGINEERING III[4]. Senior. Applied Mechanics.

MANUAL TRAINING I[4]. Sophomore. Observation of High School manual training. History and systems of manual training.

MANUAL TRAINING II[4]. Senior. Materials and methods of manual training. Practice teaching.

LAUNDERING. This is a part of the assigned work (p. 50) and affords opportunity for instruction in washing and ironing under the supervision of the laundry superintendent.

PRINTING. Opportunity is given in a well-appointed printing office to learn typesetting, newspaper, book and job work. For a more complete description of this office see p. 47.

HONORS AND PRIZES

At the end of their Sophomore and Senior years, honors are awarded to those college and normal students who have attained a certain average rank. The designating phrases used are: With Highest Honor; With High Honor; With Honor. The award at the close of the year 1912-13 was as follows:

College Class of 1913. *With Honor*—William Albert Robinson, MaBelle Anita White.

Normal Class of 1913. *With Honor*—Maudleine Burch, Edith Bythewood, Florence Greenwood, Hart Jones, Gladys O. Phillips.

College Class of 1915. *With Highest Honor*—Harry Butler Peters. *With Honor*—John Philip Whittaker.

The *Alumni Prizes for Excellence in Debate* were awarded in 1912-13, in the order named, to Eugene H. Dibble and Dominion R. Glass.

Stone Hall

Monument to First President and Founder of Atlanta University, erected by Graduates over his grave on the Campus

GENERAL INFORMATION

LOCATION

The University grounds are at the head of West Mitchell street, about one mile from the center of the city of Atlanta, Ga., and a little more than one-half mile from the new terminal station. Electric cars marked "WEST HUNTER, ASHBY ST.," leave the corner of Marietta and Broad streets, run near the terminal station, and directly past our gate.

MEMBERSHIP

Good health being necessary for success in study, it is expected that none who are permanently weak or diseased will apply for admission. The Institution has a good reputation for healthfulness, and the interests of the people for whom it was founded demand that this reputation should be maintained. Applicants are required to present a physician's certificate certifying to good health, and the time of the last effective vaccination; otherwise, they will be expected to bear the expense of a thorough physical examination upon entrance; and in any case, of vaccination if needed.

Application for admission should be made at least a month before the beginning of the school year, and should state, fully, previous education and present plans.

Students should enter the first day of the school year, that they may be immediately classified, and thus lose no time in beginning work.

During vacation, as well as during term time, students are held amenable to the authority of the school.

The Institution is not sectarian in its religious instruction or influence, while aiming to be thoroughly Christian. It is open to all students of either sex.

GOVERNMENT

Discipline is administered with firmness and impartiality, and aims to induce a high moral sentiment, which shall be in itself a powerful governing force in the school.

When it becomes plain that a pupil has not a fixed purpose to improve his time, and an earnest desire to fit himself for usefulness, he is removed without specific charges.

Suspension and expulsion from the Institution are resorted to in cases whose seriousness calls for such punishment.

When students are exposing themselves and others to permanent harm, it is expected that high-minded persons will be governed by the dictates of conscience and common sense, rather than by any false sense of honor in regard to disclosing the facts to the proper authorities.

EXPENSES

	Per Month
Boarding, including furnished rooms, fuel, lights and washing	$12 50
Tuition in College and Normal courses	2 50
Tuition in High School course	2 00
Instruction in Instrumental Music	2 00
Use of instrument one hour per day	50
Instruction in Vocal Music	2 00

Incidental fee, due at entrance each year: boarders $2.00; day pupils, $1.00.

All payments are due in advance on the first of each calendar month. Fractions of a month are charged at a somewhat higher rate.

Students taking instruction in music, vocal or instrumental, are required to make a deposit of $1.50 at the beginning of each term to pay for needed music. Any unused balance will be returned. Notice of intention to discontinue special lessons should be given in writing at least two weeks in advance.

Students given the favor of a special examination, apart from the time regularly assigned to entrance or class examinations, pay a moderate fee for the privilege.

All boarding pupils are required to work for the Institution at least one hour a day. This requirement helps make the above low charges possible.

Remittances in payment of bills should be made by money orders, drafts, in registered letters, or by express.

Make money orders or drafts payable to Atlanta University. Receipts will be promptly returned.

STUDENT AID

Some students have been aided in past years by contributions from the friends of popular education. It is expected that this help will be continued, and the income of the scholarship funds is also now available.

Persons should not come expecting to receive aid until they have applied for it and received a favorable answer. Those applying should state their pecuniary circumstances, their advancement in their studies, and, as far as possible, what pursuit they intend to follow. In no case is aid granted for a longer time than the current year, without renewed application. Those who are aided are assigned to some extra work. Upon the faithfulness with which this work is done depends the continuance of aid. It is expected that those who receive help will, when able, return the amount to aid others.

THE LIBRARY

By the liberality of the late R. R. Graves, Esq., of New York, and a few other friends, the library now contains about 14,000 volumes. Mr. Graves also gave a permanent endowment of five thousand dollars, since increased to six thousand, which insures its steady growth. It has been completely catalogued according to the Dewey system.

In January, 1906, the books of the library were moved from Stone Hall into the new building, erected by the munificence of Mr. Andrew Carnegie. For a description, see *Buildings*.

Aside from the reading-room in the library building, there are also reading-rooms in each of the two principal dormitories, thus giving to those in the boarding department convenient access to many of the leading papers and periodicals of the country.

THE MARBLEHEAD LIBRARIES

In 1910 a traveling library system was inaugurated at Atlanta University. This was made possible by the generosity of the late James J. H. Gregory of Marblehead, Mass., who carefully selected and gave for this purpose over 2,000 books. They have been arranged in collections of from forty to fifty volumes, and are sent for terms of six months to schools or responsible individuals, so that they may be used to the greatest advantage in the localities receiving them. Fifty libraries are now in circulation.

THE ATLANTA CONFERENCE

Atlanta University recognizes that it is its duty as a seat of learning to throw as much light as possible upon the intricate social problems affecting the American Negro, both for the enlightenment of its own graduates and for the information of the general public. It has, therefore, during the last eighteen years sought to unite its graduates, the graduates of similar institutions, and educated persons in general throughout the country in an effort to study carefully and thoroughly certain definite aspects of the Negro problems.

Eighteen conferences have been held, and the proceedings of each have been published by the Atlanta University Press, upon: "Mortality among Negroes in Cities", "Some Efforts of American Negroes for Their Own Social Betterment", "Social and Physical Condition of Negroes in Cities", "The Negro in Business", "The College-Bred Negro", "The Negro Common School", "The Negro Artisan", "The Negro Church", "Negro Crime", "Select Bibliography", "Negro Physique", "Co-operative Business", "The Negro Family", "Efforts for Social Betterment", "The College-Bred Negro", "The Negro Common School", "The Negro American Artisan", and "Morals and Manners among Negro Americans". The nineteenth conference will be held May 25, 1914.

BUILDINGS

The buildings are situated on high ground, in the western part of the city, and surrounded by sixty acres of land belonging to the Institution.

DORMITORIES

There are two principal dormitories, the one used by the girls having been erected in 1869, with a wing added in 1880. This building contains

the school kitchen and dining-room. The dormitory used by the boys was built in 1870, with a wing added in 1871. Each of these buildings contains a parlor, reading-room and gymnasium. They also have a complete system of sanitary plumbing, with bath-tubs supplied with hot and cold water.

STONE HALL

This building, erected in 1882, stands between the two dormitories, and is a gift of the late Mrs. Valeria G. Stone, of Malden, Mass. It contains the chapel, the large school-room, recitation and lecture rooms, the physical and chemical laboratories, offices, etc. This building, the two dormitories, the practice school, the library and the domestic-science building, are heated by steam from one plant.

KNOWLES INDUSTRIAL BUILDING

This building, erected in 1884, is for the use of the mechanic arts department. It is a memorial of the late Mr. L. J. Knowles, of Worcester, Mass., whose widow appropriated from his estate $6,000 for its erection, this amount being increased by the gifts of a few other friends.

Power for the machinery in the building is furnished by a steam-boiler and a fifteen horse-power engine, and the rooms are equipped with pipes so as to use either steam from the boiler or the exhaust steam from the engine for heating purposes.

On the first floor of the building are various wood-working machines, a lumber room, and benches and tools for repairing and construction work. On the second floor are a bench-room, containing twenty benches, each furnished with a set of tools, and ten wood-turning lathes and tools; and two drawing-rooms, containing the necessary drawing-stands, instruments, models, etc., for free hand and mechanical drawing. In the basement are a forge-room, having twelve forges and anvils and the tools required for ordinary blacksmith work and small machine forging, and a machine-room, containing an engine lathe, drilling machine, wet and dry emery grinders, and a cabinet of machinists' tools.

THE FURBER COTTAGE

This building, also known under the more formal name of "The King's Daughters' Model Home and Maria B. Furber Cottage", was erected in 1899 from contributions which had been slowly gathered during a number of years, chiefly from circles of King's Daughters in many parts of the country and from personal friends of the late Mrs. Maria B. Furber, wife of the late Rev. Dr. Daniel L. Furber, of Newton Centre, Mass., who, himself, made generous additions to the building fund previous to his death. It contains dormitory rooms for at least eighteen occupants, who carry on all the work of the home without servants, and is equipped with facilities for teaching the domestic arts in the most thoroughly scientific as well as practical manner.

THE OGLETHORPE SCHOOL

This building, erected in 1904, is the gift of the General Education Board of New York and its Treasurer, Mr. George Foster Peabody, each contributing the sum of $5,000, and of a large number of other friends who contributed a third sum of $5,000. The building contains ten rooms besides a large basement, and is used for practice teaching in connection with the Normal Department, special attention being given to the training of Kindergarten teachers as well as teachers for the public schools.

CARNEGIE LIBRARY BUILDING

This building, erected in 1905, is the gift of Mr. Andrew Carnegie, who contributed $25,000 for its erection and furnishing. It contains a fire-proof stack room, large reading and reference rooms, a lecture room, picture room, rooms for unpacking, traveling libraries, etc., and is equipped with the most modern furnishings and apparatus for effective library administration.

FUNDS

The University has thus far received but a very small part of the endowment needed to carry on even its present work, to say nothing of future growth. The invested funds on hand July 1, 1913, were as follows:

For scholarships	$33,562 75
For general endowment	57,819 15
For maintenance of library	6,000 00
Total	$97,381 90

NEEDS

It will be seen from the above statement that, proportionally, the funds for general endowment are in greatest need of increase. For endowment Atlanta University needs $800,000. This would relieve the Institution of the harassing task of raising money for current expenses by incessant personal solicitation. Appealing to its record of forty-four years completed, Atlanta University asks for sufficient endowment to maintain the work at a high grade of usefulness and to meet the opening opportunities of the future.

Until such endowment is secured the Institution is almost wholly dependent upon annual donations from the benevolent public. For many years the Trustees of the John F. Slater Fund have helped the work, their last three appropriations having amounted to $3,000 each. In addition to the payments of the students, $37,000 is needed annually.

CORPORATE NAME

The corporate name of this Institution is THE TRUSTEES OF THE ATLANTA UNIVERSITY. Wills containing bequests should be attested by three witnesses in most of the States.

MISCELLANEOUS SUGGESTIONS

Each pupil should bring a Bible. It is needed for private reading, for Sunday-school, and for use in classes.

Students are required to be furnished with all prescribed text-books at the time when the use of them begins.

All should be provided with warm clothing.

Young women should provide themselves with rubbers, umbrella and coat for stormy weather.

The use of silks, velvets, or other expensive or showy materials or trimmings is considered inappropriate. Dresses of cotton and woolen materials are most suitable. Only simple dresses for the close of school are permissible. Parents are asked not to send clothing, unless the request for it is endorsed by the preceptress.

Experience has taught us that much evil comes from pupils receiving food or large quantities of fruit or candy, from home or friends. They are, therefore, not allowed to receive it. *Friends will please not send it.*

Letters should be directed in care of Atlanta University, Atlanta, Ga.

Students who do not board at their homes are not allowed to board out of the Institution, unless by special permission.

The Institution encourages the customary student organizations: athletic, literary, debating, musical and religious. Membership in unauthorized student organizations is prohibited.

Boarders are expected to furnish their own towels and napkins, and it is suggested that each one bring a blanket or comfortable and a knife, fork and spoon.

Keeping or using firearms on the premises is forbidden.

Especial attention is called to the rule prohibiting the use of all intoxicating drinks, and tobacco in every form.

The proper observance of Sunday is most important for the moral and religious welfare of the students. This Institution is the result of benevolent efforts, and that it be decidedly religious in its influence, without being sectarian, is the reasonable expectation of its friends. Boarding pupils are therefore required to attend stated religious services. Students should arrange so as not to travel on Sunday, and friends are earnestly requested not to call upon them on that day.

It is desired to make the school, as far as possible, a *home* for those who attend. Not only their intellectual, but also their physical, social, moral and religious culture receives careful attention.

The majority of our graduates, and many others who have left before finishing their course, are engaged in teaching during a part or all of the year. Besides these, during the four months of the summer vacation, some of the students engage in teaching, so that a large number of children in Georgia and other states are taught annually by those who have been connected with the Institution.

THE WORK OF OUR GRADUATES

As an encouragement to prospective students to attend Atlanta University, and to friends of Southern education to support the work, the following statement is presented showing the marked success our graduates have had in securing not only remunerative positions for their self-support, but also opportunities for the widest usefulness in the work of uplifting their race.

THE COLLEGE GRADUATES

While the one hundred and ninety-nine graduates from the College represent only a small part of the work done by the University, they represent a very important part of that work, as will be evident from a statement of the positions they occupy and the work they are doing.

Of these one hundred and ninety-nine graduates, twenty-seven have died. Of the one hundred and seventy-two now living, thirteen are ministers, several of whom however are classed in our summary as teachers; eight are physicians, five are lawyers, one is a dentist, seventy-seven are teachers, eighteen are in the service of the United States, twenty-four are in other kinds of business, and nine are students. These statistics together with those of the normal graduates, are given in tabular form on page 48 of this catalogue.

MINISTERS

Two of the ministers are pastors of Congregational churches in Chattanooga, Tenn., and Mason City, Ia.; four of Baptist churches in Charleston, S. C., Atlanta, Ga., Augusta, Ga., and Joliet, Ill.; four of Methodist churches in Columbus, Ohio, Baltimore, Md., Guthrie, Okla., and one is chaplain of the Tuskegee Normal and Industrial Institute. Another is secretary of a Y. M. C. A. branch in New York City. Some of these ministers have made addresses in national and international assemblages, one is a fellow of the Royal Geographical Society, and one has had the unique honor of being a member of the board of education in a large Southern city for fourteen successive years.

TEACHERS

Many of the teachers are holding high positions. No less than three are college presidents: of the Georgia State Industrial College, Savannah, Ga.; of Lincoln Institute, Jefferson City, Mo., and of the Florida Baptist College, Jacksonville, Fla. Nine are principals of city public schools. Some of the others are designated as follows: principal of the Charleston Industrial Institute, Charleston, S. C.; principal of the Howard Normal School, Cuthbert, Ga.; principal of Manassas Industrial School, Manassas, Va.; principal of Knox Institute, Athens, Ga.; principal of High and Industrial School, Fort Valley, Ga.; principal of Payne Institute, Cuthbert, Ga.; professor of pedagogy in Atlanta University; associate

professor of mathematics and science in Howard University, Washington, D. C.; professor of sloyd and mechanical drawing in the State Normal School, Petersburg, Va.; professor of pedagogy in the Georgia State Industrial College, Savannah, Ga.; principal of Burrell Normal School, Florence, Ala.; professor of mathematics in Lane College, Jackson, Tenn.; teacher of Latin in Atlanta University; supervisor of industrial work in the public schools of Memphis, Tenn.

OTHER PROFESSIONS

Of the eight physicians three are located in Atlanta, Ga., and three respectively in Denver, Colo., Evanston, Ill., and Philadelphia, Pa. Most of them were among the first in their classes in the medical schools that they attended.

The five lawyers practice severally in Boston, Mass., Chicago, Ill., Macon, Ga., and in Savannah, Ga., and are successful in their profession. One is Master in Chancery by appointment of the Governor of his State. The one dentist lives in Atlanta and has an extensive practice.

One of these graduates was a lieutenant in the army during the Spanish War, and captain of U. S. Volunteers in the Philippine Islands. Another was paymaster with the rank of major.

NORMAL TRAINED TEACHERS

Most of these teachers are located in Georgia, but some are in Virginia, West Virginia, North Carolina, South Carolina, Missouri, Tennessee, Arkansas, Oklahoma, Texas, Alabama, Louisiana, Florida and the District of Columbia. About two-thirds of the teachers in the colored schools of Atlanta were educated in Atlanta University. Several of these have been in continuous service many years. Two have been in the same school in Savannah since 1876. While most are teaching in public schools, some being principals in important positions, a large number are also in private institutions. One is the founder and principal of Haines Normal and Industrial Institute in Augusta, Ga., a large and important school, under the Freedman's Board of the Presbyterian Church. Here several others of our graduates are assistants. Another is Dean of Women's Department at Tuskegee Institute; another is founder and manager of an orphans' home and school in Covington; another is principal of an American Missionary Association in Marshville; another is principal of the Model and Training School near Athens, Ga.

Almost every one of these graduates is a Christian and is doing work in the church, Sunday-school and home, and is exerting a strong influence for good in the community in which he lives. In a large measure they are moulders of public sentiment, and are helping in a quiet way to solve some of the perplexing problems of these troublous times. Although they are reformers in the best sense of the word, they are an eminently conservative social element.

Man is not changed by white-washing or gilding his habitation; a people cannot be regenerated by teaching them the worship of enjoyment; they cannot be taught a spirit of sacrifice by speaking to them of material rewards.

It is the soul which creates to itself a body; the idea which makes to itself a habitation.

Sketch of Atlanta University

Atlanta University is one of the pioneer institutions for the Christian education of Negro youth. It possesses excellent equipment for the work of high school, normal school and college classes and has accommodations for one hundred and sixty boarding students. It is the first institution in the state of Georgia to undertake work of college grade for Negroes, and steadily emphasizes the importance of genuine scholarship. It enjoys the cumulative advantage which results from forty-five years of continuous effective work. It has been unusually fortunate in the continuity of its administration. It was founded in 1867 under the auspices of the American Missionary Association by Edmund Asa Ware. It was presided over by him until his death in 1885. President Ware was a graduate of Yale University of the class of 1863. In 1875 his Yale classmate, Horace Bumstead, came to Atlanta as a teacher and co-worker. Dr. Bumstead succeeded to the presidency and held the position until 1907 when he resigned, and became the recipient of a Carnegie pension. His successor is Edward Twichell Ware, son of the founder and first president, a graduate of Yale University of the class of 1897.

On the teaching force there always have been, as there are now, men and women who have received the best education that this country affords. Among the colleges represented by the teachers are Harvard, Dartmouth, Chicago and Wellesley. The memory of those who have devoted their lives to this work in the past is kept fresh by the grateful memorials of the graduates. On the walls of Ware Memorial Chapel hang the pictures of the first two presidents and of other teachers. The evening sun shines through two beautiful memorial windows, one placed there by the graduates living in Savannah and the other by those living in Atlanta.

The wisdom and foresight of the founders of this institution is seen in its exceptionally fine location. Atlanta University occupies a commanding site on the summit of a hill in the western part of the city of Atlanta and is surrounded by a campus of sixty acres. There are seven substantial brick buildings, three of them covered with Boston ivy. At this season of the year the campus is particularly beautiful with its fields of alfalfa south of the buildings and the green grass and trees in front.

There are enrolled four hundred students. About two-thirds of them come up the hill every day from the city of Atlanta. The rest are in the boarding department and represents ten states, and thirty-six counties in the state of Georgia. These young people are many of them children of the graduates of Atlanta University and most of them have re-

ceived their training in schools over which the graduates preside.

Instruction in domestic science and manual training is required of all the high school students and there are opportunities for pursuing this work further in the college course of mechanic arts and in the Furber Cottage for the normal students. The normal course comprises two years following the high school course. During the senior year the girls live in the Furber Cottage in groups of fifteen and under the supervision of the matron do all the work of the home. The institution also possesses a well equipped printing office from which is issued the catalogue and the student and alumni papers. Here there is an opportunity to learn the art of printing. A fund has recently been raised to install the equipment necessary for book binding and it is our hope another year to add this to the courses of manual instruction.

It is the purpose of Atlanta University to make the home life in the school strong and wholesome, a genuine part of its education. All students are required to spend at least their senior year in the school family where they come into daily association with each other and with the teachers. There is an athletic field for the boys and there are tennis courts for the girls and boys. The school fare is simple but wholesome. Occasional social gatherings bring the students together in pleasant fellowship. This institution is an outgrowth of the Christian spirit which brought so many earnest and devoted teachers South in the educational crusade of the sixties and seventies. The work is essentially Christian. It is undenominational and strong in religious motive. Students attend church and Sunday school. They also have their voluntary religious organizations, the Y. M. C. A. and Y. W. C. A. Participation in the religious exercises and in the home life of the school has often been instrumental in molding the character of the students for the most efficient service among their people.

There is probably no school for the Negroes in the South better equipped with facilities for domestic science, for library work, or for the training of teachers. This institution has also long been prominent for the excellence of its work in sociology. Its annual publications on the Negro problem have received wide recognition from scholars and may be found in the best libraries in this country and abroad. Recently a special course in the training of kindergarten teachers has been organized. Students have opportunity for practice in the Oglethorpe Practice School and in the mission kindergartens in the city. There are six young women to graduate this year from this course which is parallel in scholarship requirements with that of the regular normal school course.

The chief source of encouragement for the work rests in the almost uniform success of the graduates of Atlanta University. A summary of their present occupations will be found on page 32. Under the direct

instruction of the graduates there are about fifty thousand children in country and city schools. The demand for graduates as teachers and in other responsible positions increases from year to year. Never was there greater need than to-day for just such work as this institution accomplishes.

This catalogue issue of the Bulletin will go to many friends of Atlanta University, some of them contributors for the support of the work, some of them prospective students. To the prospective student we say: We welcome at Atlanta University all young people prepared to take up work of high school or college grade who have an earnest desire to prepare themselves for lives of usefulness. For those who cannot afford to pay the very moderate rates there are scholarship funds available by which expenses may be substantially reduced. As an earnest of faithfulness and appreciation, we require additional work from all students receiving such beneficiary aid.

Those who contribute will be interested to know that the property of Atlanta University is worth, all told, about $300,000. The invested funds amount to about $100,000. For the proper maintenance of the work we require each year about $37,000 in addition to the amount reasonably to be expected from payments of students and income from funds. This institution has no large and wealthy body of alumni to call upon for maintenance. Many of the graduates are giving annually what they can afford. We earnestly appeal to all who believe in Christian education for help in the maintenance of the work. It is hoped that through the generosity of our friends this institution may some time possess an endowment adequate to the needs of the work. Until then we are dependent on the endowment of friends who give from year to year. May we not hope that their number will increase so that we may meet the growing demands of the work and occupy a constantly broadening field of usefulness.

COURSES OF STUDY

There are three courses of study: the High School, the Normal, and the College. See Entrance Requirements.

NOTE 1—The figures denote the number of recitations, or their equivalent, a week. All studies continue throughout the year, unless otherwise indicated.

Note 2—Quite a number of students enter the High School course with insufficient preparation. They are expected to take two years for the work of the First Year Class.

The College Course in Education includes most normal work, and enough college work to make the desired number of credits.

The College Course in Mechanic Arts includes at least one special course of four credits each year, and other college work to complete.

In All College Courses at least eight credits each are required in Mathematics, Science and Philosophy; and at least twelve each in English, Social Science and Foreign Languages.

ENTRANCE REQUIREMENTS

The requirement for admission to the lowest class in the High School is the completion of the ordinary grammar school course. Examinations are given in arithmetic, grammar, U. S. history and geography. For admission to higher classes and courses students are required to give evidence that they have completed all lower work, or its equivalent.

In case students from other institutions desire full admission to our college or normal courses, they must strictly conform to the following: (1) They must fully convince us that they have satisfactorily completed at least fifteen units of high school work. (2) At least eleven of these units must be in the departments of English, Latin, Mathematics, Social Science (including History) and Natural Science. Of these eleven at least three must be English, and at least five (one of them three and the other two) Latin and Mathematics in the case of college students, or Natural Science and Mathematics in the case of normal students.

The word "unit", as meant in the above requirement, represents a year's study in any subject in a secondary school, constituting approximately a quarter of a full year's work. It is assumed that a study is pursued for four or five periods a week, that a recitation period is from forty to sixty minutes in length, and that the length of the school year is from thirty-six to forty weeks.

Candidates for advanced standing, from other institutions in the Association of Colleges for Negro Youth, of which Atlanta University is a member, are admitted without examination. Candidates from certain other schools, on a list approved by the faculty, are often similarly admitted; but even in such cases this institution reserves the right to examine as fully as may be deemed necessary. Particulars will be given, as adapted to each individual case, upon application.

Entrance credit is always granted *on trial*, and may be modified if the student's work shows that too many units have been granted to him.

Opportunities for POST GRADUATE STUDY leading to the degree of A. M. are offered to a limited extent; also two FELLOWSHIPS, open to college graduates, and three TUTORSHIPS, open to normal graduates. Particulars can be learned from the President.

COURSES OF INSTRUCTION

The figures denote the number of recitations, or their equivalent, a week. All studies continue throughout the year unless otherwise indicated.

I. CLASSICS AND MODERN LANGUAGES

PREPARATORY COURSES

LATIN A[5]. Fundamental principles. Text book, Bennett's First Year Latin.

LATIN B[4]. The equivalent of three books of Cæsar; drill in grammar and prose composition. Greenough, D'Ooge and Daniell's Second Year Latin.

LATIN C[4]. Five orations of Cicero. Prose composition.

LATIN D[4]. Five books of Virgil. Prosody and Mythology.

GREEK A[5]. Elementary, and two books of Xenophon's Anabasis.

COLLEGE COURSES

LATIN I[4]. Selections from Cicero, Livy and Pliny, alternating with LATIN II[4], selections from Horace, Tacitus and others. Attention also given to Roman history and literature.

GREEK I[5]. Selections from Lucian, Homer, Thucydides and Euripides, alternating with GREEK II[4], selections from Herodotus, Plato, Demosthenes and Æschylus.

GERMAN I[5]. Work in grammar, with practice in speaking and easy reading, then a selected classic, this year Fluch der Schönheit.

GERMAN II[4]. Prose composition, and a selected classic, this year Die Jungfrau von Orleans.

FRENCH I[4]. Senior. Chardenal's Complete Course, supplemented by exercises in conversation, and the stories L'Abbé Constantin and Gil Blas, or their equivalents.

II. PHYSICAL AND NATURAL SCIENCES

PREPARATORY COURSES

A[4]. ELEMENTARY. Introduction to work in the sciences. New course in 1915-16.

B ($\frac{1}{2}$)[5]. PHYSICAL GEOGRAPHY. A general course.

C[4]. BIOLOGY. Physiology one-half year; and botany, and also elements of agriculture, one-half year.

D[4]. CHEMISTRY. Elementary; one credit earned by laboratory work.

E[4]. PHYSICS. Elementary, one credit being earned by laboratory work: experiments in physical measurements, mechanics of solids and fluids, heat, light, sound and electricity.

COLLEGE COURSES

CHEMISTRY I[4]. One-half of time given to laboratory work. General chemistry.

CHEMISTRY II[4]. Qualitative and quantitative analysis. Application of chemistry. Laboratory courses.

PHYSICS I[4]. Mathematics I, II and III are pre-requisites. One-half the credit is by laboratory work, and one-half by lectures, demonstrations and recitations.

BIOLOGY [4]. A general course.

PHYSIOGRAPHY ($\frac{1}{2}$)[4]. Advanced, as an equivalent for Geology.

ASTRONOMY ($\frac{1}{2}$)[4]. A general course, using Moulton's Elements of Astronomy.

NORMAL COURSES

See GEOGRAPHY and GEOLOGY, under PEDAGOGY.

LABORATORIES AND CABINETS. The physical laboratory, 50x20 feet, and the chemical laboratory, 50x25, are fitted and furnished for the elementary and advanced courses. A well-equipped science lecture room is furnished with apparatus for class demonstration and lecture purposes. The geological and mineralogical cabinets are well adapted to teaching purposes.

III. MATHEMATICS

PREPARATORY COURSES

A[5]. ALGEBRA. Elementary, including ratio and proportion, radicals, radical equations, theory of exponents, the binomial theorem, simple quadratics, use of the graph.

B ($\frac{1}{2}$)[5]. GEOMETRY. The more essential principles of plane geometry, including the simpler originals, theorems and constructions.

C ($\frac{1}{2}$)[5]. GEOMETRY. More complete work in the foregoing: loci, incommensurables and variables.

D[4]. ALGEBRA. Review of elementary work, and especial drill in quadratics, complex numbers, logarithms, the use of the graph.

E[5]. BUSINESS METHODS. Designed to give a general knowledge of business forms and the keeping of accounts.

COLLEGE COURSES

I[4]. ALGEBRA one half year, with special drill in series, determinants, solutions of higher equations; and GEOMETRY one-half year, solid and spherical, with problems.

II ($\frac{1}{2}$)[4]. TRIGONOMETRY, plane and spherical, with practical applications; and surveying, with field practice.

III ($\frac{1}{2}$)[4]. ANALYTICS. Smith and Gale's Analytic Geometry.

IV ($\frac{1}{2}$)[4]. DESCRIPTIVE GEOMETRY.

V[4]. CALCULUS.

IV. ENGLISH

PREPARATORY COURSES

ENGLISH A. First Semester: Review of grammar; a brief study of description, narration, exposition and argument; practice in writing. Text book, Scott and Denney's Elementary English Composition.

Second Semester: Further drill in composition; outlines of the history of the apostolic church, using the Bible Study Union lesson system.

ENGLISH B. General survey of both English and American literature. Reading and memorizing, with oral and written reports.

ENGLISH C. Detailed study of selected classics: Julius Cæsar, Hamlet, Silas Marner, Ivanhoe, Tale of Two Cities, Paradise Lost, Kidnapped; and Shakford-Judson's Composition.

ENGLISH D. First semester: Vanity Fair; selections from Browning; Virginibus Puerisque. Second Semester: Essay on Burns; Lowell on Books and Libraries; King Lear; Emerson on Self Reliance and Friendship.

BIBLE A. See under ENGLISH A.

BIBLE B $(\frac{1}{2})^4$. Outlines of Old Testament History, using the Bible Study Union lesson system.

EXPRESSION A and B. Twice a week during one semester, for students in Second and Fourth Years; each time taking the place of one exercise in ENGLISH B and D. Drill in vocal expression, voice training and pantomime.

NORMAL COURSES

ENGLISH $(\frac{1}{2})^4$. Advanced work in narration, description, exposition and argumentation, using Scott and Denny's New Composition-Rhetoric and Smith's Handbook of Debate. Each student prepares a book of myth stories taken from Gayley's Classic Myths in English Literature.

EXPRESSION. Similar to College Course.

COLLEGE COURSES

ENGLISH I^4. Detailed study of several extended classics, with special reference to the development of types; lectures upon the art of composition; elementary argumentation. Themes.

ENGLISH II $(\frac{1}{2})^5$. Argumentation. Study of text book for theory, and practice in writing briefs and forensics.

BIBLE I $(\frac{1}{2})^5$. After a study of the formation of the canon, of the various versions, and of the literary qualities of the Bible, the historical method is used in a study of the history of the Hebrew people through the Greek period. Texts: The Old Testament, and Sanders and Fowler's Outlines. Collateral reading.

EXPRESSION I and II. Voice culture, physical exercises, gesture drills and training in reading from standard literature. The aim in this department is to lead the pupil to think clearly and deeply, and to express simply, forcefully, and beautifully, his own thoughts and the thoughts of others. As an outcome of this study, the Merchant of Venice was presented as the class night exercise in 1905, the Taming of the Shrew in 1906, As You Like It in 1907, Twelfth

Night in 1908, Sheridan's Rivals in 1909, The Tempest in 1910, Midsummer Night's Dream in 1911, Macbeth in 1912, Comedy of Errors in 1913, and Dickens's Cricket on the Hearth in 1914.

PUBLIC RHETORICALS. Rhetorical exercises, to which the public is especially invited, are held six times a year, being made up of orations, essays, recitations and music. For the dates, see *Calendar.*

V. PHILOSOPHY

PREPARATORY COURSES

ETHICS A ($\frac{1}{2}$)[5]. Elementary. Especial attention given to biblical teachings and practical questions.

COLLEGE COURSES

PSYCHOLOGY I ($\frac{1}{2}$)[4]. The text book, Angell's, is supplemented by collateral readings, lectures and experiments. This is an introductory course, giving a general survey of the essential facts and fundamental laws of mind and of consciousness.

HISTORY OF PHILOSOPHY I ($\frac{1}{2}$)[4]. A study of the development of philosophic thought, beginning with the Greeks, continuing through the Renaissance, the modern systems from Bacon and Descartes through Kant, and the important developments since Kant. The text book will be supplemented by lectures and required readings in the sources. Text: Cushman.

ETHICS I ($\frac{1}{2}$)[4]. A systematic course, investigating the psychological basis of conduct, tracing the growth of moral ideas in the race and discussing the various theories of the moral standard, with especial reference to the social consciousness. A thesis is required of each student. Text: Dewey and Tufts.

NORMAL COURSES

See under PEDAGOGY.

VI. SOCIOLOGY AND HISTORY

It is intended to develop this department not only for the sake of the mental discipline, but also in order to familiarize our students with the history of nations and with the great economic and social problems of the world. It is hoped that thus they may be able to apply broad and careful knowledge to the solving of the many intricate social questions affecting their own people. The department aims, therefore, at training in good, intelligent citizenship; at a thorough comprehension of the chief problems of wealth, work, and wages; at a fair knowledge of the objects and methods of social reform; and at a general comprehension of the world's thoughts and deeds. The following courses are established.

PREPARATORY COURSES

CIVICS A ($\frac{1}{2}$)[5]. Dole's American Citizen.

HISTORY A[5]. General history; the first semester, to 800 A. D., and the second semester, to 1900 A. D.

History B ($\frac{1}{2}$)[4]. A course in English history, with a special desire to show the development of England and its relations to Western Europe, the New World, the far East, and Africa.

Economics-Civics A[5]. A course in the elementary principles of economics and government, with special emphasis on their application to Negro American life.

NORMAL COURSES

History ($\frac{1}{2}$)[4]. A course in the history of the United States, intended especially for teachers. Special attention is given to the Negro's connection with the history of the United States. A thesis on slavery, embodying results of personal research, is required of each student.

Civics ($\frac{1}{2}$)[4]. A course in the government of the United States, with special reference to its historical development.

COLLEGE COURSES

History [4]. World history; and history of the Negro, with special reference to the United States and Africa.

Economics [3]. General economics, and economic history of the Negro American. The principles of political science are included in this course.

Sociology [4]. General sociology, and social condition of the Negro American.

Sociological Laboratory. This consists of a special library of books on statistics, economics, sociology and history, with duplicate copies of standard works and of maps, charts and collections illustrating social and historic conditions. Here the courses of this department are taught, with special reference to the American Negro. Field work and thesis work are required.

In addition to this, graduate study of the social problems in the South by the most approved scientific methods is carried on by the Atlanta Conference, composed of graduates of this and other institutions.

The aim is to make Atlanta University the center of an intelligent and thorough-going study of the Negro Problems. Eighteen reports of the Conference have been published.

The library contains a good working collection of treatises in history and sociology, and special reports on outside reading are required in all these courses.

VII. PEDAGOGY

GENERAL NORMAL COURSES

A ($\frac{1}{2}$)[4]. Educational Psychology. The study of this subject in its relation to the work of the teacher.

B ($\frac{1}{2}$)[4]. Pedagogy. This course deals with school management and organization, which includes the planning of courses of study for

elementary and secondary schools, the consideration of educational values, the history of education, and the discussion of the problems peculiar to the common schools of the South.

C[2]. GENERAL METHODS. Discussion of all subjects of study taught in the Oglethorpe School, and of their relations to each other and to the whole. Special discussion of the methods of teaching. General critic work.

D[1]. OBSERVATION. } The Oglethorpe School is used for this pur-
E[3] TEACHING. } pose.

F. SPECIAL METHODS. (a) *Arithmetic*[4]. A careful review of principles and applications, laying special stress upon analytical methods, and discussion of methods of teaching.

(b) *Grammar* (½)[4]. The structure of the English language is carefully studied.

(c) *Art and Methods*[2]. Drawing and painting in connection with nature study and other school subjects. Principles of design, and their applications. Study of color and color harmony, with a view to personal applications in the home. Basketry and other handwork for the various grades. History of basketry. Teaching the use of native materials.

(d) *Geography and Physiography*[4]. "Principles of Geography" is made the basis of the course. This includes mathematical and astronomical geography; the principles of relief, the principles of climate, the principles of plant and animal distribution.

(e) *Music.* Taken with especial reference to teaching.

(f) *Home and School Sanitation.* Healthful furnishings; ventilation; disposal of waste; general sanitation for home and school.

KINDERGARTEN NORMAL COURSES

JUNIOR YEAR. (a) *Children's Handwork and Games*[2]. The purpose of this course is to make the normal students more effective teachers in their work with little children through the introduction into the regular school program of simple handwork and educational games.

(b) *Constructive Materials*[2]. Special study of the kindergarten materials and their function in the mental and moral development of the child.

(c) *Nature Study*[1]. Taken up in its relation to the three-fold development of the child. Special emphasis on gardening and nurture of plant and animal life.

(d) *Observation*[1] of kindergarten and primary teaching under critic teachers in the Oglethorpe School.

SENIOR YEAR. (a) *Child Study* (½)[2]. Discussion of methods of training children in home and school to physical, mental and moral health.

(b) *Children's Literature* (½)[2]. Study of literature for small children, with practice in telling stories suitable for use in the home or

class room.

(c) *Froebel's Mother Play*[2]. Study of the text for the purpose of deducing simple, practical suggestions for child training, which with pictures, stories, songs, and references to nature literature are kept in note book form.

(d) *Kindergarten Theory*[2]. Study of the educational theory of Froebel and comparison with other theories that affect kindergarten and primary practice today.

(e) *Program Making*[2]. Formation and discussion of outlines of daily, weekly, monthly and yearly kindergarten programs, with study of principles and methods that underlie kindergarten and primary practice.

THE OGLETHORPE SCHOOL. In this school—described under *Buildings*—is given an opportunity to engage in the actual work of teaching and to observe such work under thoroughly competent supervisors. The organization includes eight grades and a kindergarten.

GAME FESTIVAL. As an outcome of the study of games, a play festival, including typical games and folk dances, in which Junior Normal girls and kindergarten, first and second grades of the Oglethorpe School participate, is held during the Commencement week.

COLLEGE COURSES

Normal course B is required of all, and other normal courses are included in the special College Course in Education.

VIII. MUSIC

VOCAL MUSIC. This is required of all High School students in the first and second years. These receive such elementary instruction as is needed, and have practice in chorus singing. An advanced chorus meets twice a week throughout the year, being composed of most of the High School students beyond the second year, and selected College and Normal students.

For terms of instruction to private pupils, see EXPENSES.

INSTRUMENTAL MUSIC. Instruction in the piano is given at a reasonable charge, for which see EXPENSES. Eight pianos are in use by the Institution. An effort is made to suit the instruction to the needs of the individual pupil. In general the *Elementary Course* includes a thorough foundation in technique, with selected studies and sonatinas, and easy pieces by classical and modern composers; the *Advanced Course* continues the study of technique, including major and minor scales in various forms; arpeggios and chords, etudes and studies. Greater attention is given to such composers as Mendelssohn, Schumann, Schubert, Chopin, Grieg, Rubinstein, Mozart, Haydn, Beethoven. Students who show special fitness are given an opportunity to join a class in *Normal Methods* meeting once a week. Private recit-

als are given at intervals and a public recital is given at the close of the year.

IX. MANUAL TRAINING AND DRAWING

FIRST YEAR. *Drawing* [1] (64 hours). For all. Nature work, decorative design and construction work.

Manual Training[4] (240 hours). For boys. Mechanical drawing—practice in lettering, free hand and mechanical working drawings of projects made in the bench room; bench work—exercises and projects involving the use of the common woodworking tools and joints. Textbook—Griffith's "Essentials of Woodworking."

Sewing[2] (128 hours). For girls. Instruction in basting, backstitching, running, overcasting, oversewing, hemming, French seam, felling, patching, tucking, gathering and binding, buttonholes, and sewing on buttons. Practical demonstration of these stitches by making small garments.

SECOND YEAR. *Drawing*[1]. (64 hours). For all. Fuller development of the work of the first year; also object drawing, color work, light and shade, pose drawing and applied design.

Manual Training[5]. (192 hours). For boys. Wood-turning—exercises and projects in spindle-turning; furniture-making—design, making of working drawings, construction, and finishing of a simple piece of furniture.

Sewing. (96 hours). For girls. Practical mending. Plain machine work. Cutting and making undergarments. Each girl is required to make for herself an apron suitable for use in cooking class. Girls can buy garments at cost.

THIRD YEAR. *Cooking.* See under Fourth Year.

Sewing. For girls. Shirt-waist drafting. Drafting, cutting, fitting, and making plain tailored shirt waists. Cutting and making simple gingham dresses from bought patterns.

Dressmaking processes, drafting, cutting, fitting. Students are expected to buy material for an inexpensive woolen dress with linings and trimmings for practical work. *Cooking.* See under Fourth Year.

FOURTH YEAR. *Cooking.* This includes a study of the following subjects related to cooking and household management: the care and cleanliness of dishes, kitchen utensils, sink and ice chest; the value of sunshine and fresh air throughout the house; yeast and bread making; buying and cooking of meats. The chemistry of cooking is illustrated by practical experiments, and charts are used to show the comparative nutritive values of foods. Emphasis is placed upon the wholesome and economical use of "left overs".

Art[4]. Fuller development of advanced work of second year. Special emphasis on methods of teaching drawing.

Household Art[4]. Marketing; preservation, preparation and attrac-

tive serving of wholesome food; and other practical topics.
NOTE:— Ordinarily cooking and sewing are taken together during the third and fourth years, the amount being as stated.

JUNIOR AND SENIOR NORMAL YEARS. The members of the Normal course spend a portion of their time in Furber Cottage, where practical instruction in cooking and housekeeping is given.

X. MECHANIC ARTS

The Mechanic Arts Course is designed primarily to fit our graduates for teaching along industrial lines.

PREPARATORY SUBJECTS

MECHANIC ARTS A[4]. Junior Prep. Wood-turning—advanced work in spindle and face-plate turning; furniture making—design, making of working drawings, construction of a piece of furniture; mechanical drawing—projection drawing, including development of surfaces.

MECHANIC ARTS B[4]. Senior Prep. Elementary iron-working—simple operations in blacksmithing, including welding, machine-shop practice in chipping, filing, polishing, drilling, tap and die work, simple turning. Machine drawing.

COLLEGE SUBJECTS

MECHANIC ARTS I[5]. Freshman. Description of engineering machines and operations.

MECHANIC ARTS II[4]. Sophomore. (a) (½ year). Descriptive geometry. (b) (½ year). Principles of design.

MANUAL TRAINING I[4]. Junior. Observation of High School manual training. History and systems of manual training.

MANUAL TRAINING II[4]. Senior. Materials and methods of manual training. Practice teaching.

The following are not classified above:

BUSINESS LAW AND ETHICS. Under the auspices of the Phelps-Stokes Fund of New York, an arrangement has been made by which advanced students of Atlanta University and Morehouse College may jointly pursue a course in Commercial law and business ethics. This is a course of thirty-two lectures, with examinations, and is conducted by Mr. Philip Weltner of the Atlanta bar.

SANITATION. Theory of disease; household bacteriology; simple household remedies. The course also includes household accounts, buying household linen, systematizing of labor.

PRINTING. Opportunity is given in a well-appointed printing office to learn typesetting, newspaper, book and job work. For a more complete description of this office see p. 33.

LAUNDERING. This is a part of the assigned work (p. 35) and affords opportunity for instruction in washing and ironing under the supervision of the laundry superintendent.

HONORS AND PRIZES

At the end of their Sophomore and Senior years, honors are awarded to those college and normal students who have attained a certain average rank. The designating phrases used are: With Highest Honor; With High Honor; With Honor. The award at the close of the year 1913-14 was as follows:

COLLEGE CLASS OF 1914. *With Honor*—Eva Cornelia Connor, Robert Benton Jackson, Jr., Harriet Jewell Smith.

NORMAL CLASS OF 1914. *With Honor*—Mae V. Fortune, Eunice E. Hamilton, Violet C. Thomas, Ethel E. Westmoreland.

COLLEGE CLASS OF 1916. *With Highest Honor*—Mae Belle Maxwell. *With Honor*—Jessie Mae Murphy.

The *Alumni Prizes for Excellence in Debate* were awarded in 1914-15, in the order named, to William L. Hansberry, Eugene H. Dibble and John P. Whittaker.

The *Herndon Prizes for Excellence in Public Speaking* were awarded in 1914-15, in order named, for boys to Norris B. Herndon and Loring B. Moore; for girls to Mae B. Maxwell, Mattie B. Scott and Maxie M. Harris.

PRINTING OFFICE

This catalogue was printed in the Atlanta University Printing Office, where we also print and bind the annual Conference report; the other issues of the BULLETIN; a monthly for the students, *The Scroll;* and a quarterly for the Alumni, *The Crimson and Gray.* Job work is also done.

The office is equipped with one Colt's Armory press 14x22, one Gordon press 8x12, one 32-inch paper cutter, one power stitching machine, one Chandler & Price Proof Press 10x31, 80 fonts of job type, 1,500 pounds of body type, one Kaufman stone 40x80, one Polhemus and three Tracy steel-run cabinets, a complete book-binding equipment, and electric power to operate the machinery.

GENERAL INFORMATION

LOCATION

The University grounds are at the head of West Mitchell street, about one mile from the center of the city of Atlanta, Ga., and a little more than one-half mile from the new terminal station. Electric cars marked "WEST HUNTER, ASHBY ST.," leave the corner of Marietta and Broad streets, run near the terminal station, and directly past our gate.

MEMBERSHIP

Good health being necessary for success in study, it is expected that none who are permanently weak or diseased will apply for admission. The Institution has a good reputation for healthfulness, and the interests of the people for whom it was founded demand that this reputation should be maintained. Applicants are required to present a physician's certificate certifying to good health, and the time of the last effective vaccination; otherwise, they will be expected to bear the expense of a thorough physical examination upon entrance; and in any case, of vaccination if needed.

Application for admission should be made at least a month before the beginning of the school year, and should state, fully, previous education and present plans.

Students should enter the first day of the school year, that they may be immediately classified, and thus lose no time in beginning work.

During vacation, as well as during term time, students are held amenable to the authority of the school.

The Institution is not sectarian in its religious instruction or influence, while aiming to be thoroughly Christian. It is open to all students of either sex.

GOVERNMENT

Discipline is administered with firmness and impartiality, and aims to induce a high moral sentiment, which shall be in itself a powerful governing force in the school.

When it becomes plain that a pupil has not a fixed purpose to improve his time, and an earnest desire to fit himself for usefulness, he is removed without specific charges.

Suspension and expulsion from the Institution are resorted to in cases whose seriousness calls for such punishment.

When students are exposing themselves and others to permanent harm, it is expected that high-minded persons will be governed by the dictates of conscience and common sense, rather than by any false sense of honor in regard to disclosing the facts to the proper authorities.

EXPENSES

	Per Month
Boarding, including furnished rooms, fuel, lights and washing	$14 00
Tuition in College and Normal courses	3 00
Tuition in High School course	2 50
Instruction in Instrumental Music	2 00
Use of instrument one hour per day	50
Instruction in Vocal Music	2 00

Incidental fee, due at entrance each year: boarders, $2.00; day pupils, $1.00.

All payments are due in advance on the first of each calendar month. Fractions of a month are charged at a somewhat higher rate. Deduction of 10 % on tuition if paid in advance by the third of the calendar month, provided all other bills of the student have been settled.

The following laboratory charges are made: Elementary Physics, $1.00; Elementary Chemistry, $1.00 a term, $2.00 a year; College Chemistry $2.00, a term, $4.00 a year; College Physics, $2.00 a year.

Students taking instruction in music, vocal or instrumental, are required to make a deposit of $1.50 at the beginning of each term to pay for needed music. Any unused balance will be returned. Notice of intention to discontinue special lessons should be given in writing at least two weeks in advance.

Students given the favor of a special examination, apart from the time regularly assigned to entrance or class examinations, pay a moderate fee for the privilege.

All boarding students are required to work for the Institution at least one hour a day. This requirement helps make the above low charges possible.

Remittances in payment of bills should be made by money orders, drafts, in registered letters, or by express.

Make money orders or drafts payable to Atlanta University. Receipts will be promptly returned.

STUDENT AID

Some students have been aided in past years by contributions from the friends of popular education. It is expected that this help will be continued, and the income of the scholarship funds is also now available.

Persons should not come expecting to receive aid until they have applied for it and received a favorable answer. Those applying should state their pecuniary circumstances, their advancement in their studies, and as far as possible, what pursuit they intend to follow. In no case is aid granted for a longer time than the current year, without renewed application. Those who are aided are assigned to some extra work. Upon the faithfulness with which this work is done depends the continuance of aid. It is expected that those who receive help will, when able, return the amount to aid others.

THE LIBRARY

By the liberality of the late R. R. Graves, Esq., of New York, and a few other friends, the library now contains about 14,000 volumes. Mr. Graves also gave a permanent endowment of five thousand dollars, since increased to six thousand, which insures its steady growth. It has been completely catalogued according to the Dewey system.

In January, 1906, the books of the library were moved from Stone Hall into the new building, erected by the munificence of Mr. Andrew Carnegie. For a description, see *Buildings*.

Aside from the reading-room in the library building, there are also reading-rooms in each of the two principal dormitories, thus giving to those in the boarding department convenient access to many of the leading papers and periodicals of the country.

THE MARBLEHEAD LIBRARIES

In 1910 a traveling library system was inaugurated at Atlanta University. This was made possible by the generosity of the late James J. H. Gregory of Marblehead, Mass., who carefully selected and gave for this purpose over 2,000 books. They have been arranged in collections of from forty to fifty volumes, and are sent for terms of six months to schools or responsible individuals, so that they may be used to the greatest advantage in the localities receiving them. Fifty libraries are now in circulation.

THE ATLANTA CONFERENCE

Atlanta University recognizes that it is its duty as a seat of learning to throw as much light as possible upon the intricate social problems affecting the American Negro, both for the enlightenment of its own graduates and for the information of the general public. It has, therefore, during the last nineteen years sought to unite its graduates, the graduates of similar institutions, and educated persons in general throughout the country in an effort to study carefully and thoroughly certain definite aspects of the Negro problems.

Nineteen conferences have been held, and the proceedings of each have been published by the Atlanta University Press, upon: "Mortality among Negroes in Cities", "Social and Physical Condition of Negroes in Cities" "Some Efforts of American Negroes for Their Own Social Betterment," "The Negro in Business", "The College-Bred Negro", "The Negro Common School", "The Negro Artisan", "The Negro Church", "Negro Crime", "Select Bibliography", "Negro Physique", "Co-operative Business", "The Negro Family", "Efforts for Social Betterment", "The College-Bred Negro", "The Negro Common School", "The Negro American Artisan", and "Morals and Manners among Negro Americans". The twentieth conference will be held May 24, 1915.

BUILDINGS

The buildings are situated on high ground, in the western part of the city, and surrounded by sixty acres of land belonging to the Institution.

DORMITORIES

There are two principal dormitories, the one used by the girls having been erected in 1869, with a wing added in 1880. This building contains

the school-kitchen and dining-room. The dormitory used by the boys was built in 1870, with a wing added in 1871. Each of these buildings contains a parlor, reading-room and gymnasium. They also have a complete system of sanitary plumbing, with bath-tubs supplied with hot and cold water.

STONE HALL

This building, erected in 1882, stands between the two dormitories and is a gift of the late Mrs. Valeria G. Stone, of Malden, Mass. It contains the chapel, the large school-room, recitation and lecture rooms, the physical and chemical laboratories, offices, etc. This building, the two dormitories, the practice school, the library and the domestic-science building, are heated by steam from one plant.

KNOWLES INDUSTRIAL BUILDING

This building, erected in 1884, is for the use of the mechanic arts department. It is a memorial of the late Mr. L. J. Knowles, of Worcester, Mass., whose widow appropriated from his estate $6,000 for its erection, this amount being increased by the gifts of a few other friends.

Power for the machinery in the building is furnished by a steam boiler and a fifteen horse-power engine, and the rooms are equipped with pipes so as to use either steam from the boiler or the exhaust steam from the engine for heating purposes.

On the first floor of the building are various wood-working machines, a lumber room, and benches and tools for repairing and construction work. On the second floor are a bench-room, containing twenty benches, each furnished with a set of tools, and ten wood-turning lathes and tools; and two drawing-rooms, containing the necessary drawing-stands, instruments, models, etc., for free hand and mechanical drawing. In the basement are a forge-room, having twelve forges and anvils and the tools required for ordinary blacksmith work and small machine forging, and a machine-room, containing an engine lathe, drilling machine, wet and dry emery grinders, and a cabinet of machinists' tools.

THE FURBER COTTAGE

This building, also known under the more formal name of "The King's Daughters' Model Home and Maria B. Furber Cottage", was erected in 1899 from contributions which had been slowly gathered during a number of years, chiefly from circles of King's Daughters in many parts of the country and from personal friends of the late Mrs. Maria B. Furber, wife of the late Rev. Dr. Daniel L. Furber, of Newton Centre, Mass., who himself made generous additions to the building fund previous to his death. It contains dormitory rooms for at least eighteen occupants, who carry on all the work of the home without servants, and is equipped with facilities for teaching the domestic arts in the most thoroughly scientific as well as practical manner.

THE OGLETHORPE SCHOOL

This building, erected in 1904, is the gift of the General Education Board of New York and its Treasurer, Mr. George Foster Peabody, each contributing the sum of $5,000, and of a large number of other friends who contributed a third sum of $5,000. The building contains ten rooms besides a large basement, and is used for practice teaching in connection with the Normal Department, special attention being given to the training of Kindergarten teachers as well as teachers for the public schools.

CARNEGIE LIBRARY BUILDING

This building, erected in 1905, is the gift of Mr. Andrew Carnegie, who contributed $25,000 for its erection and furnishing. It contains a fire-proof stack-room, large reading and reference rooms, a lecture room, picture room, rooms for unpacking, traveling libraries, etc., and is equipped with the most modern furnishings and apparatus for effective library administration.

FUNDS

The University has thus far received but a very small part of the endowment needed to carry on even its present work, to say nothing of future growth. The invested funds on hand July 1, 1914, amounted to

For scholarships	$33,905 00
For general endowment	61,958 93
For maintenance of library	6,000 00
Total	$101,863 93

NEEDS

It will be seen from the above statement that, proportionally, the funds for general endowment are in greatest need of increase. For endowment Atlanta University needs $800,000. This would relieve the Institution of the harassing task of raising money for current expenses by incessant personal solicitation. Appealing to its record of forty-five years completed, Atlanta University asks for sufficient endowment to maintain the work at a high grade of usefulness and to meet the opening opportunities of the future.

Until such endowment is secured the Institution is almost wholly dependent upon annual donations from the benovolent public. For many years the Trustees of the John F. Salter Fund have helped the work, their present appropriation amounting to $2,250. In addition to the payments of the students, $37,000 is needed annually.

CORPORATE NAME

The corporate name of the Institution is THE TRUSTEES OF THE ATLANTA UNIVERSITY. Wills containing bequests should be attested by three witnesses in most of the States.

MISCELLANEOUS SUGGESTIONS

Each pupil should bring a Bible. It is needed for private reading, for Sunday-school, and for use in classes.

Students are required to be furnished with all prescribed text-books at the time when the use of them begins.

All should be provided with warm clothing.

Young women should provide themselves with rubbers, umbrella and coat for stormy weather.

The use of silks, velvets, or other expensive or showy materials or trimmings is considered inappropriate. Dresses of cotton and woolen materials are most suitable. Only simple dresses for the close of school are permissible. Parents are asked not to send clothing, unless the request for it is endorsed by the preceptress.

Experience has taught us that much evil comes from pupils receiving food or large quantities of fruit or candy, from home or friends. They are, therefore, not allowed to receive it. *Friends will please not send it.*

Letters should be directed in care of Atlanta University, Atlanta, Ga.

Students who do not board at their homes are not allowed to board out of the Institution, unless by special permission.

The Institution encourages the customary student organizations: athletic, literary, debating, musical and religious. Membership in unauthorized student organizations is prohibited.

Boarders are expected to furnish their own towels and napkins, and it is suggested that each one bring a blanket or comfortable and a knife, fork and spoon.

Keeping or using firearms on the premises is forbidden.

Especial attention is called to the rule prohibiting the use of all intoxicating drinks, and tobacco in every form.

The proper observance of Sunday is most important for the moral and religious welfare of the students. This Institution is the result of benevolent efforts, and that it be decidedly religious in its influence, without being sectarian, is the reasonable expectation of its friends. Boarding pupils are therefore required to attend stated religious services. Students should arrange so as not to travel on Sunday, and friends are earnestly requested not to call upon them on that day.

It is desired to make the school, as far as possible, a *home* for those who attend. Not only their intellectual, but also their physical, social, moral and religious culture receives careful attention.

The majority of our graduates, and many others who have left before finishing their course, are engaged in teaching during a part or all of the year. Besides these, during the four months of the summer vacation, some of the students engage in teaching, so that a large number of children in Georgia and other states are taught annually by those who have been connected with the Institution.

Graduates

This year the number of Atlanta University graduates passes the eight hundred mark. We plan from now on to publish the list of graduates occasionally in a separate pamphlet, and not as a part of the annual catalogue.

With this issue we print as usual a brief sketch of their work and a table indicating their occupation.

THE WORK OF OUR GRADUATES

As an encouragement to prospective students to attend Atlanta University, and to friends of Southern education to support the work, the following statement is presented showing the marked success our graduates have had in securing not only remunerative positions for their self-support, but also opportunities for the widest usefulness in the work of uplifting their race.

THE COLLEGE GRADUATES

While the two hundred and nine graduates from the College represent only a small part of the work done by the University, they represent a very important part of that work, as will be evident from a statement of the positions they occupy and the work they are doing.

Of these two hundred and nine graduates, twenty-nine have died. Of the one hundred and eighty now living, thirteen are ministers, several of whom however are classed in our summary as teachers; eight are physicians, five are lawyers, one is a dentist, eighty-six are teachers, seventeen are in the service of the United States, twenty-seven are in other kinds of business, and eight are students. These statistics together with those of the Normal graduates, are given in tabular form on page 32 of this catalogue.

MINISTERS

One of the ministers is pastor of a Congregational church in Chattanooga, Tenn., four of Baptist churches in Charleston, S. C., Atlanta,

Ga., Augusta, Ga., and Joliet, Ill.; four of Methodist churches in Columbus, Ohio, Baltimore, Md., Guthrie, Okla., and one is chaplain of the Tuskegee Normal and Industrial Institute. Another is secretary of a Y. M. C. A. branch in New York City. Some of these ministers have made addresses in national and international assemblages, one is a fellow of the Royal Geographical Society, and one has had the unique honor of being a member of the board of education in a large Southern city for fourteen successive years.

TEACHERS

Many of the teachers are holding high positions. No less than four are college presidents: of the Georgia State Industrial College, Savannah, Ga,; of Lincoln Institute, Jefferson City, Mo., of the Florida Baptist College, Jacksonville, Fla., and of the Farmers' Improvement Society College, Waco, Tex. Nine are principals of city public schools. Some of the others are designated as follows: principal of the Charleston Industrial Institute, Charleston, S. C.; principal of the Howard Normal School, Cuthbert, Ga.; principal of Manassas Industrial School, Manassas, Va.; principal of Knox Institute, Athens, Ga.; principal of High and Industrial School, Fort Valley, Ga.; principal of Payne Institute, Cuthbert, Ga.; professor of pedagogy in Atlanta University; associate professor of mathematics and science in Howard University, Washington, D. C.; professor of sloyd and mechanical drawing in the State Normal School, Petersburg, Va.; professor of pedagogy in the Georgia State Industrial College, Savannah, Ga.; principal of Burrell Normal School, Florence, Ala.; professor of mathematics in Lane College, Jackson, Tenn.; teacher of Latin in Atlanta University; supervisor of industrial work in the public schools of Memphis, Tenn.

OTHER PROFESSIONS

Of the eight physicians three are located in Atlanta, Ga., and three respectively in Denver, Colo., Evanston, Ill., and Philadelphia, Pa. Most of them were among the first in their classes in the medical schools that they attended.

The five lawyers practice two in Chicago, Ill., and the others severally in Boston, Mass., Macon, Ga., and Savannah, Ga., and are successful in their profession. One is Master in Chancery by appointment of the Governor of his State. The one dentist lives in Atlanta and has an extensive practice.

One of the graduates was a lieutenant in the army during the

Spanish War, and captain of U. S. Volunteers in the Philippine Islands. Another was paymaster with the rank of major.

NORMAL TRAINED TEACHERS

Most of these teachers are located in Georgia, but some are in Virginia, West Virginia, North Carolina, South Carolina, Missouri, Tennessee, Arkansas, Oklahoma, Texas, Alabama, Louisiana, Florida and the District of Columbia. About two-thirds of the teachers in the colored schools of Atlanta were educated in Atlanta University. Several of these have been in continuous service many years. Two have been in the same school in Savannah since 1876. While most are teaching in public schools, some being principals in important positions, a large number are also in private institutions. One is the founder and principal of Haines Normal and Industrial Institute in Augusta, Ga., a large and important school, under the Freedman's Board of the Presbyterian Church. Here several others of our graduates are assistants. Another is founder and manager of an orphans' home and school in Covington; another is principal of the Model and Training School near Athens, Ga.

Almost every one of these gradnates is a Christian and is doing work in the church, Sunday-school and home, and is exerting a strong influence for good in the community in which he lives. In a large measure they are moulders of public sentiment, and are helping in a quiet way to solve some of the perplexing problems of these troublous times. Although they are reformers in the best sense of the word, they are an eminently conservative social element.

Report of Atlanta University Library

New Book Club fines	.94

There have been six books lost and paid for by borrowers; two have been lost from the teachers' extended time books, and nine have been taken from the reserve shelves without permission and not returned; ninety-four have been repaired and rebound at the school printing office at an actual cost of $78.50.

IF a thousandth part of what has been expended in war and preparing its mighty engines had been devoted to the development of reason and the diffusion of Christian principles, nothing would have been known for centuries past of its terrors, its sufferings, its impoverishment and its demoralization, but what was learned from history.

* A part of the year.

Sketch of Atlanta University

Atlanta University is one of the pioneer institutions for the Christian education of Negro youth. It possesses excellent equipment for the work of high school, normal school and college classes and has accommodations for one hundred and sixty boarding students. It is the first institution in the state of Georgia to undertake work of college grade for Negroes, and steadily emphasizes the importance of genuine scholarship. It enjoys the cumulative advantage which results from forty-six years of continuous effective work. It has been unusually fortunate in the continuity of its administration. It was founded in 1867 under the auspices of the American Missionary Association by Edmund Asa Ware. It was presided over by him until his death in 1885. President Ware was a graduate of Yale University of the class of 1863. In 1875 his Yale classmate, Horace Bumstead, came to Atlanta as a teacher and co-worker. Dr. Bumstead succeeded to the presidency and held the position until 1907 when he resigned, and became the recipient of a Carnegie pension. His successor is Edward Twichell Ware, son of the founder and first president, a graduate of Yale University of the class of 1897.

On the teaching force there always have been, as there are now, men and women who have received the best education that this country affords. Among the colleges represented by the teachers are Harvard, Dartmouth, Chicago and Wellesley. The memory of those who have devoted their lives to this work in the past is kept fresh by the grateful memorials of the graduates. On the walls of Ware Memorial Chapel hang the pictures of the first two presidents and of other teachers. The evening sun shines through two beautiful memorial windows, one placed there by the graduates living in Savannah and the other by those living in Atlanta.

The wisdom and foresight of the founders of this institution is seen in its exceptionally fine location. Atlanta University occupies a commanding site on the summit of a hill in the western part of the city of Atlanta and is surrounded by a campus of sixty acres. There are seven substantial brick buildings, three of them covered with Boston ivy. At this season of the year the campus is particularly beautiful with its fields of alfalfa south of the buildings and the green grass and trees in front.

There are enrolled four hundred students. About two-thirds of them come up the hill every day from the city of Atlanta. The rest are in the boarding department and represent fourteen states, and thirty-five coun-

ties in the state of Georgia. These young people are many of them children of the graduates of Atlanta University and most of them have received their training in schools over which the graduates preside.

Instruction in domestic science and manual training is required of all the high school students and there are opportunities for pursuing this work further in the college course of mechanic arts and in the Furber Cottage for the normal students. The normal course comprises two years following the high school course. During the senior year the girls live in the Furber Cottage in groups of fifteen and under the supervision of the matron do all the work of the home. The institution also possesses a well equipped printing office from which is issued the catalogue and the student and alumni papers. Here there is an opportunity to learn the art of printing.

It is the purpose of Atlanta University to make the home life in the school strong and wholesome, a genuine part of its education. All students are required to spend at least their senior year in the school family where they come into daily association with each other and with the teachers. There is an athletic field for the boys and there are tennis courts for the girls and boys. The school fare is simple but wholesome. Occasional social gatherings bring the students together in pleasant fellowship. This institution is an outgrowth of the Christian spirit which brought so many earnest and devoted teachers South in the educational crusade of the sixties and seventies. The work is essentially Christian. It is undenominational and strong in religious motive. Students attend church and Sunday school. They also have their voluntary religious organizations, the Y. M. C. A. and Y. W. C. A. Participation in the religious exercises and in the home life of the school has often been instrumental in molding the character of the students for the most efficient service among their people.

There is probably no school for the Negroes in the South better equipped with facilities for domestic science, for library work, or for the training of teachers. This institution has also been long prominent for the excellence of its work in sociology. Its annual publications on the Negro problem have received wide recognition from scholars and may be found in the best libraries in this country and abroad. Recently a special course in the training of kindergarten teachers has been organized. Students have opportunity for practice in the Oglethorpe Practice School and in the mission kindergartens in the city. Twelve young women have been graduated from this course, all of whom have readily found positions as teachers.

The chief source of encouragement for the work rests in the almost uniform success of the graduates of Atlanta University. A summary of

their present occupations will be found on page 40. Under the direct instruction of the graduates there are about fifty thousand children in country and city schools. The demand for graduates as teachers and in other responsible positions increases from year to year. Never was there greater need than today for just such work as this institution accomplishes.

This catalogue issue of the Bulletin will go to many friends of Atlanta University, some of them contributors for the support of the work, some of them prospective students. To the prospective student we say: We welcome at Atlanta University all young people prepared to take up work of high school or college grade who have an earnest desire to prepare themselves for a life of usefulness. For those who cannot afford to pay the very moderate rates there are scholarship funds available by which expenses may be substantially reduced. As an earnest of faithfulness and appreciation, we require additional work from all students receiving such beneficiary aid.

Those who contribute will be interested to know that the property of Atlanta University is worth, all told, about $300,000. The invested funds amount to about $100,000. For the proper maintenance of the work we require each year about $37,000 in addition to the amount reasonably to be expected from payments of students and income from funds. This institution has no large and wealthy body of alumni to call upon for maintenance. Many of the graduates are giving annually what they can afford. We earnestly appeal to all who believe in Christian education for help in the maintenance of the work. It is hoped that through the generosity of our friends this institution may some time possess an endowment adequate to the needs of the work. Until then we are dependent on the endowment of friends who give from year to year. May we not hope that their number will increase so that we may meet the growing demands of the work and occupy a constantly broadening field of usefulness.

Opportunities for POST GRADUATE STUDY leading to the degree of A. M. are offered to a limited extent; also two FELLOWSHIPS, open to college graduates, and three TUTORSHIPS, open to normal graduates. Particulars can be learned from the President.

COURSES OF STUDY

There are three courses of study: the High School, the Normal, and the College. See Entrance Requirements.

NOTE 1—The figures denote the number of recitations, or their equivalent, a week. All studies continue throughout the year, unless otherwise indicated.

NOTE 2—Quite a number of students enter the High School Course with insufficient preparation. They are expected to take two years for the work of the First Year Class.

The College Course in Education includes most normal work, and enough college work to make the desired number of credits.

The College Course in Mechanic Arts includes at least one special course of four credits in each year, and other college work to complete.

In All College Courses at least eight credits each are required in Mathematics, Science and Philosophy; and at least twelve each in English, Social Science and Foreign Languages.

ENTRANCE REQUIREMENTS

The requirement for admission to the lowest class in the High School is the completion of the ordinary grammar school course. Examinations are given in arithmetic, grammar, U. S. history and geography. For admission to higher classes and courses students are required to give evidence that they have completed all lower work, or its equivalent.

In case students from other institutions desire full admission to our college or normal courses, they must strictly conform to the following: (1) They must fully convince us that they have satisfactorily completed at least fifteen units of high school work. (2) At least eleven of these units must be in the departments of English, Latin, Mathematics, Social Science (including History) and Natural Science. Of these eleven at least three must be English, and at least five (one of them three and the other two) Latin and Mathematics in the case of college students, or Natural Science and Mathematics in the case of normal students.

The word "unit," as meant in the above requirement, represents a year's study in any subject in a secondary school, constituting approximately a quarter of a full year's work. It is assumed that a study is pursued for four or five periods a week, that a recitation period is from forty to sixty minutes in length, and that the length of the school year is from thirty-six to forty weeks.

Candidates for advanced standing, from other institutions in the Association of Colleges for Negro Youth, of which Atlanta University is a member, are admitted without examination. Candidates from certain other schools, on a list approved by the faculty, are often similarly admitted; but even in such cases this institution reserves the right to examine as fully as may be deemed necessary. Particulars will be given, as adapted to each individual case, upon application.

Entrance credit is always granted *on trial*, and may be modified if the student's work shows that too many units have been granted to him.

HONORS AND PRIZES

College Class of 1915. *With Highest Honor*—Harry Butler Peters. *With Honor*—Sadie Ann Thorne, John Philip Whittaker.

Normal Class of 1915. *With Honor*—Ruth J. Andrews, Lucile E. Gassett, Alice H. Greenwood, Lottie B. Heard, Isabella H. Whittaker.

The *Alumni Prizes for Excellence in Debate* were awarded in 1915-16, in the order named, to William L. Hansberry, Loring B. Moore and Walter F. White.

The *Herndon Prizes for Excellence in Public Speaking* were awarded in 1915-16, in the order named, for boys to Clinton Blake, George Madison, Rufus McKinney; for girls to Carrie Herndon, Flossie Armstrong, Eloise Greenwood.

COURSES OF INSTRUCTION

The figures denote the number of recitations, or their equivalent, a week. All studies continue throughout the year unless otherwise indicated. Where two classes combine, as the Junior and Senior College classes, courses are given alternate years. This is the usual explanation of the repeated comment, "Not given in 1915-16."

I. CLASSICS AND MODERN LANGUAGES

PREPARATORY COURSES

LATIN A.[5] Fundamental principles. Text book, Bennett's First Year Latin.

LATIN B.[4] The equivalent of three books of Cæsar; drill in grammar and prose composition. Greenough, D'Ooge and Daniell's Second Year Latin.

LATIN C.[4] Five orations of Cicero. Prose composition.

LATIN D.[4] Five books of Virgil. Prosody and Mythology.

GREEK A.[5] Elementary, and nearly two books of Xenophon's Anabasis.

COLLEGE COURSES

LATIN I.[4] Selections from Cicero, Livy and Pliny, alternating with LATIN II,[4] selections from Horace, Tacitus and others. Attention also given to Roman history and literature.

GREEK I.[5] Selections from Lucian, Homer, Thucydides and Euripides, alternating with GREEK II,[4] selections from Herodotus, Plato, Demosthenes and Æschylus.

GERMAN I.[5] Work in grammar, with practice in speaking and easy reading.

GERMAN II.[4] Prose composition, and a selected classic, this year Schiller's William Tell.

FRENCH I.[4] Senior. Chardenal's Complete Course, supplemented by exercises in conversation, and the stories L'Abbé Constantin and Gil Blas, or their equivalents.

II. PHYSICAL AND NATURAL SCIENCES

PREPARATORY COURSES

A.[4] ELEMENTARY. Not given in 1915-16.

B (½).[5] PHYSICAL GEOGRAPHY. A general course.

C.[4] BIOLOGY. Physiology one-half year; and botany, and also elements of agriculture, one-half year.

D.[4] CHEMISTRY. Elementary; one credit earned by laboratory work.

E.[4] PHYSICS. Elementary, one credit being earned by laboratory work: experiments in physical measurements, mechanics of solids and fluids, heat, light, sound and electricity.

COLLEGE COURSES

CHEMISTRY I.[4] General inorganic chemistry. Two laboratory triple periods, and two class-room exercises devoted to lectures, demonstrations and recitations.

CHEMISTRY II.[4] (a) Qualitative analysis, a laboratory course upon the metallic and acid-radicals, with group separations and study of unknowns; (b) Practical applications, a laboratory course, including gravimetric analysis with the analytical balance, and volumetric analysis with the burette.

CHEMISTRY III.[4] Organic chemistry, (a) Lectures upon the carbon compounds; (b) Laboratory course upon organic preparations.

PHYSICS I.[4] Physics A, and Mathematics I, II and III are prerequisites. First semester, mechanics and heat; second semester, electricity, sound and light. Two laboratory triple periods weekly, and two class-room exercises devoted to lectures, demonstrations and recitations. Not given in 1915-16.

BIOLOGY I.[4] Not given in 1915-16.

PHYSIOGRAPHY (½).[4] Advanced, as an equivalent for geology.

ASTRONOMY (½).[4] A general course, using Moulton's Elements of Astronomy.

NORMAL COURSES

See GEOGRAPHY and GEOLOGY, under PEDAGOGY.

LABORATORIES AND CABINETS. The physical laboratory, 50x20 feet, and the chemical laboratory, 50x25 feet, are fitted and furnished for the elementary and advanced courses. A well-equipped science lecture room is furnished with apparatus for class demonstration and lecture purposes. The geological and mineralogical cabinets are well adapted to teaching purposes.

III. MATHEMATICS

PREPARATORY COURSES

A.[5] ALGEBRA. Elementary, including ratio and proportion, radicals, the binomial theorem, simple quadratics, use of the graph; also radical equations and theory of exponents for those expecting more advanced work in algebra.

B (½).[5] GEOMETRY. The more essential principles of plane geometry, including the simpler originals, theorems and constructions.

C (½).[5] GEOMETRY. More complete work in the foregoing; loci, incommensurables and variables.

D.[4] ALGEBRA. Review of elementary work, and especial drill in quadratics, complex numbers, logarithms, the use of the graph.

E.[5] BUSINESS METHODS. Designed to give a general knowledge of business forms and the keeping of accounts.

COLLEGE COURSES

I.[4] ALGEBRA one-half year, with special drill in series, determinants, solutions of higher equations; and GEOMETRY one-half year, solid and spherical, with problems.

II (½).[4] TRIGONOMETRY, plane and spherical, with practical applications; and surveying, with field practice.

III (½).[4] ANALYTICS. Smith and Gale's Analytic Geometry.

IV (½).[4] DESCRIPTIVE GEOMETRY. See MECHANIC ARTS.

V.[4] CALCULUS, differential and integral.

IV. ENGLISH

PREPARATORY COURSES

I. ENGLISH A. First Semester: Review of grammar; a brief study of description, narration, exposition and argument; practice in writing. Text book, Scott and Denney's Elementary English Composition. Second Semester: Further drill in composition; Christian Life and Conduct, using the Bible Study Union lesson system.

ENGLISH B. General survey of both English and American literature. Reading and memorizing, with oral and written reports.

ENGLISH C. Detailed study of selected classics: Silas Marner, Ivanhoe, Vicar of Wakefield, Merchant of Venice, As You Like It; English Poetry; Rhetoric and Composition.

ENGLISH D. First Semester: Vanity Fair; selections from Browning; Virginibus Puerisque. Second Semester: Essay on Burns; Lowell on Books and Libraries; King Lear; Emerson on Self-Reliance and Friendship.

BIBLE A. See under ENGLISH A.

BIBLE B (½).[4] Outlines of Old Testament History, using the Bible Study Union lesson system.

EXPRESSION A and B. Twice a week during one semester, for students in Second and Fourth Years; each time taking the place of one exercise in ENGLISH B and D. Drill in vocal expression, voice training and pantomime.

NORMAL COURSES

ENGLISH (½).[4] Advanced work in narration, description, exposition and argumentation, using Scott and Denney's New Composition-Rhetoric; Children's Literature. Each student prepares a book of myth stories taken from Guerber's Myths of Greece and Rome.

EXPRESSION. Similar to College Course.

COLLEGE COURSES

ENGLISH I.[4] Detailed study of several extended classics, with special reference to the development of types; lectures upon the art of composition; elementary argumentation. Themes.

ENGLISH II (½).[5] Argumentation. Study of text book for theory, and practice in writing briefs and forensics. Not given in 1915-16.

BIBLE I (½).[5] After a study of the formation of the canon, of the various versions, and of the literary qualities of the Bible, the historical method is used in a study of the history of the Hebrew people through the Greek period. Texts: The Old Testament, and Sanders and Fowler's Outlines. Collateral reading. Not given in 1915-16.

EXPRESSION I and II. Voice culture, physical exercises, gesture drills and training in reading from standard literature. The aim in this department is to lead the pupil to think clearly and deeply, and to express simply, forcefully, and beautifully, his own thoughts and the thoughts of others. As an outcome of this study, the Merchant of Venice was presented as the class night exercise in 1905, the Taming of the Shrew in 1906, As You Like It in 1907, Twelfth Night in 1908, Sheridan's Rivals in 1909, The Tempest in 1910, Midsummer Night's Dream in 1911, Macbeth in 1912, Comedy of Errors in 1913, Dickens's Cricket on the Hearth in 1914, and Banin's Damon and Pythias in 1915.

PUBLIC RHETORICALS. Rhetorical exercises, to which the public is especially invited, are held six times a year, being made up of orations, essays, recitations and music. For the dates, see *Calendar*.

V. PHILOSOPHY

PREPARATORY COURSES

ETHICS A (½).[5] Elementary. Especial attention given to biblical teachings and practical questions. Not given in 1915-16.

COLLEGE COURSES

PSYCHOLOGY I (½).[4] The text book, Angell's, is supplemented by collateral readings, lectures and experiments. This is an introductory course, giving a general survey of the essential facts and fundamental laws of mind and of consciousness.

HISTORY OF PHILOSOPHY I (½).[4] A study of the development of philosophic thought, beginning with the Greeks, continuing through the Renaissance, the modern systems from Bacon and Descartes through Kant, and the important developments since Kant. The text book will be supplemented by lectures and required readings in the sources. Text: Cushman. Not given in 1915-16.

ETHICS I (½).[4] A systematic course, investigating the psychological basis of conduct, tracing the growth of moral ideas in the race and discussing the various theories of the moral standard, with especial reference to the social consciousness. A thesis is required of each student. Text: Dewey and Tufts. Not given in 1915-16.

NORMAL COURSES

See under PEDAGOGY.

VI. SOCIOLOGY AND HISTORY

It is intended to develop this department not only for the sake of the mental discipline, but also in order to familiarize our students with the history of nations and with the great economic and social problems of the world. It is hoped that thus they may be able to apply broad and careful knowledge to the solving of the many intricate social questions affecting their own people. The department aims, therefore, at training in good, intelligent citizenship; at a thorough comprehension of the chief problems of wealth, work, and wages; at a fair knowledge of the objects and methods of social reform; and at a general comprehension of the world's thoughts and deeds. The following courses are established:

PREPARATORY COURSES

CIVICS A (½).[5] Dole's American Citizen.

HISTORY A.[5] General history; the first semester, to 800 A. D., and the second semester, to 1900 A. D.

HISTORY B (½).[4] A course in English history, with a special desire to show the development of England and its relations to Western Europe, the New World, the far East, and Africa.

ECONOMICS-CIVICS A.[5] A course in the elementary principles of economics and government, with special emphasis on their application to Negro American life. Not given in 1915-16.

NORMAL COURSES

HISTORY (½).[4] A course in the history of the United States, intended especially for teachers. Special attention is given to the Negro's connection with the history of the United States. A thesis on slavery, embodying results of personal research, is required of each student.

CIVICS (½).[4] A course in the government of the United States, with special reference to its historical development.

COLLEGE COURSES

HISTORY I.[4] World history; and history of the Negro, with special reference to the United States and Africa.

ECONOMICS.[3] General economics, and economic history of the Negro American. The principles of political science are included in this

course; alternating with SOCIOLOGY.[4] General sociology, and social condition of the Negro American.

SOCIOLOGICAL LABORATORY. This consists of a special library of books on statistics, economics, sociology and history, with duplicate copies of standard works and of maps, charts and collections illustrating social and historic conditions. Here the courses of this department are taught, with special reference to the American Negro. Field work and thesis work are required.

In addition to this, graduate study of the social problems in the South by the most approved scientific methods is carried on by the Atlanta Conference, composed of graduates of this and other institutions.

The aim is to make Atlanta University the center of an intelligent and thorough-going study of the Negro Problems. Twenty reports of the Conference have been published.

The library contains a good working collection of treatises in history and sociology, and special reports on outside reading are required in all these courses.

VII. PEDAGOGY

GENERAL NORMAL COURSES

A (½).[4] EDUCATIONAL PSYCHOLOGY. The study of this subject in its relation to the work of the teacher.

B (½).[4] PEDAGOGY. This course deals with school management and organization; which includes the planning of courses of study for elementary and secondary schools, the consideration of educational values, the history of education, and the discussion of the problems peculiar to the common schools of the South.

C.[2] GENERAL METHODS. Discussion of all subjects of study taught in the Oglethorpe School, and of their relations to each other and to the whole. Special discussion of the methods of teaching. General critic work.

D.[1] OBSERVATION. The Junior Normal Students attend the classes of the Oglethorpe Training School each week, to observe and criticize the work of the different grades and the Kindergarten classes.

E[3]. TEACHING. The Senior Normal Class have practice-teaching in the Training School, daily during the school year. This practice is divided among the different grades and the Kindergarten classes; and is also divided among the different subjects of study.

F. SPECIAL METHODS. (a) *Arithmetic.*[4] A careful review of principles and applications, laying special stress upon analytical methods, and discussion of methods of teaching.

(b) *Grammar* (½).[4] The structure of the English language is carefully studied.

(c) *Art and Basketry.*[2] For *Art*, see under *Manual Training.* Basketry and other handwork for the various grades. History of basketry. Teaching the use of native materials.

(d) *Geography and Physiography.*[4] "Principles of Geography" is made the basis of the course. This includes mathematical and astronomical geography; the principles of relief, the principles of climate, the principles of plant and animal distribution.

(e) *Music.* Taken with especial reference to teaching.

(f) *Home and School Sanitation.* See under *Household Arts.*

KINDERGARTEN NORMAL COURSES

JUNIOR YEAR. (a) *Children's Handwork and Games.*[2] The purpose of this course is to make the normal students more effective teachers in their work with little children through the introduction into the regular school program of simple handwork and educational games.

(b) *Constructive Materials.*[2] Special study of the kindergarten materials and their function in the mental and moral development of the child.

(c) *Nature Study.*[1] Taken up in its relation to the three-fold development of the child. Special emphasis on gardening and nurture of plant and animal life.

(d) *Observation*[1] of kindergarten and primary teaching under critic teachers in the Oglethorpe School.

SENIOR YEAR. (a) *Child Study* (½).[2] Discussion of methods of training children in home and school to physical, mental and moral health.

(b) *Children's Literature* (½).[2] Study of literature for small children, with practice in telling stories suitable for use in the home or class room.

(c) *Froebel's Mother Play.*[2] Study of the text for the purpose of deducing simple, practical suggestions for child training, which with pictures, stories, songs, and references to mature literature are kept in note book form.

(d) *Kindergarten Theory.*[2] Study of the educational theory of Froebel and comparison with other theories that affect kindergarten and primary practice today.

(c) *Program Making.*[2] Formation and discussion of outlines of daily, weekly, monthly and yearly kindergarten programs, with study of principles and methods that underlie kindergarten and primary practice.

THE OGLETHORPE SCHOOL. In this school—described under *Buildings*—is given an opportunity to engage in the actual work of teaching and to observe such work under thoroughly competent supervisors. The organization includes eight grades and a kindergarten.

GAME FESTIVAL. As an outcome of the study of games, a play festival, including typical games and folk dances, in which Junior Normal girls and kindergarten, first and second grades of the Oglethorpe School participate, is held during the Commencement week.

COLLEGE COURSES

Normal course B is required of all, and other normal courses are included in the special College Course in Education.

VIII. MUSIC

VOCAL MUSIC. This is required of all High School students in the first and second years. These receive such elementary instruction as is needed, and have practice in chorus singing. An advanced chorus meets twice a week throughout the year, being composed of most of the High School students beyond the second year, and selected College and Normal students.

For terms of instruction to private pupils, see *Expenses*.

INSTRUMENTMAL MUSIC. Instruction in the piano is given at a reasonable charge, for which see *Expenses*. Eight pianos are in use by the Institution. An effort is made to suit the instruction to the needs of the individual pupil. In general the *Elementary Course* includes a thorough foundation in technique, with selected studies and sonatinas, and easy pieces by classical and modern composers; the *Advanced Course* continues the study of technique, including major and minor scales in various forms; arpeggios and chords, etudes and studies. Greater attention is given to such composers as Mendelssohn, Schumann, Schubert, Chopin, Grieg, Rubinstein, Mozart, Haydn, Beethoven. Private recitals are given at intervals and a public recital is given at close of the year.

IX. MANUAL TRAINING AND HOUSEHOLD ARTS

FIRST YEAR. *Drawing*[1] (64 hours). For all. Nature work, decorative design and construction work.

Manual Training[4] (240 hours). For Boys. Mechanical drawing—practice in lettering, free-hand and mechanical working drawings of projects to be made in the benchroom; benchwork—exercises and simple projects involving the use of the common wood-working tools; wood-turning—elementary turning on centers. Text books—Griffith's "Essentials of Woodworking" and "Projects for Beginning Woodwork and Mechanical Drawing."

Sewing (96 hours). For Girls. Instruction in basting, running, backstitching, overcasting, top-sewing, hemming, French seam, flat fell, patching, gathering and binding, making of ruffles, tucking, button holes, and the sewing on of buttons. Practical uses of these processes are taught in the making of a sewing outfit.

SECOND YEAR. *Drawing*[1] (64 hours). For all. Fuller development of the work of the first year; also object drawing, color work, light and shade, pose drawing and applied design.

Manual Training[3] (192 hours). For Boys. Wood-turning—exercises and projects in spindle turning and face-plate work; mechanical drawing—simple orthographic drawing, working drawings of projects; advanced benchwork—projects involving the use of mortise and tenon and other forms of joints. Text books—those mentioned above and Bennett's "Problems in Mechanical Drawing."

Sewing (96 hours). This course provides instruction in plain machine work. Practical mending and patching is taken up. Cutting and fitting of single undergarments from commercial patterns is taught. Each girl is required to make a suitable gown for use in cooking. Students may buy garments at cost.

Cooking (24 hours). See Fourth Year.

THIRD YEAR. *Sewing* (72 hours). This course offers instruction in drafting, cutting, fitting, and the making of a plain tailored shirt waist. During the second term each girl makes a simple cotton dress from commercial patterns.

Cooking (48 hours). See Fourth Year.

FOURTH YEAR. *Art.* Fuller development of advanced work of second year. Special emphasis on methods of teaching drawing. Stenciling with original design.

Sewing (96 hours). This course offers instruction in dressmaking processes, drafting, cutting and fitting. Each student is expected to buy material for an inexpensive woolen dress or a woolen skirt and a lighter weight waist.

Cooking (48 hours). This includes a study of the following subjects related to cooking and household management: the care and cleanliness of dishes, kitchen utensils, sink and ice chest; the value of sunshine and fresh air throughout the house; yeast and bread making; buying and cooking of meats. The chemistry of cooking is illustrated by practical experiments, and charts are used to show the comparative nutritive values of foods. Emphasis is placed upon the wholesome and economical use of "left overs."

Household Arts. Marketing; preservation, preparation and attractive serving of wholesome food; and other practical topics.

Sanitation. Theory of disease; household bacteriology; simple household remedies. The course also includes household accounts, buying household linen, systematizing of labor.

JUNIOR NORMAL YEAR. *Art.* Review of all the work of previous years; advanced methods in art; schoolroom decoration and creative design; historic ornament.

JUNIOR AND SENIOR NORMAL YEARS. The members of the Normal course spend a portion of their time in Furber Cottage, where practical instruction in cooking and housekeeping is given. It is intended that this, with the work in cooking, household arts and sanitation, shall include a complete course in the profession of home-making.

PRINTING. Opportunity is given in a well-appointed printing office to learn typesetting, newspaper, book and job work. For a more complete description of this office see page 28.

LAUNDERING. This is a part of the assigned work (p. 23) and affords opportunity for instruction in washing and ironing under the supervision of the laundry superintendent.

X. MECHANIC ARTS

The Mechanic Arts Course is designed primarily to fit our graduates for teaching along industrial lines.

PREPARATORY SUBJECTS

MECHANIC ARTS A[4] and B.[4] Junior Prep. and Senior Prep. Woodturning—advanced work in spindle and face-plate turning, including design of projects; carpentry—construction of a model frame house or full size work of a similar nature; elementary iron-working—simple operations in blacksmithing, including welding and tool making, machine shop practice in chipping, filing, polishing, drilling, tap and die work, simple turning; drawing—elements of orthographic projection, including developments and intersections of surfaces, machine drawing, architectural drawing.

COLLEGE SUBJECTS

(Given when desired.)

MECHANIC ARTS I.[5] Freshman. Description of engineering mechanisms and operations.

MECHANIC ARTS II.[4] Sophomore. Descriptive geometry.

MECHANIC ARTS III.[4] Junior. Furniture design and construction; shop management, including running of boiler and engine, care and operation of woodworking machinery; forge and machine shop practice.

MECHANIC ARTS IV.[4] Senior. Carpentry and building construction; strength of materials; architectural drawing.

MANUAL TRAINING I.[4] Sophomore. Observation of High School manual training. History and systems of manual training.

MANUAL TRAINING II.[4] Senior. Materials and methods of manual training. Practice teaching.

GENERAL INFORMATION

LOCATION

The University grounds are at the head of West Mitchell street, about one mile from the center of the city of Atlanta, Ga., and a little more than one-half mile from the new terminal station. Electric cars marked "WEST HUNTER, ASHBY ST.," leave the corner of Marietta and Broad streets, run near the terminal station, and directly past our gate.

MEMBERSHIP

Good health being necessary for success in study, it is expected that none who are permanently weak or diseased will apply for admission. The Institution has a good reputation for healthfulness, and the interests of the people for whom it was founded demand that this reputation should be maintained. Applicants are required to present a physician's certificate certifying to good health, and the time of the last effective vaccination if needed.

Application for admission should be made at least a month before the beginning of the school year, and should state, fully, previous education and present plans.

Students should enter the first day of the school year, that they may be immediately classified, and thus lose no time in beginning work.

During vacation, as well as during term time, students are held amenable to the authority of the school.

The Institution is not sectarian in its religious instruction or influence, while aiming to be thoroughly Christian. It is open to all students of either sex.

GOVERNMENT

Discipline is administered with firmness and impartiality, and aims to induce a high moral sentiment, which shall be in itself a powerful governing force in the school.

When it becomes plain that a pupil has not a fixed purpose to improve his time, and an earnest desire to fit himself for usefulness, he is removed without specific charges.

Suspension and expulsion from the Institution are resorted to in cases whose seriousness calls for such punishment.

When students are exposing themselves and others to permanent harm, it is expected that high-minded persons will be governed by the dictates of conscience and common sense, rather than by any false sense of honor in regard to disclosing the facts to the proper authorities.

EXPENSES

	Per Month
Boarding, including furnished rooms, fuel, lights and washing	$14 00
Tuition in College and Normal courses	3 00
Tuition in High School course	2 50
Instruction in Instrumental Music	2 00
Use of instrument one hour per day	50
Instruction in Vocal Music	2 00

Incidental fee, due at entrance each year; boarders, $2.00; day pupils, $1.00.

All payments are due in advance on the first of each calendar month. Fractions of a month are charged at a somewhat higher rate. Deduction of 10 % on tuition if paid in advance by the third of the calendar month, provided all other bills of the student have heen settled.

The following laboratory charges are made: Elementary Physics, $1.00 a year; Elementary Chemistry, $1.00 a term, $2.00 a year; College Chemistry, $2.00 a term, $4.00 a year; College Physics, $2.00 a year.

Students taking instruction in music, vocal or instrumental, are required to make a deposit of $1.50 at the beginning of each term to pay for needed music. Any unused balance will be returned. Notice of intention to discontinue special lessons should be given in writing at least two weeks in advace.

Students given the favor of a special examination, apart from the time regularly assigned to entrance or class examinations, pay a moderate fee for the privilege.

All boarding students are required to work for the Institution at least one hour a day. This requirement helps make the above low charges possible.

Remittances in payment of bills should be made by money orders, drafts, in registered letters, or by express.

Make money orders or drafts payable to Atlanta University. Receipts will be promptly returned.

STUDENT AID

Some students have been aided in past years by contributions from the friends of popular education. It is expected that this help will be continued, and the income of the scholarship funds is also now available.

Persons should not come expecting to receive aid until they have applied for it and received a favorable answer. Those applying should state their pecuniary circumstances, their advancement in their studies, and as far as possible, what pursuit they intend to follow. In no case is aid granted for a longer time than the current year, without renewed application. Those who are aided are assigned to some extra work. Upon the faithfulness with which this work is done depends the continuance of aid. It is expected that those who receive help will, when able, return the amount to aid others.

THE LIBRARY

By the liberality of the late R. R. Graves, Esq., of New York, and a few other friends, the library now contains about 16,000 volumes. Mr. Graves also gave a permanent endowment of five thousand dollars, since increased to six thousand, which insures its steady growth. It has been completely catalogued according to the Dewey system.

In January, 1906, the books of the library were moved from Stone Hall into the new building, erected by the munificence of Mr. Andrew Carnegie. For a description, see *Buildings*.

Aside from the reading room in the library building, there are also reading rooms in each of the two principal dormitories, thus giving to those in the boarding department convenient access to many of the leading papers and periodicals of the country.

THE MARBLEHEAD LIBRARIES

In 1910 a traveling library system was inaugurated at Atlanta University. This was made possible by the generosity of the late James J. H. Gregory of Marblehead, Mass., who carefully selected and gave for this purpose over 2,000 books. They have been arranged in collections of from forty to fifty volumes, and are sent for terms of six months to schools or responsible individuals, so that they may be used to the greatest advantage in the localities receiving them. Fifty libraries are now in circulation.

THE ATLANTA CONFERENCE

Atlanta University recognizes that it is its duty as a seat of learning to throw as much light as possible upon the intricate social problems affecting the American Negro, both for the enlightenment of its own graduates and for the information of the general public. It has, therefore, during the last twenty years sought to unite its graduates, the graduates of similar institutions, and educated persons in general throughout the country in an effort to study carefully and thoroughly certain definite aspects of the Negro problems.

Twenty conferences have been held, and the proceedings of each have been published by the Atlanta University Press, upon; "Mortality among Negroes in Cities," "Social and Physical Condition of Negroes in Cities," "Some Efforts of American Negroes for Their Own Social Betterment," "The Negro in Business," "The College-Bred Negro," "The Negro Common School," "The Negro Artisan," "The Negro Church," "Negro Crime," "Select Bibliography," "Negro Physique," "Co-operative Business," "The Negro Family," "Efforts for Social Betterment," "The College-Bred Negro," "The Negro Common School," "The Negro American Artisan," "Morals and Manners among Negro Americans,"

and "Select Discussions of Negro Problems." The twenty-first conference will be held May 29, 1916.

BUILDINGS

The buildings are situated on high ground, in the western part of the city, and surrounded by sixty acres of land belonging to the Institution.

DORMITORIES

There are two principal dormitories, the one used by the girls having been erected in 1869, with a wing added in 1880. This building contains the school kitchen and dining room. The dormitory used by the boys was built in 1870, with a wing added in 1871. Each of these buildings contains a parlor, reading room, and gymnasium. They also have a complete system of sanitary plumbing, with bathtubs supplied with hot and cold water.

STONE HALL

This building, erected in 1882, stands between the two dormitories and is a gift of the late Mrs. Valeria G. Stone, of Malden, Mass. It contains the chapel, the large schoolroom, recitation and lecture rooms, the physical and chemical laboratories, offices, etc. This building, the two dormitories, the practice school, the library and the domestic science building are heated by steam from one plant.

KNOWLES INDUSTRIAL BUILDING

This building, erected in 1884, is for the use of the mechanic arts department. It is a memorial of the late Mr. L. J. Knowles, of Worcester, Mass., whose widow appropriated from his estate $6,000 for its erection, this amount being increased by gifts of a few other friends.

Power for the machinery in the building is furnished by a steam boiler and a fifteen horse-power engine, and the rooms are equipped with pipes so as to use either steam from the boiler or the exhaust steam from the engine for heating purposes.

On the first floor of the building are various wood-working machines, including nineteen wood-turning lathes, a lumber room, and benches and tools for repairing and construction work. On the second floor are a bench room, containing twenty benches, each furnished with a set of tools; and two drawing rooms, containing the necessary drawing stands, instruments, models, etc., for free-hand and mechanical drawing. In the basement are a forge room, having twelve forges and anvils and the tools required for ordinary blacksmith work and small machine forging, and a machine room, containing an engine lathe, drilling machine, wet and dry emery grinders, and a cabinet of machinists' tools.

THE FURBER COTTAGE

This building, also known under the more formal name of "The King's Daughters' Model Home and Maria B. Furber Cottage," was erected in 1899 from contributions which had been slowly gathered during a number of years, chiefly from circles of King's Daughters in many parts of the country and from personal friends of the late Mrs. Maria B. Furber, wife of the late Rev. Dr. Daniel L. Furber, of Newton Centre, Mass., who himself made generous additions to the building fund previous to his death. It contains dormitory rooms for at least eighteen occupants, who carry on all the work of the home without servants, and is equipped with facilties for teaching the domestic arts in the most thoroughly scientific as well as practical manner.

THE OGLETHORPE SCHOOL

This building, erected in 1904, is the gift of the General Education Board of New York and its Treasurer, Mr. George Foster Peabody, each contributing the sum of $5,000, and of a large number of other friends who contributed a third sum of $5,000. The building contains ten rooms besides a large basement, and is used for practice teaching in connection with the Normal Department, special attention being given to the training of Kindergarten teachers as well as teachers for the public schools.

CARNEGIE LIBRARY BUILDING

This building, erected in 1905, is the gift of Mr. Andrew Carnegie, who contributed $25,000 for its erection and furnishing. It contains a fire-proof stack-room, large reading and reference rooms, a lecture room, picture room, rooms for unpacking, traveling libraries, etc., and is equipped with the most modern furnishings and apparatus for effective library administration.

NEEDS

The great need of Atlanta University is an adequate endowment. At present the invested funds amount to about $106,000. The Institution should have, to maintain the work as how organized, at least $800,000. This would relieve the Institution of the harassing task of raising money for current expenses by incessant personal solicitation. Appealing to its record of forty-six years completed, Atlanta University asks for sufficient endowment to maintain the work at a high grade of usefulness and to meet the opening opportunities of the future.

Until such endowment is secured the Institution is almost wholly dependent upon annual donations from the benevolent public. For many years the Trustees of the John F. Slater Fund have helped the work, their present appropriations amounting to $2,425. In addition to the payments of the students, $37,000 is needed annually.

CORPORATE NAME

The corporate name of the Institution is THE TRUSTEES OF THE ATLANTA UNIVERSITY. Wills containing bequests should be attested by three witnesses in most of the states.

MISCELLANEOUS SUGGESTIONS

Each pupil should bring a Bible. It is needed for private reading, for Sunday school, and for use in classes.

Students are required to be furnished with all prescribed text books at the time when the use of them begins.

All should be provided with warm clothing.

Young women should provide themselves with rubbers, umbrella and coat for stormy weather.

The use of silks, velvets, or other expensive or showy materials or trimmings is considered inappropriate. Dresses of cotton and woolen materials are most suitable. Only simple dresses for the close of school are permissible. Parents are asked not to send clothing, unless the request for it is endorsed by the preceptress.

Experience has taught us that much evil comes from pupils receiving food or large quantities of fruit or candy, from home or friends. They are, therefore, not allowed to receive it. *Friends will please not send it.*

Letters should be directed in care of Atlanta University, Atlanta, Ga.

Students who do not board at their homes are not allowed to board out of the Institution, unless by special permission.

The Institution encourages the customary student organizations: athletic, literary, debating, musical and religious. Membership in unauthorized student organizations is prohibited.

Boarders are expected to furnish their own towels and napkins, and it is suggested that each one bring a blanket or comfortable and a knife, fork and spoon.

Keeping or using firearms on the premises is forbidden.

Especial attention is called to the rule prohibiting the use of all intoxicating drinks, and tobacco in every form.

The proper observance of Sunday is most important for the moral and religious welfare of the students. This Institution is the result of benevolent efforts, and that it be decidedly religious in its influence, without being sectarian, is the reasonable expectation of its friends. Boarding pupils are therefore required to attend stated religious services. Students should arrange so as not to travel on Sunday, and friends are earnestly requested not to call upon them on that day.

It is desired to make the school, as far as possible, a *home* for those who attend. Not only their intellectual, but also their physical, social, moral and religious culture receives careful attention.

The majority of our graduates, and many others who have left before finishing their course, are engaged in teaching during a part or all of the year. Besides these, during the four months of the summer vacation, some of the students engage in teaching, so that a large number of children in Georgia and other states are taught annually by those who have been connected with the Institution.

THE GRADUATES

A summary of the graduates and their work is given on page 40 of this catalogue, followed by a list of their names by classes with the address and occupation of each.

The majority of all the living graduates are teachers, some of them holding positions of great responsibility. In this profession as well as in other professions and in business they have been almost universally successful and have contributed largely to the welfare of the colored people.

Almost every one is a Christian and actively engaged in the work of the church, the community and the home, exerting a strong influence for good. In a large measure the graduates of Atlanta University are moulders of public sentiment, and are helping in a quiet way to solve some of the perplexing problems confronting their people. Although they are reformers in the best sense of the word, they are an eminently conservative social element.

We shall gladly send on request a more detailed record of the work of the graduates.

PRINTING OFFICE

This catalogue was printed in the Atlanta University Printing Office, where we also print and bind the annual Conference report; the other issues of the BULLETIN; a monthly for the students, *The Scroll;* and a quarterly for the Alumni, *The Crimson and Gray.* Job work is also done.

The office is equipped with one Colt's Armory press 14x22, one Colt's press 10x15, a 33-inch Seybold power paper cutter, a Morrison power stitching machine, Chandler & Price proof press 10x31, 80 fonts of job type, 1,500 pounds of body type, one Kaufman stone 40x80, one Polhemus and three Tracy steel-run cabinets, and electric power to operate the machinery.

THE world is looking toward us because this is the one great neutral nation and because our distinctive standard is inclusive brotherhood. Our answer to the world is based on this principle, for no peace can endure except by the adoption of the principle that all nationalities are entitled to develop, and each is obligated to contribute to the welfare of the whole world.
